Re Permit 9980.

Arthur Peltwell,
Jordan Valley, Ore.

September 2, 1915.

Sir:--

We are in receipt of your letter enclosing fees for certified copy furnished you. In reply would say that the license can be issued for only the amount of land actually under cultivation, allowing an inch to the acre. The report filed with your proof gave 8 acres in cultivation in one forty and 10 in the other hence the license was issued for only 18/50 of 1 sec.ft. of water. When you have the balance of the land under cultivation, you can make another proof of use on the additional water used.

Very truly yours,

J. H. SMITH.

State Engineer.

VERIFICATION REQUIRED DUE TO REMARKS?

CLAIM REMARKS: THE DATE OF PRIORITY WAS TAKEN FROM AN APPLICATION FOR PERMIT
FILED ON JUNE 26, 1908, BY J. M. KELLOGG WHICH WAS NEVER ASSIGNED
TO THE NEW OWNER ARTHUR FELTWELL WHO PURCHASED THE PROPERTY IN
1909. THE PERMIT WAS CANCELLED FOR LACK OF PROOF OF COMPLETION
OF WORKS IN 11/1922 - NOTICE WENT TO KELLOGG RATHER THAN FELTWELL
WHOSE FAMILY HAS USED THE WATER FROM THAT POINT ON. NOTE: OLD
PERMIT NO. 3888.

ARE THERE OBVIOUS REASONS TO QUESTION THE PRIORITY DATE CLAIMED? Y(☒) N(☐)
IF YES EXPLAIN.

REMARKS: Claimant refers to an old permit which was cancelled due to non-completion of works. Claimant has not submitted copy of this permit & affidavit submitted by Clifford Feltwell does not support a priority date specifically of 1908.

Claim disallowed due to lack of evidence supporting priority:

1. Completion of works for 55-2045, dated 1914, refers to POU in S $\frac{1}{2}$ SE, S. 14; E $\frac{1}{2}$ NE, S. 23; & SWNW & NWSW, S. 24 - 150 acres
2. Beneficial Use from permit holder & 2 witnesses, dated 1911 & 1912, only refers to POU at S. 14, S $\frac{1}{2}$ SE.

RECOMMENDED PRIORITY DATE: To be determined

REVIEWED BY Linda Werner

DATE 5-15-95

3. Eng. report of 1915 found irr. only in the S $\frac{1}{2}$ SE, S. 14.
 4. Remark on this claim from claimant says permit #3888 cancelled in 1922 due to lack of C/W.
 5. Affidavit from C. Feltwell dated 7-18-1991, says he remembers it irr. in his youth. He was born in 1908. He does not list a specific date.
 6. Claimant did not respond to my letter dated 3-25-94, asking for more information.
 7. 4-17-96 - No response to 2-15-96 letter requesting more information.
- * No new number issued for P. 3888.
8. Per discussion with Dave Tullhull during staff meeting in our office Clifford Feltwell's affidavit is probably sufficient to recognize a 1910 priority date.

RE: Claim No's - A55-04123, 10201, 10202

TO WHOM IT MAY CONCERN:

I swear in this affidavit that I, Clifford E. Feltwell, born in Jordan Valley, Oregon on February 5, 1910, and raised on the Feltwell Ranch, Owl Creek, Owyhee County, do remember in my youth the 78 acres in hay fields were under irrigation and beneficial use.

It is my belief that beneficial use of all acres were being watered years before 1910, because of the orchard being mature, and the fields being hayed at that time.

I attest to the above.

Sincerely,

Clifford E. Feltwell

Diversions have been in place since 1941. As told to me by claimant during 1992 field exam.

Diversion no. 1 irr. the orchard by the house.

Diversion 2 irr. around the house, meadow by house + meadow at the POD.
All the meadow on west side of creek up to the house.

Diversion 3 irr. land west of creek to POD 2.

Diversion 4 irr. land on east side of creek +, according to L 55-2045, the land in Sec. 14.

Diversions consist of dirt or plastic dams, dirt ditches + flood irrigation.

RE: SRBA CLAIMS A55-02045, A55-04123, A55-10201 & A55-10202

Dear Ms Moran:

I've been reviewing the above referenced claims you filed in the Snake River Basin Adjudication (SRBA) in preparation for making our final recommendations to the court. Below is a summary of the pending recommendations and file information I found.

A55-02045 Based on Linda Werner's field examination on June 24, 1992, ten acres of irrigation will be recommended with the licensed priority date of 1/17/1914. The ten acres are located as follows: SWSE, Sec 14--6 acres and SESE, Sec 14--4 acres.

A55-04123 The recommendation will be to disallow this claim because no beneficial use appropriation was found where claimed.

A55-10201 The recommendation will be to disallow this claim because the land claimed is covered by other claims. The land in Sec 14 is part of A55-02045 and the four acres in the NENE, Sec 23 could be covered by A55-10202 if this claim is recommended.

A55-10202 The field examination on June 24, 1992 found 33 acres of irrigation that could be recommended under this claim. However, the evidence of priority on file is too vague. When the 33 acres was developed and water was first beneficially used on the land cannot be determined from the information currently available. A55-10202 is based on permit #3888 that was canceled 11/14/1922 because proof that water was ever beneficially used was never filed with the department. Permit #9980 (licensed as right 55-02045) was issued 1/30/1914 and overlaps the same land listed in permit #3888. The State Engineers report dated 6/14/1915 and other supporting information indicated only 18 acres in Section 14 were developed as of 6/14/1915. Therefore, the priority date of 6/26/1908 claimed under A55-10202 cannot be recognized. Additional evidence is needed to support the date water was first used on the 33 acres that can be recommended under this claim. Without additional evidence sufficient to support another priority date other than 6/26/1908, the only recommendation that can be made is to disallow claim A55-10202.

Page 2
Moran letter

It is my intention to make the final recommendations for all claims about March 15, 1996. I need the additional priority date information by that date. Please call me at the number below if you have any questions or discussion concerning these matters.

Sincerely,

A handwritten signature in cursive script that reads "Mel Schulte".

RE: NOTICE OF CLAIM NO[S]: A55-02045, A55-04123, A55-10201,
A55-10202

Dear Ms. Moran;

We are currently in the process of preparing the above referenced Notice(s) of Claim for court decree in the Snake River Basin Adjudication. During this review certain questions arose concerning the claims listed above.

In comparing the field exam information with the way the claims are filed, I am finding some differences in a number of items.

Point of Diversion

Each of the above claims are filed showing between six and ten different diversion points. However, during the field exam only four diversion points were found. Each of these diversions were said to take water to a different section of irrigated ground. Yet all claims are listing most of the diversion points.

Place of Use

There appears to be some difference in the location and number of irrigated acres. The main difference is found in Section 14, SE1/4.

Priority Date

The affidavit submitted by Mr. Feltwell as proof of first usage indicates that irrigation first began on all the hay fields in approximately 1910. The adjudication claims were filed with first usage dates of 1908, 1920 and 1945. Is there, in fact, one first usage date for all these lands?

Page 2
March 25, 1994

I am enclosing a map outlining my findings in regard to the locations of the diversion points, the fields irrigated from each and the location and number of irrigated acreage. I will also send along profile reports showing the way these claims were filed. Please review this information. Depending on the situation, it may be beneficial to amend some of the claims depending on the actual water usage.

Please contact me by the response date shown above. Your assistance in this matter will ensure that your water usage will be accurately decreed in the SRBA.

Sincerely,

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by August 1, 1991, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte
Water Rights Supervisor

SECTION 1

SECTION 1

t 9980:

Mr. Feltwell,
Dan Valley, Ore.

September 29, 1915.

We are in receipt of your letter enclosing fees for
filed copy furnished you. In reply would say that the
license can be issued for only the amount of land actually
under cultivation, allowing an inch to the acre. The report
submitted with your proof gave 8 acres in cultivation in one
year and 10 in the other hence the license was issued for
18/50 of 1 sec. of water. When you have the balance
of land under cultivation, you can make another proof of
the additional water used.

Very truly yours,

J. P. Smith,

State Engineer.
