ARTICLES OF AMENDMENT
TO THE RESTATED ARTICLES OF INCORPORATION SECRETARY OF STATE
OF
NERCO DeLAMAR COMPANY

PURSUANT to the provisions of Section 60.431, et seq., of the Oregon Revised Statutes, the undersigned corporation adopts the following Articles of Amendment to its Restated Articles of Incorporation:

FIRST: The name of the corporation is NERCO DeLamar Company (the "Company").

SECOND: The following amendment to the Restated Articles of Incorporation of the Company was adopted by the sole shareholder of the Company on August 2, 1993:

Article I of the Restated Articles of Incorporation is hereby amended to read as follows:

ARTICLE I

The name of the Company is KINROSS DeLAMAR MINING COMPANY and its duration shall be perpetual.

THIRD: The number of shares of common stock of the Company outstanding at the time of such adoption was Ten (10); and the number of such shares entitled to vote thereon was Ten (10). No other class of shares was issued and outstanding.

FOURTH: All of the outstanding shares were voted for the amendment; no shares were voted against the amendment.

DATED this 2 day of August, 1993.

APPLICATION FOR AMENDED CERTIFICATE OF AUTHORITY

To the Secretary of State of the State of Idaho:

Pursuant to Section 30-1-118, Idaho Code, the undersigned Corporation hereby applies for an amended certificate of authority to transact business in the State of Idaho and for that purpose submits the following statement.

1. A Certificate of Authority was issued to the corporation by your office on September 10, 19 84, authorizing it to transact business in the State of Idaho under the name of NERCO DeLamar Company
2. Its corporate name has been changed to Kinross DeLamar Mining Company

(Note: If the corporation name has not been changed, insert "No change.")

3. The name which it shall use hereafter in the State of Idaho is Kinross DeLamar Mining Company

4. It desires to pursue in the transaction of business in the State of Idaho purposes other than or in addition to those set forth in its prior application for certificate of authority, as follows:
No change

(Note: If no additional purposes are proposed, insert "No change.")

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in

DECEMBER 1988

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For Mining purposes from Jan 1 to Dec 31 amount 1.10 or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) 1.10 (cfs) and/or (b) _____ (acre feet)

8. Total consumptive use claimed is 796 acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) Mining and Milling of Silver/Gold ore

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals

Copies: White -State, Yellow-Claimant

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Identification No. _____
Application No. 55-7081 Amended

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR PERMIT

AMENDED

To Appropriate the Public Waters of the State of Idaho
(TYPE OR PRINT IN INK)

APPROVED

1. Name of applicant Earth Resources Co., DeLamar Silver Mine Phone: 303-279-7631
post office address P.O. Box 52, Jordan Valley, OR 97910
2. Source of water supply groundwater which is a tributary of _____
3. a. Location of point of diversion is SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 8 Township 5 S
Range 4 W B.M. Owyhee County; additional points of diversion if any: _____

b. If water is not consumed, it will be discharged into Jordan Creek at a point in NW $\frac{1}{4}$
of NE $\frac{1}{4}$ of Section 6 Township 5 S Range 4 W B.M. _____
4. Water will be used for the following purposes:
Amount 1.1 for mining & milling purpose from Jan. 1 to Dec. 31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purpose from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purpose from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated:
a. 1.1 cubic feet per second and/or
b. _____ acre feet per annum.
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. Buried 8" pipeline from well to
storage tank in NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 9, T. 5 S, R. 4 W

b. Height of storage ~~dam~~ Tank 11' feet, active reservoir capacity 1,000,000 ~~acres~~ gallons total reservoir
capacity 1,000,000 acre feet, materials used in storage ~~dam~~ steel
Period of year during which storage will occur Jan. 1 to Dec. 31 inclusive.
(Mo. Day) (Mo. Day)
c. Proposed well diameter is 12" inches; proposed depth of well is 300 feet.
7. a. Time required for the completion of the works and application of the water to the proposed beneficial use
is 1.5 years.
b. Estimated construction cost is \$ 120,000
8. Description of proposed uses:
a. If water is **not** for irrigation:
(1) Give the place of use of water: S $\frac{1}{2}$ XX of NE $\frac{1}{4}$ of Section 8 Township 5 S
Range 4 W B.M. _____
(2) Amount of power to be generated: _____ hp under _____ feet of head.
(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be
supplied with domestic water _____
(5) If water is to be used for other purposes describe: For operation of a silver and gold
mine and mill

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

[illegible]

Total number of acres to be irrigated_____

c. Describe any other water rights used for the same purposes as described above.

9. a. Who owns the property at the point of diversion Earth Resources Company

b. Who owns the land to be irrigated or place of use U.S. Government and Earth Resources Company
by mill site claim

c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing.

10. Remarks Earth Resources Company is in the process of buidling a mine and mill on DeLamar Mountain to mine and refine silver and gold from a deposit located on DeLamar Mountain and the water will be used in this mining and milling plant.

11. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile

BE IT KNOWN that the undersigned hereby makes application for permit to appropriate the public waters of the State of Idaho as herein set forth.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 55-7081, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

a. SUBJECT TO ALL PRIOR WATER RIGHTS.

b. Proof of construction of works and application of water to beneficial use shall be submitted on or before December 1, 19 77.

c. Other: A measuring device of a type approved by the Director shall be permanently installed and maintained as part of the diverting works.

2. Denial of said application is for the following reasons: _____

Witness my hand this 5 day of November 19 75.

KINROSS

DeLamar Mining Co.

December 22, 1998

Ms. Kay Walker
Idaho Department of Water Resources
2735 Airport Way
Boise, ID 83705

RECEIVED

DEC 30 1998

WATER RESOURCES
WESTERN REGION

Dear Ms. Walker:

In late October 1998, you were notified by telephone of the decision by Kinross Gold U.S.A., to suspend operations at the DeLamar Mine pending the recovery of currently depressed gold prices. This letter will serve as confirmation and written notification of that decision. On December 1 and December 10, 1998, representatives from Kinross gave a presentation to US EPA Region X Headquarters in Seattle and the DeLamar regulators' coordination meeting in Boise, respectively. This presentation provided information on the suspension of activities, required conditions for mine reopening and operations during suspension. For your convenience, this information is summarized below.

- The decision to suspend mining operations at DeLamar was made based on the current economics of mining and the prospect for continued gold prices at or below \$300 per oz. in the near future.
- The remaining currently identified gold reserves at DeLamar indicate the opportunity for three to five years of additional mining should gold prices recover to the \$350 per oz. range. Although gold prices are not accurately predictable, Kinross believes that the price of gold will recover sufficiently within the next several years to allow resumption of mining.
- During the suspension of active mining, the operation will be placed on a care and maintenance basis. Sufficient personnel will remain on site to perform site maintenance and insure compliance with all environmental permit requirements. Particular emphasis has been placed on the site water balance to insure continued compliance with tailings dam freeboard requirements.

Should you have additional questions, please contact me at DeLamar (ext. 206).). If I am not available, you may also contact Ms. Mary Barraco at Kinross Gold U.S.A. in Salt Lake City at 801-517-1064.

Sincerely,

Brian J. Schrage
Superintendent - Environmental Services

MEMORANDUM

April 13, 1998

TO: Files 55-02134/07078/07079/07081/07104

FROM: KAY WALKER *KW*

RE: Results of Susan Hamlin's Questions to S.O. staff

Susan Hamlin contacted me on April 10, 1998, with responses to Mary Barraco's requests at our meeting.

Susan had discussed this with several people at the State Office and they indicated that we could not change these rights to consumptive uses at this time. Susan faxed me a copy of a memo from Carter Fritschle which stated that the field exam of 55-02134 indicated that water was used in their mill and then returned to Jordan Creek, thus non-consumptive. Also, Carter explained that the use may have become consumptive when the tailings pond was added to the system but that would have resulted in an advancement of the priority dates to the date the pond was constructed. Thus, the consensus was not to add anything to these rights that stated they were consumptive.

In regard to the conditions on Rts. 55-07078 and 55-07079, Susan found these conditions were initiated to resolve protests against the approval of the projects prior to permits being issued. These conditions were attached to the rights for good reasons and even if Delamar has not and can not comply with the conditions, we cannot remove them.

I will call Mary Barraco and tell her the proposed recommendations will not be changed. *called 4/13 ~ 3:30pm*

MEMORANDUM .

April 13, 1998

TO: Files 55-02134/07078/07079/07081/07104

FROM: KAY WALKER 

RE: Notice of Error

Mary Barraco, Superintendent of Safety & Environmental Services for Kinross Delamar Mining Company came into the office on April 7th, 1998, in regard to the notices of error received on the proposed recommendations. Susan Hamlin (legal for IDWR) was also at this meeting.

We went through the notice of errors for each water right. We discussed each issue and resolved a lot of Mary's questions. The only two issues left unresolved when she left the office were these:

1. She requested that the recommendations had a condition or remark that stated the rights were consumptive.
2. She also wanted the removal of conditions listed on Rts. 55-07078 & 55-07079 requiring replacement of Jordan Creek water when Owyhee Reservoir did not fill.

Susan Hamlin stated she would check into these issues and get back to me so I could let Mary know the outcome.

PO BOX 52

JORDAN VALLEY OR 97910

Daytime Telephone Number: 208-583-2511

Evening Telephone Number: 208-459-4642

1. Describe the portion of the proposed recommendation with which you disagree (e.g. priority date, period of use, source):

Place of use

2. Describe the changes you wish to make in the proposed recommendation:

Need to add section 9, T5S, R4W, NW1/4, NW1/4

3. Give a brief explanation as to why you disagree with these portions:

The newer topographic maps show our water storage tank in this location. The tank is really close to the section line between sections 8 + 9. Best to add section 9 to be sure.

☐ I AGREE with this proposed recommendation; no changes need to be made.

CONDITIONS OF APPROVAL AND REMARKS

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license shall be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.
5. The issuance of this right does not grant any right-of-way or easement across the land of another.
6. A measuring device of a type approved by this Department shall be maintained as a part of the diverting works.
7. Use of water under this approval shall comply with applicable water quality standards of the Division of Environmental Quality of the Idaho Department of Health and Welfare.
8. After specific notification by the department, the right holder shall determine the amount of water diverted and shall annually

RE: Notice of Claims to Water Right Nos. A55-02134, A55-07078,
A55-07079, A55-07081 and A55-07104

Kinross DeLamar Mining Company
KIMBALL, PARR, WADDOUPS, BROWN & GEE
ATTN: Daniel A. Jensen
P.O. Box 11019
Salt Lake City, UT 84147-0019

Dear Mr. Jensen:

Enclosed are copies of the above referenced claims which reflect the change in ownership of the appurtenant water rights covered under the original filings.

The Department will contact Kinross DeLamar Mining Company in the future concerning any other requirements that may be needed in order to process these claims for final court decree. If you have any questions concerning the enclosed claims, please feel free to contact me.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

DeLamar and Stone Cabin Mines, Owyhee County, Idaho

Gentlemen:

NERCO DeLamar Company, an Oregon corporation, the former owner of the above-referenced water rights, was acquired by Kinross Gold U.S.A., Inc., a Nevada corporation ("Kinross"), effective August 3, 1993. The acquisition was pursuant to a stock purchase agreement between NERCO Minerals Company, an Oregon corporation (the parent corporation of NERCO DeLamar Company) and Kinross. The attached copies of an Irrevocable Stock Power dated August 2, 1993 and the attached stock certificates show that all 10 of the outstanding shares of NERCO DeLamar Company stock are now held by Kinross.

The name of NERCO DeLamar Company was changed, effective August 11, 1993, to Kinross DeLamar Mining Company, as evidenced by the attached certificate from the Oregon Secretary of State. The name change was recognized by the Idaho Secretary of State on August 13, 1993, as shown by the attached certificate. Kinross DeLamar Mining Company remains an Oregon corporation.

In light of these transactions, would you please amend your records and database to show Kinross DeLamar Mining Company as the current record owner of the seven water rights referenced above, and place a copy of this letter and its attachments in the files for each of the seven water rights. Six extra copies of this letter are enclosed for your convenience.

D. FLOW MEASUREMENTS

1. *NONE*

Measurement Equipment	Type	Make	Model No.	Serial No.	Size	Calib. Date

2. Measurements: *Capacity based on Table No. 1 (Attachment #4) which shows differences between water pumped into well and water pumped out of well for a 10 yr. period.*

E. NARRATIVE/REMARKS/COMMENTS

System consists of a 2000' well which is used as an injection well (55-W-1) or as a groundwater diversion. Water is diverted from Jordan Creek under license 55-02134 which may be injected into the well, or directly into a 500,000 gallon storage tank located in the SWNW¹/₄, Sec. 9, T5S, R4W. Well water is only used when Jordan Creek water is not available. Pursuant to Attachment #4, between 1982 and 1991 there were 5 years that more water was pumped out of the well than water pumped into the well from Jordan Creek. The total amount pumped into the well from Jordan Ck. during '82-'91 was 1,842 AF; the total amount pumped out during the same period was 1,949 AF. It is my conclusion that groundwater is used from this system. In 1989 there was 113 AF of g.w. diverted (this is the greatest amount in the time span given) which should be licensed as the capacity of the well.

Water from the well is pumped into the 500,000 gal. storage tank then into the milling process. The potable water

Have conditions of permit approval been met? ☒ yes ☐ no

building where it is treated and run into the domestic system for mine.

F. FLOW CALCULATIONS

____ Additional Computation Sheets Attached

Measured Method:

$$113 \text{ AF} \div 1.9835 \div 365 \text{ days} = 0.156 \text{ cfs} \\ \approx 0.16 \text{ cfs}$$

G. VOLUME CALCULATIONS

1. Volume Calculations for Irrigation:

$$V_{LR} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = \underline{\hspace{2cm}}$$

$$V_{D.R.} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = \underline{\hspace{2cm}}$$

$$V = \text{Smaller of } V_{LR} \text{ and } V_{D.R.} = \underline{\hspace{2cm}}$$

2. Volume Calculations for Other Uses:

1984 = 17 AF
1988 = 80 AF
1989 = 113 AF
1990 = 15 AF
1991 = 96 AF

Figures based on Attachment No. 4. Used 1989 volume since it was the maximum amount diverted during this period. Note: water was in use at time of previous exam, just not documented as well.

H. RECOMMENDATIONS

1. Recommended Amounts

Beneficial Use	Period of Use		Rate of Diversion Q (cfs)	Annual Volume V (afa)

FROM: Jim Johnson *Jim*

DATE: October 3, 1987

RE: Supplement to Field Report on Water Use

On October 3, 1984, Jan Grover and I conducted a field examination to determine the extent of beneficial use of water under rights 55-7079, 55-7081 and 55-7104.

Our initial contact was with Thomas J. Weitz, Mine Superintendent. He referred us to Pat Sheehan, Plant Manager, who gave us a tour of the milling plant water facilities.

Water Use

The DeLamar mining operation uses water for the milling plant, domestic, dust control and fire protection purposes. The majority of the water use is in the milling plant. Some of this water is consumed, however, most of it is used to convey solid material from the plant to a sediment pond. Clean water from the sediment pond is recycled to the milling plant for re-use.

Sources

Sources of water supply for the mining operation use mainly Jordan Creek and recycled water from the sediment pond. Several wells have been drilled but none had sufficient yield and all but one have been abandoned.

Distribution System

The water distribution system consists of a pumping plant located on Jordan Creek, licensed under Right 55-7078, and a pipeline from the creek to the milling site. Water reaching the site is either diverted to a 200,000 gallon storage tank or injected into a 12" well 2000 feet deep. The injected water (from the well) can be pumped to the storage tank by a submerged pump and 125hp motor.

Water from the storage tank is conveyed to the milling plant, and/or domestic treatment facility, and/or a truck water stand. Water leaving the milling plant is mixed with solid material creating a slurry which is conveyed to the sediment pond. Located at the sediment pond is a pumping plant which diverts the water into a 10" pipeline leading back to the milling plant.

Water Appropriated Under Permit 55-7081

Confirmation was made during the examination that a well had been drilled and that a pump and 125hp motor had been installed in the well. However, no groundwater had been appropriated.

Based upon information provided by Mr. Sheehan, the water from Jordan Creek is discharged into the well continuously unless Jordan Creek goes dry, equipment needs repair, or if water levels in the well resulting from Jordan Creek injection get too high.

Mr. Sheehan reported that 12 to 14 million gallons per month were being diverted from Jordan Creek and about 5.5 million gallons per month were used for the plant milling process.

On an annual basis, the mining operation requires 202.5 af and the Jordan Creek diversion supplies 360.9 af. Mr. Sheehan estimated that the pumps from Jordan Creek run about 70% of the year. The difference between 360.9 and 202.5 af, or 158.4 af, is supplied by withdrawing the water injected into the well.

When the Jordan Creek diversion is shut-down, water can be diverted from the well to the storage tank at a rate of 1.16 cfs. This rate will produce about 291.9 af. However, only 60.75 af is required for the milling plant during the shut-down period, therefore, of the 158.4 af injected into the well, only 60.75 af is rediverted to the milling plant, leaving a balance of 97.7 af unused and left in the well, which is assumed to be recharging the groundwater aquifer.

Recommendation

The above information provides a convincing conclusion that the well in use is not for the purpose of diverting from a groundwater source but rather used as an underground storage facility for rediverting Jordan Creek water when the pumping station on Jordan Creek is shut down.

Therefore, the recommendation for permit 55-7081 is that it be cancelled on the basis that no beneficial use was developed.

1. Name of applicant Earth Resources Co., DeLamar Silver Mine Phone: 303-279-7631
post office address P.O. Box 52, Jordan Valley, OR 97910
2. Source of water supply groundwater which is a tributary of _____
3. a. Location of point of diversion is SE $\frac{1}{4}$ of NE $\frac{1}{4}$ of Section 8 Township 5 S
Range 4 W B.M. Owyhee County; additional points of diversion if any: _____

b. If water is not consumed, it will be discharged into Jordan Creek at a point in NW $\frac{1}{4}$
of NE $\frac{1}{4}$ of Section 6 Township 5 S Range 4 W B.M. _____
4. Water will be used for the following purposes:
Amount 1.1 for mining & milling purpose from Jan. 1 to Dec. 31 (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purpose from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
Amount _____ for _____ purpose from _____ to _____ (both dates inclusive)
(cfs or acre-feet per annum)
5. Total quantity to be appropriated:
a. 1.1 cubic feet per second and/or
b. _____ acre feet per annum.
6. Proposed diverting works:
a. Description of ditches, flumes, pumps, headgates, etc. Buried 8" pipeline from well to
storage tank in NW $\frac{1}{4}$ NW $\frac{1}{4}$, Sec. 9, T. 5 S, R. 4 W

b. Height of storage ~~dam~~ Tank 11' feet, active reservoir capacity 1,000,000 ~~acre feet~~ gallons total reservoir
capacity 1,000,000 acre feet, materials used in storage ~~dam~~ steel
Period of year during which storage will occur Jan. 1 to Dec. 31 inclusive.
(Mo. Day) (Mo. Day)
c. Proposed well diameter is 12" inches; proposed depth of well is 300 feet.
7. a. Time required for the completion of the works and application of the water to the proposed beneficial use
is 1.5 years.
b. Estimated construction cost is \$ 120,000
8. Description of proposed uses:
a. If water is ~~not~~ for irrigation:
(1) Give the place of use of water: S $\frac{1}{2}$ ~~XX~~ of NE $\frac{1}{4}$ of Section 8 Township 5 S
Range 4 W B.M.
(2) Amount of power to be generated: _____ hp under _____ feet of head.
(3) List number of each kind of livestock to be watered _____

(4) Name of municipality to be served _____, or number of families to be
supplied with domestic water _____
(5) If water is to be used for other purposes describe: For operation of a silver and gold
mine and mill

b. If water is for irrigation, indicate acreage in each subdivision in the tabulation below:

TWP.	RANGE	SEC.	NE1/4				NW1/4				SW1/4				SE1/4				TOTALS
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	

Total number of acres to be irrigated_____

c. Describe any other water rights used for the same purposes as described above._____

9. a. Who owns the property at the point of diversion Earth Resources Company
- b. Who owns the land to be irrigated or place of use U.S. Government and Earth Resources Company
by mill site claim
- c. If the property is owned by a person other than the applicant, describe the arrangement enabling the applicant to make this filing _____

10. Remarks Earth Resources Company is in the process of buidling a mine and mill on DeLamar Mountain to mine and refine silver and gold from a deposit located on DeLamar Mountain and the water will be used in this mining and milling plant.

11. Map of proposed project: show clearly the proposed point of diversion, place of use, section number, township and range number.

Scale: 2 inches equal 1 mile

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 55-7081, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before December 1, 19 77.
- c. Other: A measuring device of a type approved by the Director shall be permanently installed and maintained as part of the diverting works.

2. Denial of said application is for the following reasons: _____

Witness my hand this 5 day of November 19 75.

RE: Claims filed in the Snake River Basin Adjudication.

Dear Claimant;

The Department of Water Resources will be conducting beneficial use and water right claim verification examination in your area beginning in April. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used, number of acres irrigated, and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which need to be completed this season, we request that you contact our office at (208) 334-2190 within two weeks to make an appointment at a time convenient for you. The amount of time required to conduct these exams depends on the number of water rights you have filed. An approximate time can be given when you call for an appointment.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be beneficial.

To make an appointment, or if you have any questions or problems with scheduling the exam verification, please contact one of the following water resource agents in our office.

RON HOWERTON

KAY WALKER

LINDA WERNER
