Mr. Robert J. Gluch
Jordan Valley,
Oregon 97810

Dear Mr. Gluch:

A representative of this Department has made an examination of the works covered by your Permit No. 55-7001 and has found the following:

Quantity of water diverted: 4.48 cfs Source: ground water

The amount of water that can be recognized as beneficially used under Idaho law: 4.45 cfs

The maximum quantity diverted shall not exceed 1,097.4 acre feet, or 3.0 acre feet per acre, per year.

Point of diversion: NE1/4, Sec. 20, Twp. 6 S, Rge. 6 W, B. M.

Beneficial use: Stockwatering purposes and the irrigation of 364 acres within the SW1/4 (4), Sec. 14; NE1/4 (60), SW1/4 (100), Sec. 20; E1/4 (20), NE1/4 (40), Sec. 20; Twp. 6 S, Rge. 6 W, B. M.

Priority established: August 2, 1969.

If you do not concur with these findings please contact us within 10 days, otherwise a water license will be issued as set forth above.

Sincerely,

HENRY D. FLENNOR
Chief, Water Rights

NOTICE OF FILING FOR REPORTING AREA 6 (IDWR BASIN 55):

- ▶ **Conjunctive Management Director's Report**
- ▶ **Irrigation Season Of Use Supplemental Report**

The Director of the Idaho Department of Water Resources (IDWR) has filed with the Snake River Basin Adjudication (SRBA) District Court his Report for Basin 55 regarding the interconnection of water resources within the Snake River Basin. This Report is the Director's recommendation for the conjunctive management general provision that should be decreed for Basin 55.

Additionally, the Director of IDWR has filed with the SRBA District Court a supplemental report changing his recommendation for the irrigation season of use for the following water rights:

<u>Right No.</u>	<u>Owner</u>
55-02154	06 Livestock
55-07342	Josephine Creek Ranch
55-07001	Thomas R. & Anita L. Gluch

The Court will decide how it will decree a conjunctive management provision in Basin 55 and the irrigation season of use. You are free to agree or disagree with the Director's recommendations in these reports. If you agree with the Director's recommendation you do not need to do anything, pending further notice as described below. If you disagree with the Director's recommendation, you need to file an objection as described below.

INSTRUCTIONS FOR REVIEWING THESE REPORTS

Attached to this Notice is the complete Conjunctive Management Director's Report for Basin 55. The complete Irrigation Season of Use Supplemental Report for Basin 55 is available at the SRBA courthouse in Twin Falls and the locations listed on the third page of this notice. Copies of the report can be made, but you may be charged for copying and mailing. If you are claiming a right for which the Director has issued a new irrigation season of use recommendation, a complete description of the Director's recommendation for your claim is attached to this Notice. If so, you need to carefully review the new season of use recommended for your irrigation right.

INSTRUCTIONS FOR TAKING AN ISSUE TO COURT

What do I do if I disagree with the conjunctive management provision or a season of use recommendation?

If you disagree with IDWR's conjunctive management provision, or the season of use recommendation for your water right or anyone else's water right, and want to be heard in court, file an objection with the SRBA Court. Objections must be made on the standard objection form available from any IDWR office or from the SRBA Court and copies mailed to the parties shown on that form. You may also download a copy of the objection form from the SRBA Web Site at www.srba.state.id.us or the IDWR Web Site at www.idwr.state.id.us/idwr/info/water/srba/main.htm.

Your objection to IDWR's conjunctive management provision, or the irrigation season of use for the rights listed above must be received by the SRBA Court on or before **January 29, 1999**.

What do I do if someone else objects to with the conjunctive management provision or a season of use recommendation?

If someone files an objection to IDWR's conjunctive management provision, or the season of use recommendation for your water right or anyone else's water right, you may file a response to that objection. Responses to objections must be made on the standard response form available from any IDWR office or from the SRBA Court. Your response must be received by the SRBA Court on or before **March 5, 1999**.

What happens if there are no objections to a water right?

After the deadline for filing objections, the SRBA Court will hear the uncontested recommendations on **March 9, 1999**, at **10:30 A.M.** at the **SRBA Courthouse**. Any part of the report to which no objections are filed may be decreed by the district court.

How will I know about the proceedings on water right recommendations to which objections were filed?

A notice will be mailed to you for court dates on your water right or for those where you filed an objection or a response. You will not receive notice of court dates on any other water right recommendations. Additional information regarding the SRBA can be found on the SRBA Web Site at www.srba.state.id.us.

Note: The SRBA Court publishes a monthly Docket Sheet listing all objections and responses filed. It does not list court dates for individual water right cases, but provides general information helpful to all participants in the SRBA. The Docket Sheet is available at your county courthouse and all IDWR offices, or you may subscribe by contacting the SRBA Court or IDWR. The annual subscription fee is \$7.50. The Docket Sheet is also available on the SRBA Web Site at www.srba.state.id.us.

Place of use was issued @ 40 acres per 1/4 1/4. These 1/4 1/4's are not irr. that way because of ditch locations, wastewater & non-irr. areas.

POU description was changed based on GIS information and a lack of information to describe the delivery system to explain why some fields were originally described as partially irrigated.

THOMAS OR ANITA GLUCH
BOX 257
JORDAN VALLEY OR 97910

Dear Mr. or Mrs. Gluch;

SUBJECT: CLAIMS FILED IN THE SNAKE RIVER BASIN ADJUDICATION
(SRBA)

I am in the process of reviewing the claims you filed in the SRBA for recommendation and subsequent decree. Much of the information used for this review is based on our field exam of June 10, 1992, and previous licensing exams. The following claims require the information listed.

A55-02065-Lone Tree Storage

This claim was licensed for storage of Lone Tree water for domestic and irrigation purposes. For what type of domestic usage is this used? Is it used for in-house use and lawn irrigation? And if for lawn irrigation, how much lawn? Please be specific in your reply. *No domestic usage from reservoir. Add Stock to this! 500 cattle - yearly. POU as shown on map is OK.*

A55-04060-Lone Tree live flow

Our records show that there has been a change in the location of one of the diversion points. Has there been such a change? If so, when did the change occur and where were the old diversion(s) located? *POD's used here 30 years. Prior changes occurred due to meandering nature of creek & they were moved only short distances.* It also appears that there are some areas irrigated from the creek which are not claimed on your SRBA claim. These areas are located in portions of sections 12, 13, 14 and 23. Are these areas fed by wastewater? They are notated on the enclosed map by a question mark. *Upper areas are wastewater, but the others in dry land farming.*

The quantity of water claimed amounts to more than the Idaho standard of one inch per acre. Do you find it necessary to irrigate with more than this amount? If so, I have enclosed a form which you can fill out to verify the additional quantity. Without this information I am unable to recommend more than the standard amount. *NO. 1" / Acre is OK.*

Written info. on letter is as a result of office visit from T. Gluch on 2-22-95. A. Werner

One more item--from the information you submitted it appears that this claim can be recommended based on a posted notice. The only other information needed to verify this type of claim is that there was due diligence in completion of the water usage within five years of the time the water right notice was initially posted and recorded. Do you have any information relating to this? *To his info, no period of nonuse has occurred. Land has never sat idle or been leased out.*

A55-04061-Jordan creek irrigation

I have calculated 70 acres of irrigation versus 43 acres claimed on your SRBA claim. Is this number correct? Please review the place of use shown on the enclosed map for accuracy. *Irr. occurs on east side of creek. Land on west side is w.w.*

A55-07001-Irrigation from the well

The well location found during the field exam is different than where it is shown on the licensing field exam. Has there been a change in the well location? If so, when did the change occur? *Well has not been moved. Licensing field exam has well in wrong spot.*

Also, this right was licensed for the irrigation of 364 acres; however, information received during the field exam and subsequent office visit show only about 40 acres of irrigation. Please advise me on the application of the well water as it appears that your system has the capability of irrigating more. *Well irr. 364 acres as shown on my map. It is supplemental to creek water.* I am enclosing a map which outlines the entire system. Diversion points as well as irrigated lands are depicted. The key in the lower right hand corner shows the different sources and appurtenant places of use. Please review this map for accuracy.

Please return this information, to my attention, by March 15, 1995. This will allow me to complete your claim recommendations promptly and accurately. Also, don't hesitate to contact me if you have any questions.

Sincerely,

Linda A. Werner
Sr. Water Resource Agent
