PLACER MINING LOCATION NOTICE

Department of Water
Western Regional OfficeNOTICE IS HEREBY GIVEN, That Charles Andrewsthe undersigned citizen—of the United States of America, conforming to the mining laws thereof and of the state of Idaho, and the local rules, regulations and customs of miners, have this 18day of May A. D. 1949, located and do hereby claim Tenenty (20)

acres of Placer Mining ground, situate, lying and being the north $\frac{1}{2}$ of the South west $\frac{1}{4}$ of the Southwest $\frac{1}{4}$ of Section 11, of Township 6 North and Range 3 West. Claim on the east slope of Boone Peak and is also along the head of a west branch of the west fork of meadow creek. This claim is named the (Golden Eagle) Placer claim.

in Steele or meadow creek

(unorganized) Mining District, in the County of

Quincy

and State of Idaho, particularly described as follows, to-wit:

Commencing at this monument which is the Southwest corner of the claim,said monument being corner No. 1, upon which this notice is posted; thence in a Northdirection 660 feet to corner monument No. 2, the North east corner ofthe claim; thence in a West direction 1320 feet to corner monumentNo. 3, the North west corner of the claim; thence in a Southdirection 660 feet to corner monument No. 4, the South west cornermonument of the claim; thence in a East direction 1320

feet to corner No. 1, the place of beginning.

The said corner monument No. 1, upon which this notice is posted, is situated about 2000feet in a Southeasterly direction from Top of Boone Peak andcorner No. 3 a stake is erected 1320 feet duenorth of N. S. Land Survey marker which is on thethe corner corner of S 8 Section 10, 11, 14, & 15 ofT 6 S and R 3 W. Work hole is 30 ft north of corner No. 1.

The adjoining claims are Rose & Mary's on the South and
Forty miners on the East.

The corner monuments Nos. 2, 3, and 4 aforesaid are marked upon the side facing corner monument No. 1, the monument, with the name of the claim and the corner which each of said monuments represent and all of said monuments are at least four inches in diameter and at least four feet high above the ground.

Claimants.

STATE OF IDAHO, } ss.
County of Carroll

I, Charles Andrews

do solemnly swear that I am a citizen of the United States of America (or have declared my intentions to become such) and that I am acquainted with the mining ground described in this notice of location and herewith called the Golden Eagle
that the ground and claim therein described, or any part thereof, has not to the best of my knowledge and belief been located according to the laws of the United States and of this State, or if so located that the same has been abandoned or forfeited by reason of the failure of such former locators to comply in respect thereto with the requirements of said laws, and that I have made an excavation upon said claim of not less than one hundred cubic feet for the purpose of prospecting the same, as required by the laws of Idaho, and that all stakes and monuments or trees marking boundaries of said claim are in proper place and position.

Charles Andrews

PUMP & 1 1/2 PUMP LINE TO MINING PROCESSING MACHINES.

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For MINING purposes from 1/1 to 12/31 amount 0.06 or ALL WATERS ON CLAIMS

For Mining Storage purposes from 1/1 to 12/31 amount _____ or 2 AF

For Mining From Storage purposes from 1/1 to 12/31 amount _____ or 2 AF

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) 0.06 (cfs) and/or (b) 2 ALL WATERS ON CLAIMS (acre feet)

8. Total consumptive use claimed is UNKNOWN acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) MINING TO SEPARATE MINERALS

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals

Total number of acres irrigated _____

11. In which county (ies) are lands listed above as place of use located? OWYHEE

12. Do you own the property listed above as place of use? Yes _____ No X

If your answer is No, describe in Remarks below the authority you have to claim this water right.

13. Describe any other water rights used at the same place and for the same purposes as described above.

or None X

14. Remarks: WATER USED ON MINING CLAIMS FOR MINING!
APPROPRIATION BY ADVERSE POSSESSION CONSTITUTES
VALID APPROPRIATION USE IN MINING.

Last Name ANDRUS Ident No. _____

Copies: White -State, Yellow-Claimant

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Map of Project: show clearly the point of diversion, place of use, section number, township, and range number.

PLACER MINING LOCATION NOTICE

Department of Water Resources
Western Regional Office

NOTICE IS HEREBY GIVEN, That

Charles Andrews

the undersigned citizen—of the United States of America, conforming to the mining laws thereof and of the state of Idaho, and the local rules, regulations and customs of miners, have this 18

day of May A. D. 1949, located and do hereby claim Twenty (20)

acres of Placer Mining ground, situate, lying and being the north $\frac{1}{2}$ of the Southwest $\frac{1}{4}$ of the Southwest $\frac{1}{4}$ of Section 11, of Township 6 south and Range 3 west. Claim is on the east slope of Boone Peak and is also along the head of a west branch of the west fork of meadow creek. This claim is named the (Golden Eagle) Placer claim.

in Steel or meadow creek (unorganized) Mining District, in the County of Owyhee and State of Idaho, particularly described as follows, to-wit:

Commencing at this monument which is the Southeast corner of the claim, said monument being corner No. 1, upon which this notice is posted; thence in a North direction 660 feet to corner monument No. 2, the Northeast corner of the claim; thence in a West direction 1320 feet to corner monument No. 3, the Northwest corner of the claim; thence in a South direction 660 feet to corner monument No. 4, the Southwest corner of the claim; thence in an East direction 1320 feet to corner No. 1, the place of beginning.

The said corner monument No. 1, upon which this notice is posted, is situated about 2000 feet in a Southeasterly direction from Top of Boone Peak and corner no. 3 stake is erected 1320 feet due north of U. S. Land Survey marker which marks the common corner of Sections 10, 11, 12, 13 of T6S and R3W. Work hole is 30 ft. north of corner no. 1.

The adjoining claims are Rose Quartz on the South and Forty niner on the East.

The corner monuments Nos. 2, 3, and 4 aforesaid are marked upon the side facing corner monument No. 1, the monument, with the name of the claim and the corner which each of said monuments represent and all of said monuments are at least four inches in diameter and at least four feet high above the ground.

Discovered on the 6th day of May A. D. 1949

Located on the 18th day of May A. D. 1949

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES
APPLICATION FOR A PERMIT TO ALTER A STREAM CHANNEL

1997 INDIVIDUAL RECREATIONAL DREDGING APPLICATION

This application will be returned if it is not accompanied by the required filing fee.

Application for Operation of Vacuum or Suction Dredges and Power Sluice Equipment with nozzle diameter of 5 inches or less, and equipment rated at 15 HP or less, in a stream channel for the 1997 calendar year.

(Applicant shall be considered as the individual operating the dredge nozzle or placing material into the sluicing equipment.)

1. Applicant Name Larry S. Andrews Telephone (208) 459-2984

Address 12887 Chicken Dinner, Caldwell, Idaho 83605

2. Description of Equipment (nozzle size [5 inch diameter maximum], horsepower [15 HP maximum], make and model – Power equipment not listed cannot be use under this permit). Hercules In Type: 15 HP 1/2"
Model: 2 AO 47 III Motor + Orman Pump 3" Centrifugal Pump Model:
03E1-2AO42+4" Home Made Dredging Equip + Sluice Equipment.

RULES AND MINIMUM STANDARDS TO BE COMPLIED WITH FOR STREAM CHANNEL ALTERATIONS:

- Rule 64.01. Suction Dredges. The following standards shall apply only to uses of suction dredges capable of moving two cubic yards of material per hour or less.
- 64.02. A permit for the operation of a suction dredge may authorize the use of the dredge within a drainage basin or a large portion of a drainage basin except as otherwise determined by the director.
- 64.03. There shall be no use of mechanized equipment below the mean high water mark except for the dredge itself, and any life support system necessary to operate the dredge.
- 64.04. The operation of the dredge shall be done in a manner so as to prevent the undercutting of stream banks.
- 64.06. Limitation of mining sites. Only one mining site per hundred (100) linear feet of stream channel shall be worked at one time unless waived by the Director.

I hereby certify that I have read Section 42-3803(a), Idaho Code, Rules and Minimum Standards for Stream Channel Alterations pertaining to dredge mining; that I understand and agree to be governed by all the conditions set forth in the permit issued pursuant to the Idaho Code, and Rules and Minimum Standards for Stream Channel Alterations of the Department of Water Resources. The departments of Water Resources, Lands, Fish and Game, Health and Welfare, U. S. Forest Service, Bureau of Land Management and other authorities with jurisdiction over mining and associated operations are hereby granted permission to come upon and inspect my mining operation. I also hereby certify that I have received, reviewed, have in my possession, and agree to operate in accordance with Attachments A, B, C, D, E & F for the calendar year in which this permit is valid.

"For activities on National Forest System Lands, I will submit a copy of this permit along with the location, timing, and duration of planned dredging and camping activities to the appropriate Forest Service Ranger District. This information will serve as a Notice of Intent of my intended activities as required under Forest Service Mining Regulations at 36 CFR 228A. I understand that Forest Service approval of these activities may be required and that this dredge permit will not be valid on the National Forest until such approval is given."

Any approvals or additional information required by the Forest Service must be attached to your permit.

Date: 6-16-97 Signature: Larry S. Andrews

This permit specifically prohibits the "TAKE " of any ENDANGERED SPECIES. Therefore, the Department of Water Resources reserves the right to halt dredging at any time that an endangered species is present or it is determined that impacts, cumulative or otherwise are having a detrimental effect on habitat of an endangered species. Further, the IDWR reserves the right to require the permit holder to move his operation to a different location approved by the department. Refer to Attachment E of the booklet for information concerning listed salmon species.

ACTION: Disapproved ☐ Approved ☒ Valid Until December 31, 1997

RE: Snake River Basin Adjudication (SRBA)
Owyhee County - Notices of Claim #A55-10257 & A55-10258

Dear Claimants:

We are forwarding to you data-entered copies of the claims you filed in the Snake River Basin Adjudication.

We have interpreted the data from these claims in the process of data entry in a manner which we feel more accurately reflects the true status of this water right. Please review the enclosed claims to assure that they are in agreement with these water rights.

If you believe our data is incorrect, and you wish to make any changes to these Notices of Claim, initial the changes before signing the form(s), have your signature notarized, and return the claim(s) to this office within 30 days. If you believe the claims are correct, you may retain these copies of your claims for your records.

Please feel free to contact this office if you have any questions.

Sincerely,

John D. Carlson
Adjudication Supervisor

Re: Claim No.'s A55-10257 & A55-10258

Dear Charles & Larry:

Recently, you submitted the above referenced claims in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claims for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when these claims were filed that the water rights were based on "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claims have not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority dates as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under these rights, if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. A field exam to verify other items of the above claims will be conducted this summer by Department personnel. A letter from a field agent will be mailed to you within the next few weeks to schedule an appointment for this exam.

6-19-92
Pg. 2

Please submit the required evidence supporting the priority dates within two weeks so that these claims can be prepared for field examination and eventual court decree. If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jan Shurte". The signature is written in dark ink and is positioned above the printed name and title.

RE: Claim(s) filed in the Snake River Basin Adjudication.

Dear Mr. Andrus;

The Department of Water Resources will be conducting beneficial use and water right claim verification examinations in your area beginning in June. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used, number of acres irrigated, and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, which need to be completed this season, we request that you contact our office at 334-2190 within one week to make an appointment at a time convenient for you. The amount of time required to conduct these exams depends on the number of water rights you have filed. An approximate time can be given when you call for an appointment.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be beneficial.

To make an appointment, or if you have any questions or problems with scheduling the exam verification, please contact me as soon as possible.

Sincerely,

Linda A. Werner

Dear Mr. Andrus:

I am writing in regard to two Notices of Claim to a Water Right that were submitted in the Snake River Basin Adjudication. (SRBA) These are numbered A55-10257 and A55-10258 and are for mining uses from Meadow creek and Jordan creek.

An examination is needed to verify your water use in order for these uses to be decreed in the SRBA. This is the fourth request for an exam date and/or evidence of usage that the Department has made. Please be advised that without an accomplished field exam your mining usage may not be decreed in the SRBA and without such decree your usage could be declared to be invalid.

Please contact me as soon as possible to discuss this. The field season is rapidly coming to a close and recommendations for this area are scheduled to be completed soon. I can be reached at (208) 334-2190.

Sincerely,

Linda A. Werner

Andrus mines

11-12-93

A55-10257 & A55-10258

Exam conducted on 11-10-93. Accompanied by Larry ^(son) & Charles ^(dad) Andrus.

Picked up claimants in Marysbg & went to mining site on Jordan creek. First, Azia consists of a mining claim which includes as a P.O.U. 12, 40 acre sections which are adjacent to Jordan cr.

Claimants use a portable 1.5" Tuel pump w/ 2" intake & 1 1/2" outlet. H.P. unknown. Claimant will send me this info.

From this area we then drove to the mining site on Meadow cr. Source is listed as Meadow cr. Claimant told me it was actually the west fork of Meadow cr. The map, G.P. & contour, do not list it as such. Recommended source as unim. stream trib. to Meadow cr. Then add a remark stating that source also known as W. Fork of Meadow cr.

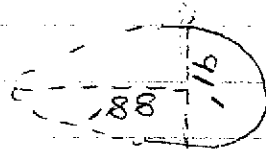

Usage area consists of 3 onstream ponds. 2 of these ponds are adjacent to each other & across from old cabin site. The upper (& larger) reservoir is $\approx$ 800' upstream of the lower ponds.

S.P. #1 = 73' W x 57' L x 3' D (use avg depth of 1')

$$\left(\frac{1}{2}\right) 73 \times 57 \times 1 = 43560 = 0.05 \text{ AF}$$

S.P. #2 = $\left(\frac{1}{2}\right) 128' \text{ W} \times 90' \text{ L} \times 7' \text{ D} \times \frac{1}{4} = 0.37 \text{ AF}$

S.P. #3 = 0.62 AF - (see next pg.)

$r^2 \cdot \pi = \text{area}$

$$2070.2 \times \pi = 6500.6$$

$\div 2$ for half this

$$= 3250.3 \text{ acres sq. ft.}$$

$$\frac{1}{2} 91' \times 88' = 4004 \text{ sq. ft.}$$

$$\begin{array}{r} 3250.3 \\ + 4004 \\ \hline \end{array}$$

$$7254.3 \text{ sq ft} \times 9.36 \times .4 = 43560$$

$$= 0.62 \text{ AF}$$

Pumps used at this site is a 3 hp, $1\frac{1}{4}$ " gear pump w/ $1\frac{1}{4}$ " & 1" PVC. Also uses a 7 hp - w/ same size PVC line (300-400' line)

COMMUNICATION DOCUMENTATION

Claim No. A55-10257

This form is to be used to document public record information requests regarding any SRBA claim or claims. The form may also be used to document IDWR communications requesting information regarding any SRBA claim or claims when the request is not made in writing or the claim verification report is not readily available to document the request. This form is to be filed in all relevant claim files or a central office file.

IDWR Employee/Agent Linda Werner Date 12-13-94Contact Person(s) Charles Andrus & Harold EstesNature of Contact Diversion system

Substance of Communication Harold Estes is claimant's son-in-law. He has been working the mining operation in the past. System consists of 3 HP motor w/ 1 1/2" dia 8" intake hose. From motor water conveyed by hose 500' to work site. Lift is approx 3'. Claimant uses middle pond as diversion site. Ponds do not fill in 24 hours. Season of use is May 1 to Nov. 1. Upper pond used for storage & water released from here to middle pond when ^{water} conditions require it. Lower pond used as settling pond.
He is not familiar w/ the wagon ford on Jordan creek so he will have Harry Andrus call me.

Dear Mr. Andrus;

I am writing in regard to the Notice of Claim to a Water Right which you submitted for the mining usage on Meadow creek. This claim is numbered A55-10257.

In our phone conversation of Tuesday, December 13, both you and Mr. Estes indicated that the claimed quantity of water of 0.06 cfs (27 gpm) was not an accurate representation of the amount of water being pumped from the pond, and that it was actually more like 150 gpm. In order for more quantity to be recommended, your Notice of Claim must be amended to reflect this increased quantity. I have enclosed a copy of this Notice of Claim so you can make the necessary amendment. What you need to do is add in the amount you would like to claim under item six and seven on this form. You will also need to sign this form and have it notarized.

Because this will represent an increase in the quantity of water there will also be an additional fee. The fee is calculated at a variable rate of \$100.00 per cfs. For example: You indicated that you were pumping approximately 150 gpm. This is equal to 0.33 cfs. At \$100.00 per cfs this would amount to \$33.00. You have already paid the variable rate on 0.06 cfs of \$6.00. Consequently, at 0.33 cfs the additional fee required would be \$27.00.

Also, I need a more detailed description of your diversion works. Please send a diagram, if possible. I am looking for particulars in regard to where you are setting the pump, where you are running the 500' of pvc, the elevation from inflow to motor to worksite and the conveyance method of runoff to the settling pond, along with the pond locations. I will send a map which you can use to show the details of the system.

12/16/94

Please return this information, to my attention, within 30 days of the date of this letter. I will then be able to complete the recommendation of this claim. Be sure to contact me if you have any questions. Thank you for your assistance.

Sincerely,

Linda A. Werner
Sr. Water Resource Agent

Re: Claim A55-10257

Dear Mr. Andrus:

I'm trying to complete our final recommendation for the water right claim referenced above that relates to your mining operation near Meadow Creek in Owyhee County. Prior to doing so, I need some additional information from you to clarify how your pond and pump systems are used. The current information in our file is conflicting.

The claim specifies there are three ponds and two-1 1/2" pumps. The first pump delivering water through a 150' pipe from the lower pond to the middle pond. It also shows the second pump discharges to another 150' pipe to the mining equipment.

A hand written memo in the file dated 12/13/1994 by Linda Werner relates to a conversation she had with Harold Estes. It indicates the top pond is used for storage and discharges to the middle pond that is the point of diversion to the mining equipment. The lower pond is then used as a settling pond. According to this memo one 3-hp pump and 500' of one inch diameter hose is used to deliver water to the mining equipment site. It also indicates there is three foot of lift from the pond to the equipment.

In another file note Linda references a telephone conversation with you that there are two-1 1/2" three horse power pumps used with 300' of hose to deliver water to the mining equipment.

I'm satisfied the dimensions we have in file of the three ponds is adequate to estimate their storage capacities. However, I do need to know precisely how the ponds are used in your operation.

The most confusing information in our file relates to your pump system. Specifically, how many pumps and what are there horse power ratings? We also need to clarify how many pumps are deliver water directly to the mining equipment, the length and diameters of the hoses used to deliver water to the equipment and the estimated vertical lift from the pump(s) to the equipment.

Enclosed is a copy of an enlarged topographical map to use if you need it. If it would make it easier to relay the information requested you can call me at the number below. I need this information as soon as possible to that I'm prepared to meet our anticipated court filing deadlines.

MEMORANDUM TO FILE

TO: A55-10257

DATE: 12/1/1995

FROM: MEL SCHULTE *MTS*

RE: Delivery system for A55-10257

On this date I received a call from Randy Buckley on behalf of Charles Andrus in response to my 11/29/1995 letter. Mr. Buckley indicated he has been running the Meadow Creek mining operation for Charles Andrus and is familiar with the diversion system.

Mr Buckley said that all three ponds store water. Pond #1 is used exclusively for storage, pond #2 receives water released from pond #1 and water pumped back from pond #3. Water is pumped from pond #2 to the mining equipment and is considered the point of diversion. Pond #3 is used as a settling pond for discharge water from the mining equipment. Water is pumped from pond #3 back to pond #2 and recycled for use through the mining equipment. All ponds are in stream facilities.

A 3 hp pump is used to pump water from pond #3 through a 1 1/2" diameter 150' PVC pipe from pond #3 to pond #2 with a lift of about 25' in elevation. A 3 hp pump also used to pump water from pond #2 to the mining equipment. This pump discharges to a 1 1/4" diameter pipe 150' in length with a lift of about 25'. Stored water from pond #1, stored and recycled water from pond #3 and stored water in pond #2 constitute the total amount of storage water which supplements live flow water that can be diverted at pond #2. Excess discharged water from pond #3 returns to the stream.

MEMORANDUM TO FILE

TO: A5⁵~~A~~-10257 & -10258

DATE: JUNE 28, 1996

FROM: MEL SCHULTE *MTS*

RE: RECREATIONAL DREDGING PERMITS

Linda Andrus, wife of Larry Andrus, called to inquire if they needed two recreational dredging permits to comply with the above claims. I informed her they needed one for each operation (claim) because they were on two distinct and separate water sources. She was filing out one application when she called but needed a second form which I mailed to her this date. She indicated they would send the applications in very soon because they intended to use the equipment on Jordan Creek within the next several weeks and they are always concerned that they have the proper filings complete.

Linda Andrus informed me that she and Larry are not currently involved with the Meadow Creek (A5~~A~~-10257) operation but mainly Jordan Creek. She indicated that her father-in-law, Charles Andrus, with the help of Randy Buckley have been operating Meadow Creek in recent years.

I informed Linda that we could not approve the claims referenced above until we had approved recreational dredging permits on file. She said they understood and it is their intention to always be legal with their filings.
