HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Period of Use: "Irrigation Season" for Irrigation Period of Use or in the alternative April 15 through October 15.

2. Describe the changes you wish to make in the proposed recommendation:

Period of Use: "Irrigation Season" for Irrigation Period of Use or in the alternative March 1 through November 30 (see explanation in no. 3 below).

3. Give a brief explanation as to why you disagree with these portions:

The Idaho Supreme Court recently addressed the "irrigation season" use in *In re SRBA Nos. 39576, 91-00005 Ex Rel. General Provisions Re. Basin-Wide Issue 5*, 1997 Opinion 122 (Idaho Oct. 3, 1997). In this decision the Court held "that due to year to year changes in climatic conditions and variability in each area's soil type, the period of use for irrigation water rights should not be defined as a fixed period of use." *Id.* at 7. The Idaho Supreme Court's ruling on this issue is being challenged. A Petition for Rehearing was filed by the State of Idaho but rehearing has not yet been granted. In light of the pending petition, Claimant requests that irrigation season be described only as "irrigation season" in accord with present Idaho law.

In the event that the Idaho Supreme Court reverses its earlier decision on using "irrigation season", the period beginning March 1 and ending November 30 should be used to identify a specific calendar description. The actual calendar dates for

the beginning and ending of an irrigation season fluctuate from year-to-year. An irrigation season described "from March 1 through November 30" will allow Claimant to divert and beneficially utilize water during those years when the irrigation season begins early or ends late.

_____ I AGREE with this proposed recommendation; no changes need to be made.

RE: Snake River Basin Adjudication (SRBA)
Change in Notice of Appearance of Counsel on the Snake River
Basin Adjudication Claims for Owen Ranches, Pioneer
Irrigation District and Settlers' Irrigation District

Dear Scott:

Following your letter request to David Shaw of December 10, 1993, attached is an adjudication report denoting the claims filed by your clients referenced above that have been changed. We have also updated water right 57-00040 for Pioneer Irrigation as you requested.

Please note water rights claims showing Richard L. Owen as claimant were not changed in our database. You may wish to file another Notice to the court if you are representing Richard L. Owen as well as Owen Ranches, each of whom have filed claims as if they were unrelated parties.

Call me if you have questions.

Dear Jan:

I am replying to your correspondence of July 1, 1991, to me and your correspondence of June 28, 1991, to Mr. Richard L. Owen, regarding the above-referenced claim numbers in the Snake River Basin Adjudication. Your correspondence requested additional evidence to support the "statutory claim" or "beneficial use" status of the water right claim.

In response to this request for additional evidence, I have enclosed copies of the Affidavit of Albert Black and the Affidavit of Joe Black. These two affidavits provide eye witness testimony which should satisfy your request for additional evidence.

Please be advised that we may submit additional evidence to support a priority date earlier than the ones described in the affidavits. Consequently, please still provide the second notice to be sent out at least sixty (60) days prior to completion of the Director's Sub-basin Report which affects these water right claims. This time period was referred in my correspondence of July 16, 1991.

**Re: Change in Notice of Appearance of Counsel on the Snake River Basin
Adjudication Claims for Owen Ranches, Pioneer Irrigation District,
Cyprus Thompson Creek Mining Company, Conversion Industries U.S.A.,
Inc. and Settlers Irrigation District**

Dear David:

Pursuant to a prior telephone conversation with Ms. Lynne Krogh-Hampe, I am providing this correspondence to notify the Idaho Department of Water Resources of my change of address and affiliation. I am presently a partner with the law firm of Davis Wright Tremaine at the above-referenced address.

Because of this change, I request that the Idaho Department of Water Resources make the necessary modifications to its records pertaining to the Snake River Basin Adjudication regarding the water rights and notices of claim identified for the above-referenced clients, as indicated on the attached lists, marked Exhibit A. Based upon my prior conversations with Lynne, she indicated that one letter with identification of the individual water right numbers would be sufficient. Please notify me in writing if this is not the case. Additionally, I would appreciate receiving written confirmation that the requested changes in your records have been made, so that I may include copies of your confirmation in the individual claim files for each client and each water right.

Thank you very much for your cooperation.

Very truly yours,

DAVIS WRIGHT TREMAINE

Dear Jan:

This is to document the content of our telephone conversation of July 16, 1991, concerning the above referenced notices of claim in the Snake River Basin Adjudication, as well as your correspondence dated July 1, 1991.

As I indicated to you during our conversation, due to vacation conflicts and other delays, it was impossible to meet with Mr. and Mrs. Richard Owen and Mr. Scott Benowitz of James Montgomery Engineers concerning your July 1, 1991 correspondence until today. While we are working to gather the additional information which you have requested in your correspondence, it will not be possible to submit this data to you by the August 1, 1991 date set forth in your correspondence.

This is to confirm your response to my request for an extension of the August 1, 1991 date. You indicated that this deadline was very preliminary in nature and can be exceeded without formal approval. Additionally, you informed me that an additional notification would be delivered by the Department of Water Resources prior to the completion of the Director's sub-basin report. This second notification will request the same information concerning documentation. You indicated that this second notice will not be sent out for at least 60-days and

perhaps longer. Consequently, you indicated that in reality a 60 to 90-day extension of time from the August 1, 1991 date existed.

I indicated to you during our conversation that I would confirm this information in a letter to you so that the files would properly reflect my response on behalf of Richard Owen to your correspondence of July 1, 1991. This letter also indicates our intent to provide you with the information requested in your correspondence prior to issuance of the second notice letter referred to by you.

Please contact me if you have any questions, or if you disagree with my description of the content of our conversation.

Very truly yours,

10223, 10224, 10225,

Dear Claimant(s):

10226, 10227, 10228

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by August 1, 1991, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte

Ref: Adjudication Claims

Dear Mr. Owen:

The adjudication claims that you filed on for basins 51 and 55 have been reviewed. An overlap review was made for the irrigated acres. An individual fee is assigned to each claim.

It appears that you may have overpaid on the over all total. However, some additional claims may be needed, or may need some modifications. You may apply your overage to any of the new claims that require additional claiming. (I will contact you later for this.) The remainder, if any remains, I will request a refund accordingly.

Claims A51-00034, A51-00035, A51-00036 and A51-00068 have been split because of partial ownership change. Each right has been prorated according to the land transferred or retained.

Attachment "A" shows modifications to your claims, by either making them more clear or to meet our adjudication and appropriation water right standards. These modifications require us to notify you.

I would be happy to discuss any questions you may have before I contact you prior to the field season.

Truly yours,

Ron Howerton

Dear Mr. ^{Scott} Campbell:

This letter is to confirm the request to list you, and the name of your firm, as the attorney of record for the Owen claims as listed in your letter of January 8, 1991 has been completed.

Please note that claim A65-08324 shows Louise Owen as the original owner of the water right and Richard L. Owen as both the original owner and the current owner. That record has been corrected to show Richard L. Owen as the current and only owner.
