Testimony By Paul James Black 8-29-91

I am Paul Black and my residence is on Sho-Fly Creek. My mailing address is P.O. Box 273, Grand View, Idaho, 83624. I was born in Brunau on October, 9, 1912. I have been asked by Gene Davis to give a statement concerning my recollection of my early days in the Battle Creek Country, in regards to the irrigated meadows in the area of T. 9S. R. 01E., better known to me as the Dutch Field, the Groom Field, the School Section Field, and the Vic Henge Place.

My father Joe Black owned a forty acre parcel of land for some years prior to my birth adjacent to the Vic Henge Property, and was in the horse business and cattle business for many years in that area. He bought the Groom's Field in 1915, and other properties in following years.

I grew up in this Country, as did most youngsters in those days, and spent a great deal of time horselack at an early age.

I have numerous pictures of myself being horselack as a young lad of four years old, and also of my father and neighboring cowboys during that time. I clearly recall making long rides with my father long before I started school at the age of six.

MICROFILMED

SEP 29 1992

I clearly remember before starting school of our neighbor Vic Penge harvesting hay on his meadow with a hand dyke, and a homemade hand rake. Also I recall the irrigated meadows in the above mentioned fields ~~before~~ at my earliest recollection with ditches in place and lucerne and growth of Timothy and Redtop grasses. I clearly feel that I recall the established meadows and ditches prior to my beginning school which would have been in 1918.

The above testimony is factual information that I recall about the area being described.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by August 1, 1991, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte
Water Rights Supervisor
