James McCain

Filed Feb'y 14th A.D. 1895 at 1 o'clock P.M. at request of Eliza McCain
E L Ballard

Recorder of Owyhee County

Notice of location of Water Right

Notice is hereby given that I the undersigned have this 13 day of Feb'y 1895 located and claimed one hundred inches of the water of south river course, to be diverted at the place where this notice is posted about 100 feet above the old Thompson water race and to be conveyed by means of a ditch and flume to a mill site known as the Mountain Creek Mill site which is situated in Mahogany Creek Owyhee County Idaho. The ditch and flume for conveying this water is to be 18 inches wide and 18 inches deep and the water is to be used for the purpose of running mill machinery.

Dated on the ground this 13 day of Feb. 1895-

Witness

James Murray

DIRECTOR

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on a "Statutory Claim" or "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by August 1, 1991, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte
Water Rights Supervisor

IF YES EXPLAIN.

REMARKS:

Evidence of priority consists of a water right by posted notice for ~~and~~ ^{use} of the ranch land commencing at lower end of Esra Mills place; a land patent for land in Sec. 26, ³⁻⁸⁻¹⁸⁹⁵ & a land patent for the land claimed in OR (4-2-1890) - A55-10218 (12-29-1879)
Nothing submitted for the property in Sec. 27 although this could have been part of the Mills place.
Priority date recommended based on posted notice & commencing w/ beginning of wr. season for this area. I Pg. 28-Claims Investigation manual

RECOMMENDED PRIORITY DATE: 4-15-1895
~~02-14-1895~~

89

File Number: A55-04116

Claimant: 06 LIVESTOCK

Channel measured: TROUT CREEK DITCH DIV. AT POD #1

Date of measurement: 11/17/92

Measurement location:

T5S

Calculation prepared by: LINDA WERNER

Comments about the measurement:

The results of the calculation are:

The length of the channel measured is 287 feet.

The upstream and downstream rod readings are 5.35 and 5.86 feet.

The channel cross section is 3.74 ft-sq.

The wetted perimeter is 5.16 feet.

The hydraulic radius is 0.72 feet.

The slope is 0.0018

The roughness coefficient is 0.0350

The flow velocity is 1.447 ft/sec.

The rate of flow is 5.41 cfs.

ESTIMATING CONVEYANCE LOSS

Formula: $S = (W)(i)(0.0667)$ where: S is loss in cfs per mile
 W is the top width of the high water mark in feet
 i is the loss rate in feet per day (see Table)
 0.0667 is a factor used to convert to cfs per mile

Table:	Type of soil	Loss rate i (ft/day)
	medium clay loam	0.5 to 1.5
	impervious clay	0.5
	medium soils	1.0
	somewhat pervious soils	1.5 to 2.0
	gravel	2.5 to 5.0

Worksheet: $S = (40 \text{ ft})(10 \text{ ft/day})(0.0667)$
 $S = 0.27 \text{ cfs/mi}$
 Conveyance loss = $(S)(\text{length of ditch in miles})$
 Conveyance loss = $(0.27 \text{ cfs/mi})(0.41 \text{ mi})$
 Conveyance loss = 0.11 cfs

Length of ditch = $2191' = 0.41 \text{ mi}$

D. FOUND Acres

Recorder of Owyhee County

Notice of Location of Water Right

Notice is hereby given that I the undersigned have this 13 day of Feb. 1895 located and claimed one hundred inches of the water of south Limer creek, to be diverted at the place where this notice is posted about 100 feet above the old Thompson water and to be conveyed by means of a ditch and flume to a mill site known as the Mountain Chief mill site which is situated in Mahogany creek Owyhee County Idaho. The ditch and flume for conveying this water is to be 18 inches wide and 10 inches deep and the water is to be used for the purpose of running mill machinery.

Dated on the ground this 13 day of Feb 1895

RE: Claims filed in the Snake River Basin Adjudication

Dear Claimants: CLAIM NOS ASS-02154, ASS-04116, ASS-10010,
+ ASS-10218 - DWYHER CO.

The Department of Water Resources will be conducting beneficial use and water right claim verification examinations in your area beginning in June. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used, number of acres irrigated, and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which need to be completed this summer in your area, we request that you contact our office at (208)334-2190 within two weeks to make an appointment at a time convenient for you. The amount of time required to conduct these exams depends on the number of water rights you have filed. An approximate time can be given when you call for an appointment.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be appreciated.

In some cases, the date of priority claimed also needs to be verified. Letters were sent to some claimants notifying them that evidence of the date of first use of their water right(s) was required. If you received one of these letters and have questions, we can address those during our examination.

To make an appointment, or if you have any questions or problems with scheduling the exam, please contact one of the following water resource agents:
