HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

If your answer is No, describe in Remarks below the authority you have to claim this water right.

or None (~~X~~)

None

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

RE: Snake River Basin Adjudication (SRBA)
Change in Notice of Appearance of Counsel on the Snake River
Basin Adjudication Claims for Owen Ranches, Pioneer
Irrigation District and Settlers' Irrigation District

Dear Scott:

Following your letter request to David Shaw of December 10, 1993, attached is an adjudication report denoting the claims filed by your clients referenced above that have been changed. We have also updated water right 57-00040 for Pioneer Irrigation as you requested.

Please note water rights claims showing Richard L. Owen as claimant were not changed in our database. You may wish to file another Notice to the court if you are representing Richard L. Owen as well as Owen Ranches, each of whom have filed claims as if they were unrelated parties.

Call me if you have questions.

Sincerely,

FIELD EXAM CONVERSATION MEMO

DATE OF MEMO: November 15, 1993

ADJ. NOS: A55-10221, A55-10223 & A55-10228

NAME OF CONTACT: Richard Owen, Owner; & Lynn Kness, Ranch Manager

PHONE NO: 208-845-2001

AGENT: RON HOWERTON 

DATE SET FOR FIELD EXAM: IN-OFFICE November 15, 1993

1. I had done several irrigation field exams (A55-02053 on 11/1/93, A55-02090 on 11/9/93, A55-10222 on 11/10/93 and A55-02113 on 11/9/93) prior to this conversation date. I was accompanied by with Richard Owen's ranch manager Lynn Kness. We spent a lot of time reaching then walking the lands claimed for irrigation or domestic home use claims, then we did not find any irrigation or domestic home use presently occurring in the field or evidence of irrigation on any of my maps. The big problem here was that we were wasting a lot of each others time finding nothing but in-stream stock use and wondered if Mr. Owen would want us to continue searching the three more remote claims that Lynn had never been out to? Lynn & I suspected that no irrigation or domestic home use occurred in these other locations now either and they were just domestic cow camps. Thus, we decided better discuss the situation further with Mr. Owen.
2. Lynn & I then met with his boss, Richard Owen, the owner, at his Bruneau O1 office on November 15, 1993 to discuss the value of trying to reach these three other REMOTE exams left to do.
3. We all met and looked at the claims in question along with my 1987 NAPP photography and the use of Mr. Owen's big map in his conference room. His comment was that "THE LANDS FOR THESE CLAIMS ARE BARELY ACCESSIBLE BY HORSE BACK AND WOULD TAKE ALL US DAY JUST TO REACH SOME OF THEM." He then stated that "TO THE BEST OF HIS KNOWLEDGE, THE LANDS HAD NOT BEEN IRRIGATED FOR WAY PAST 5 YEARS."
4. Thus, Mr. Owen felt that we would be a wasting our time to go way out there to just confirm that no irrigation or any domestic home use was occurring. However, he said "IN-STREAM STOCK ALWAYS OCCURRED AND ASKED IF I COULD RECOMMEND THESE CLAIMS FOR THE DOMESTIC USE COMPONENT OF IN-STREAM STOCK?" I said, "I PROBABLY COULD DO THAT IN-OFFICE WITH OUT GOING OUT THERE." He also asked "COULD I DO THE SAME FOR THE OTHER CLAIMS I HAD ALREADY DONE OR ANY OTHER CLAIMS THAT I FIND OF HIS WITH THE SAME PROBLEM?" "I SAID SINCE HE REQUESTED IT, I PROBABLY COULD, BUT WITH CERTAIN LIMITATIONS SUCH AS, ONLY RECOMMENDING THE SAME STOCK TRACTS AS IRRIGATION TRACTS CLAIMED NEXT TO THE SOURCE."

SUMMARY:

- A. These are the three claims we agreed that I need not try to go out and verify for irrigation and to consider for in-stream stock:
 - * A55-10221 AKA KELLY PARK, A55-10223 AKA COTTONWOOD & A55-10228 AKA WYLIE PLACE.
- B. These were the other irrigation claims that I looked in the field prior to this conversation that I agreed to consider for in-stream stock:
 - * A55-02053, A55-02090, A55-10222 and A55-02113.
- C. I also agreed that for any other similar irrigation claims not yet looked at or listed here, I would consider recommending them for in-stream stock in place of the irrigation component.

Dear Jan:

I am replying to your correspondence of July 1, 1991, to me and your correspondence of June 28, 1991, to Mr. Richard L. Owen, regarding the above-referenced claim numbers in the Snake River Basin Adjudication. Your correspondence requested additional evidence to support the "statutory claim" or "beneficial use" status of the water right claim.

In response to this request for additional evidence, I have enclosed copies of the Affidavit of Albert Black and the Affidavit of Joe Black. These two affidavits provide eye witness testimony which should satisfy your request for additional evidence.

Please be advised that we may submit additional evidence to support a priority date earlier than the ones described in the affidavits. Consequently, please still provide the second notice to be sent out at least sixty (60) days prior to completion of the Director's Sub-basin Report which affects these water right claims. This time period was referred in my correspondence of July 16, 1991.

The State of Idaho, ex rel.
R. Keith Higginson in his
official capacity as
director of the Idaho Depart-
ment of Water Resources,

Petitioner,

v.

United States; State of
Idaho; and all claimants to
the use of water from the
Snake River Basin Water
System,

Defendants.

I, Joe Black, being first duly sworn, hereby depose and say
as follows:

1. The statements contained in this document are based upon my personal knowledge.

2. I am 63 years old. I was born and raised in the Owyhee County. I have resided in and around the Owyhee County area throughout my lifetime. I've been involved in ranching in and around the Owyhee County area throughout my life. I currently live in Hammett, Idaho.

3. Throughout my lifetime, I have personally observed the irrigation practices on the below described properties.

BIG SPRINGS RANCH

4. Since I was a small boy, I have personally observed the irrigation practices on the property known as the Big Springs Ranch. This property has been continuously irrigated with waters diverted from the Big Springs Creek. This included the time period when the property was owned and operated by Big Springs Land and Livestock Company.

5. There are four water rights to the Big Springs Ranch. These rights are numbered A55-04008, A55-04010, A55-04011 and A55-10227.

6. Under Water Right No. A55-04008, the points of diversion -- for the water diverted from Springs tributary to Battle Creek for use as irrigation water -- have been in Township 10 South, Range 1 West, Section 3, the Southeast Quarter of the Southeast Quarter and Section 10, the Northeast Quarter of the Northeast Quarter in Owyhee County since at least 1933.

7. The property whose irrigation practices I have described above is that property owned by Owen Ranches which is located in Township 10 South, Range 1 West, Sections 3 and 10.

8. The water diverted to the above property provides irrigation water to approximately 50.0 acres of land.

9. Under Water Right No. A55-04010, the points of diversion -- for the water diverted from Big Springs Creek and West Springs Creek which are tributary to Battle Creek for use as irrigation and domestic water -- have been in Township 10 South, Range 1 West, Section 3, Southwest Quarter of the Southeast Quarter and Section 10, Northwest Quarter of the Southwest Quarter in Owyhee County since at least 1933.

10. The property whose water uses that I have described above is that property owned by Owen Ranches which is located in Township 10 South, Range 1 West, Sections 10, 15 and 3.

11. The water diverted to the above property provides irrigation water to approximately 215.00 acres of land and domestic water to 1 home.

12. Under Water Right No. A55-04011, the point of diversion -- for the water diverted from Big Springs which is tributary to Big Springs Creek for use as irrigation and domestic water -- has been in Township 10 South, Range 1 West, Section 3, Southwest Quarter of the Southeast Quarter in Owyhee County since at least 1933.

13. The property whose water uses that I have described above is that property owned by Owen Ranches which is located in Township 10 South, Range 1 West, Sections 3, 10 and 15.

14. The water diverted to the above property provides irrigation water to approximately 440.0 acres of land and domestic water to 1 home.

15. Under Water Right No. A55-10227, the point of diversion -- for the water diverted from Big Springs Creek for use as irrigation, stock and domestic water -- has been located in Township 10 South, Range 1 West, Section 15, Northeast Quarter of the Southeast Quarter in Owyhee County since at least 1933.

16. The property whose water uses that I have described above is that property owned by Owen Ranches which is located in Township 10 South, Range 1 West, Sections 14, 15, 22, 23, 25 and 26.

17. The water diverted to the above property provides irrigation water to approximately 600.0 acres of land, domestic water to 1 home, and stock water to roughly 1,000 head of range cattle.

BATTLE CREEK RANCH

18. Since I was a small boy, I can recall reservoirs, cross-ditches and dams in the Battle Creek area. This includes the areas along Battle Creek which were once owned by Battle Creek Sheep Company.

19. Since I was a small boy, I have personally observed that these areas along Battle Creek have been continuously irrigated with waters diverted from Battle Creek.

20. The waters diverted from Battle Creek are identified by Water Right Nos. A55-04009 and A55-10225.

21. Under Water Right No. A55-04009, the points of diversion -- for the water diverted from Scrappy Creek, Scrappy Reservoir and Lower Butte Reservoir for use as irrigation, stock and domestic water -- have been located in Township 10 South, Range 1 East, Section 29, Northeast Quarter of the Northwest Quarter, Township 11 South, Range 1 East, Section 3, Northwest Quarter of the Northwest Quarter, Section 4, Northeast Quarter of the Northeast Quarter, and Section 10, Northwest Quarter of the Southeast Quarter in Owyhee County since at least 1933.

WYLIE RANCH

27. On the property known as the Wylie Ranch which was formerly owned by Clyde Wylie, I personally observed that the ditches on the Wylie Ranch were in place when Clyde Wylie sold the property in 1950.

28. The Wylie Ranch has been continuously irrigated since I first went there in 1950.

29. The Wylie Ranch has one water right which is identified as Water Right No. A55-10228.

30. Under Water Right No. A55-10228, the point of diversion -- for water diverted from the North Fork of the Owyhee River for use as irrigation, stock and domestic water -- has been Township 14 South, Range 2 West, Section 2, Northwest Quarter of the Southwest Quarter in Owyhee County since at least 1950.

I have personally observed that the water diverted on those properties which can be described as "scattered forties with springs" has been used continuously as stock water and that the springs which have been developed are accompanied by small meadows which have been irrigated for use as saddlehorse and cattle pastures.

34. The scattered water rights are identified as Water Right Nos. A55-10221, A55-10222, A55-10223, A55-10224 and A55-10226.

28. Under Water Right No. A55-10225, the points of diversion -- for the water diverted from springs for use as irrigation,

domestic and stock water -- have been Township 10 South, Range 1 East, Section 15, Northeast Quarter of the Southwest Quarter, Section 28, Southeast Quarter of the Northwest Quarter, and Section 28, Southeast Quarter of the Southwest Quarter in Owyhee County since at least 1913.

29. The property whose water uses I have described above is that property owned by Owen Ranches which is located in Township 10 South, Range 1 East, Sections 28 and 33.

30. The water diverted to the above property provides irrigation water to approximately 395.0 acres of land, domestic water to 1 home, and stock water to roughly 1,000 head of range cattle.

WYLIE RANCH

31. The area known as the Wylie Ranch which is named after its early owner, Clyde Wylie, is located down the canyon near the mouth of Battle Creek.

32. I had never been to the Wylie place until 1950.

33. The Wylie Ranch was being irrigated when I first went there in 1950 and has been continuously irrigated since that time.

34. The Wylie Ranch diverts water under one water right which is identified as Water Right No. A55-10228.

35. Under Water Right No. A55-10228, the point of diversion -- for water diverted from the North Fork of the Owyhee River for

use as irrigation, stock and domestic water -- has been Township 14 South, Range 2 West, Section 2, Northwest Quarter of the Southwest Quarter in Owyhee County since at least 1950.

36. The property whose water uses I have described above is that property owned by Owen Ranches which is located in Township 14 South, Range 2 West, Section 2.

37. The water diverted to the above property provides irrigation water to approximately 100.0 acres of land, domestic water to 1 home, and stock water to roughly 1,000 head of range cattle.

SCATTERED WATER RIGHTS

38. I have personally observed that the water diverted on those properties which can be described as "scattered forties with springs" has been used continuously as stock water and that the springs which have been developed are accompanied by small meadows which have been irrigated for use as saddlehorse and cattle pasture.

39. The scattered water rights are identified as Water Right Nos. A55-10221, A55-10222, A55-10223, A55-10224 and A55-10226.

40. Under Water Right No. A55-10221, the point of diversion -- for the water diverted from Battle Creek for use as irrigation, stock and domestic water -- has been Township 13 South, Range 1 West, Section 16, Southwest Quarter of the Southwest Quarter in Owyhee County since at least 1920.

41. The property whose water uses I have described above is that property owned by Owen Ranches which is located in Township 13 South, Range 1 West, Section 16.

42. The water diverted to the above property provides irrigation water to approximately 40.0 acres of land, domestic water to 1 home, and stock water to roughly 1,000 head of range cattle.

43. Under Water Right No. A55-10222, the point of diversion -- for the water diverted from springs for use as irrigation, domestic and stock water -- has been Township 11 South, Range 1 East, Section 27, Southwest Quarter of the Southwest Quarter in Owyhee County since at least 1920.

44. The property (commonly known as Lost Valley Springs) whose water uses I have described above is that property owned by Owen Ranches which is located in Township 11 South, Range 1 East, Section 27.

45. The water diverted to the above property provides irrigation water to approximately 10.0 acres of land, domestic water to 1 home, and stock water to roughly 1,000 head of range cattle.

46. Under Water Right No. A55-10223, the points of diversion -- for water diverted from a spring for use as irrigation, stock and domestic water -- have been Township 12 South, Range 1 West, Section 35, Northwest Quarter of the Southeast Quarter and Section 35 Southwest Quarter of the Southeast Quarter in Owyhee County since at least 1920.

47. The property (commonly known as Cottonwood Draw) whose water uses I have described above is that property owned by Owen Ranches which is located in Township 12 South, Range 1 West, Section 35.

48. The water diverted to the above property provides irrigation water to approximately 80.0 acres of land, domestic water to 1 home, and stock water to roughly 1,000 head of range cattle.

49. Under Water Right No. A55-10224, the point of diversion -- for water diverted from a spring for use as irrigation, stock, storage and domestic water -- has been Township 12 South, Range 1 West, Section 7, Northeast Quarter of the Southwest Quarter in Owyhee County since at least 1920.

50. The property whose water uses I have described above is that property owned by Owen Ranches which is located in Township 12 South, Range 1 West, Section 7.

51. The water diverted to the above property provides irrigation water to approximately 5.0 acres of land, domestic water to 1 home, and stock water to roughly 1,000 head of range cattle.

52. Under Water Right No. A55-10226, the point of diversion -- for water diverted from a spring for use as irrigation, stock, storage and domestic water -- has been Township 12 South, Range 1 West, Section 21, Southeast Quarter of the Northwest Quarter in Owyhee County since at least 1920.

53. The property (commonly known as Squaw Meadows) whose water uses I have described above is that property owned by Owen Ranches which is located in Township 12 South, Range 1 West, Section 21.

54. The water diverted to the above property provides irrigation water to approximately 25.0 acres of land, domestic water to 1 home, and stock water to roughly 1,000 head of range cattle.

RE: Change in Notice of Appearance of Counsel on the Snake River Basin Adjudication Claims for Owen Ranches, Pioneer Irrigation District, Cyprus Thompson Creek Mining Company, Conversion Industries U.S.A., Inc. and Settlers Irrigation District

Dear Scott:

The five computer reports enclosed confirm the change in firm and address you requested in your letter dated February 13, 1992. By comparing these reports to the list you supplied with your letter, you will see not all of the water right claims listed in your attachments were changed. Those claim records not changed are filed by persons other than your client(s).

The possibility of questions I raised in our telephone conversation last week were resolved for my part. If you have any questions or need some points clarified, please feel free to contact me.

Thank you for supplying the claim lists in an orderly fashion.

Sincerely,

Donald V. Shaff

Dear David:

Pursuant to a prior telephone conversation with Ms. Lynne Krogh-Hampe, I am providing this correspondence to notify the Idaho Department of Water Resources of my change of address and affiliation. I am presently a partner with the law firm of Davis Wright Tremaine at the above-referenced address.

Because of this change, I request that the Idaho Department of Water Resources make the necessary modifications to its records pertaining to the Snake River Basin Adjudication regarding the water rights and notices of claim identified for the above-referenced clients, as indicated on the attached lists, marked Exhibit A. Based upon my prior conversations with Lynne, she indicated that one letter with identification of the individual water right numbers would be sufficient. Please notify me in writing if this is not the case. Additionally, I would appreciate receiving written confirmation that the requested changes in your records have been made, so that I may include copies of your confirmation in the individual claim files for each client and each water right.

Thank you very much for your cooperation.

Very truly yours,

Dear Jan:

This is to document the content of our telephone conversation of July 16, 1991, concerning the above referenced notices of claim in the Snake River Basin Adjudication, as well as your correspondence dated July 1, 1991.

As I indicated to you during our conversation, due to vacation conflicts and other delays, it was impossible to meet with Mr. and Mrs. Richard Owen and Mr. Scott Benowitz of James Montgomery Engineers concerning your July 1, 1991 correspondence until today. While we are working to gather the additional information which you have requested in your correspondence, it will not be possible to submit this data to you by the August 1, 1991 date set forth in your correspondence.

This is to confirm your response to my request for an extension of the August 1, 1991 date. You indicated that this deadline was very preliminary in nature and can be exceeded without formal approval. Additionally, you informed me that an additional notification would be delivered by the Department of Water Resources prior to the completion of the Director's sub-basin report. This second notification will request the same information concerning documentation. You indicated that this second notice will not be sent out for at least 60-days and

MICROFILMED

perhaps longer. Consequently, you indicated that in reality a 60 to 90-day extension of time from the August 1, 1991 date existed.

I indicated to you during our conversation that I would confirm this information in a letter to you so that the files would properly reflect my response on behalf of Richard Owen to your correspondence of July 1, 1991. This letter also indicates our intent to provide you with the information requested in your correspondence prior to issuance of the second notice letter referred to by you.

Please contact me if you have any questions, or if you disagree with my description of the content of our conversation.

Very truly yours,

Dear Claimant(s):

10226, 10227, 10228

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by August 1, 1991, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte

Ref: Adjudication Claims

Dear Mr. Owen:

The adjudication claims that you filed on for basins 51 and 55 have been reviewed. An overlap review was made for the irrigated acres. An individual fee is assigned to each claim.

It appears that you may have overpaid on the over all total. However, some additional claims may be needed, or may need some modifications. You may apply your overage to any of the new claims that require additional claiming. (I will contact you later for this.) The remainder, if any remains, I will request a refund accordingly.

Claims A51-00034, A51-00035, A51-00036 and A51-00068 have been split because of partial ownership change. Each right has been prorated according to the land transferred or retained.

Attachment "A" shows modifications to your claims, by either making them more clear or to meet our adjudication and appropriation water right standards. These modifications require us to notify you.

S U M M A R Y

I would be happy to discuss any questions you may have before I contact you prior to the field season.

Truly yours,

Ron Howerton
