AFFIDAVIT

William E. Ross being first duly sworn,
deposes and says: the property known as the "C" Ranch located in
Malheur County, Oregon, and Owyhee County, Idaho, was purchased
by my father, Sam Ross, in 1919 from Ben Swisher. I was born in
1927 and gained title to the "C" Ranch property during the early
1950s. I attest that the water resource, Idaho Spring was bene-
ficially and continuously used on the "C" Ranch real property
from my earliest remembrance until the present time.

Re: Water Right claims A55-04144, A55-10253, A55-10254, A55-10255

Dear Mr Mendieta:

I've been reviewing the files for the above referenced claims in preparation of making the final recommendations to the court. I find we still need documentation as evidence of priority to confirm when the various sources of water were first applied to a beneficial use. The specifics of each claim are shown below.

A55-04144 The priority date claimed is April 15, 1926 and the sources claimed are Bull Basin Creek, Bull Basin Spring and a Spring known as Head of Ditch Spring. The uses claimed are irrigation and stock water. There is no evidence of priority in the file for any of the sources or uses. Linda Werner's letter to you dated August 2, 1993 requested evidence to confirm the continued usage of the water which we also still need.

A55-10253 The priority date claimed is December 31, 1890 and the source claimed is a Spring known as C-Ranch Spring. The use claimed is irrigation but other uses are domestic and stock water. William Ross's affidavit in the file is not specific as to dates or kinds of use. Additional evidence is needed.

A55-10254 The priority date claimed is December 31, 1890 and the source claimed is Idaho Spring. The use claimed is irrigation of the same land in Oregon irrigated by claim A55-10253. Additional evidence is also required for this claim because Mr Ross's affidavit is not specific enough to confirm the priority date and uses.

A55-10255 The priority date claimed is December 31, 1890 and the source claimed is Cow Creek for the irrigation of 13 acres. We have no priority evidence in file for the date claimed nor the use claimed from this source.

Its imperative we receive the information requested above. Without it are only alternative is to recommend the claims be disallowed. Call me at the number below if you have questions or if I can be of further assistance.

Dear Mr. & Mrs. Mendieta & Mr. & Mrs. Payne:

On February 13, 1992 you submitted three additional Notices of Claim to a Water Right for Owyhee County property. These claims are Claim No.'s A55-10253 for a Spring tributary to Field Creek, A55-10254 for Idaho Spring tributary to Field Creek and A55-10255 for Cow Creek tributary to Petes Creek. All were based on beneficial use of the water dating back to the time water was first used, this date being the priority date as shown on the enclosed copies of each claim. These type of filings are based on the historical use of the water and have not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, The Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority dates as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under these rights, if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify these three claims, along with your other claims in Owyhee County, for which evidence of priority has already been submitted, will be

MICROFILMED

SEP 30 1992

conducted within the next month. A letter to schedule an appointment will be sent by a field agent on all of your claims within the next few weeks.

Please submit the required evidence supporting the priority dates within two weeks from this letter in order to prepare these files for field examination and eventual court decree.

If you have any questions concerning this letter, please contact a water resource agent in this office.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jan Shurte".
