Dear Mr. Schulte:

The reason this Claim needed amended is, No one at the Water Resources office could tell us how to change gals. per min. to C.F.S. the day we came to the office.

A man told us wrong on the change over, so I made an error I think I am sending you all that you need to file this claim right.

Sincerely,

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month, and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

APPLICATION FOR A PERMIT TO ALTER A STREAM CHANNEL

1997 INDIVIDUAL RECREATIONAL DREDGING APPLICATION

This application will be returned if it is not accompanied by the required filing fee.

Application for Operation of Vacuum or Suction Dredges and Power Sluice Equipment with nozzle diameter of 5 inches or less, and equipment rated at 15 HP or less, in a stream channel for the 1997 calendar year.

(Applicant shall be considered as the individual operating the dredge nozzle or placing material into the sluicing equipment.)

1. Applicant Name LARRY G. ANDRUS JR. Telephone (208) 459-2984Address 12887 CHICKEN DINNER RD. CALDWELL, ID 836052. Description of Equipment (nozzle size [5 inch diameter maximum], horsepower [15 HP maximum], make and model - Power equipment not listed cannot be use under this permit). Hercules Div. Type 15 HP Mtl.
Model: 2A047 III Motor Corman Rupp 3" Centrifugal Pump Model:
03E1-2A042 4" Home Made Dredging Equip. & Sluice Equipment.

RULES AND MINIMUM STANDARDS TO BE COMPLIED WITH FOR STREAM CHANNEL ALTERATIONS:

Rule 64.01. Suction Dredges. The following standards shall apply only to uses of suction dredges capable of moving two cubic yards of material per hour or less.

64.02. A permit for the operation of a suction dredge may authorize the use of the dredge within a drainage basin or a large portion of a drainage basin except as otherwise determined by the director.

64.03. There shall be no use of mechanized equipment below the mean high water mark except for the dredge itself, and any life support system necessary to operate the dredge.

64.04. The operation of the dredge shall be done in a manner so as to prevent the undercutting of stream banks.

64.06. Limitation of mining sites. Only one mining site per hundred (100) linear feet of stream channel shall be worked at one time unless waived by the Director.

I hereby certify that I have read Section 42-3803(a), Idaho Code, Rules and Minimum Standards for Stream Channel Alterations pertaining to dredge mining; that I understand and agree to be governed by all the conditions set forth in the permit issued pursuant to the Idaho Code, and Rules and Minimum Standards for Stream Channel Alterations of the Department of Water Resources. The departments of Water Resources, Lands, Fish and Game, Health and Welfare, U. S. Forest Service, Bureau of Land Management and other authorities with jurisdiction over mining and associated operations are hereby granted permission to come upon and inspect my mining operation. I also hereby certify that I have received, reviewed, have in my possession, and agree to operate in accordance with Attachments A, B, C, D, E & F for the calendar year in which this permit is valid.

"For activities on National Forest System Lands, I will submit a copy of this permit along with the location, timing, and duration of planned dredging and camping activities to the appropriate Forest Service Ranger District. This information will serve as a Notice of Intent of my intended activities as required under Forest Service Mining Regulations at 36 CFR 228A. I understand that Forest Service approval of these activities may be required and that this dredge permit will not be valid on the National Forest until such approval is given."

Any approvals or additional information required by the Forest Service must be attached to your permit.

Date: 6-16-97 Signature: Larry G. Andrus Jr.

This permit specifically prohibits the "TAKE" of any ENDANGERED SPECIES. Therefore, the Department of Water Resources reserves the right to halt dredging at any time that an endangered species is present or it is determined that impacts, cumulative or otherwise are having a detrimental effect on habitat of an endangered species. Further, the IDWR reserves the right to require the permit holder to move his operation to a different location approved by the department. Refer to Attachment E of the booklet for information concerning listed salmon species.

AFFIDAVIT

Charles Andrews being first duly sworn,
deposes and says: I first use water from Jordan
Creek for Mineral Separation on May 1, 1946
in several Sec. of T5S, R5W. I have used
water for Beneficial Use of Mining in the
years since then. I worked on Jordan Creek Mining
in 1947 Staking S-Curve Mining Claims & others. They
were Amended to the Blue Gravel mining claim Group
in June 1956. More claims were added in 1976.
Some were amended in 1978 and more were
added in 1982.

RE: RECREATIONAL DREDGING PERMITS

Linda Andrus, wife of Larry Andrus, called to inquire if they needed two recreational dredging permits to comply with the above claims. I informed her they needed one for each operation (claim) because they were on two distinct and separate water sources. She was filing out one application when she called but needed a second form which I mailed to her this date. She indicated they would send the applications in very soon because they intended to use the equipment on Jordan Creek within the next several weeks and they are always concerned that they have the proper filings complete.

Linda Andrus informed me that she and Larry are not currently involved with the Meadow Creek (A5~~1~~-10257) operation but mainly Jordan Creek. She indicated that her father-in-law, Charles Andrus, with the help of Randy Buckley have been operating Meadow Creek in recent years.

I informed Linda that we could not approve the claims referenced above until we had approved recreational dredging permits on file. She said they understood and it is their intention to always be legal with their filings.

Dear Claimant(s):

We have received your Notice of Claim(s) and Check No. 8677 in the amount of \$6 in our Western Regional Office.

Please note that the deadline for filing claims in Owyhee County was 1-19-89, and that there is a \$50.00 late charge per claim filed in addition to the filing fee. The late fees are mandated by Idaho Code section 42-1409(b). The reason for the late fee is to give people incentive to complete their claims in a reasonable amount of time. The Department has made every effort to assist people with filling out their claims and to allow ample time for people to complete their filings. Therefore, we are returning your claim(s) and your check. In order to file the claim(s), the total filing fee plus the late fee must be submitted to our office within 30 days.

We are providing the opportunity for you to file a Request For an Extension of Time to avoid this late charge. Enclosed is a Request for Extension of Time form which will need to be completed and returned to our office within 30 days. If this extension request is granted, the \$50.00 late fee will be refunded to you.

If your use is for domestic or stockwater, please read the enclosed brochure entitled, "The Snake River Basin Water Right Adjudication, Domestic and Stockwater Use". This brochure explains the affect of the new ruling which allows deferral on filing certain domestic and stockwater rights.

Please contact this office if we can be of further assistance.

Sincerely,

Re: Claim No.'s A55-10257 & A55-10258

Dear Charles & Larry:

Recently, you submitted the above referenced claims in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claims for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when these claims were filed that the water rights were based on "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claims have not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority dates as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under these rights, if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. A field exam to verify other items of the above claims will be conducted this summer by Department personnel. A letter from a field agent will be mailed to you within the next few weeks to schedule an appointment for this exam.

Please submit the required evidence supporting the priority dates within two weeks so that these claims can be prepared for field examination and eventual court decree. If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

A handwritten signature in cursive script, appearing to read "Jan Shurte". The signature is written in dark ink and is positioned above the typed name and title.

RE: ANDRUS MINING CLAIMS

LARRY ANDRUS CALLED REGARDING THE DIVERSION RATE CLAIMED UNDER NO. A55-10258. HE THINKS THAT THEY SHOULD AMEND THIS CLAIM TO SHOW A GREATER DIVERSION RATE. HE SAID THAT THEY DIVERT FROM THE STREAM WITH A 2" PIPE BUT USE A 5 HP PUMP TO DIVERT FROM THE POND INTO THEIR EQUIPMENT AND THAT THEY NEED TO CLAIM ABOUT 10 TIMES THE AMOUNT PREVIOUSLY CLAIMED.

CAN YOU PLEASE CALL HIM ABOUT THIS AT 1-208-459-2984 EARLY NEXT WEEK AFTER 4:00 P.M. (HE DOESN'T GET HOME FROM WORK UNTIL 3:50 P.M.)

I PULLED THE FILES AND TRIED TO FIGURE OUT WHAT WAS GOING ON BUT HAD NO LUCK. HE WAS CALLING LONG DISTANCE FROM MARSING AND WANTED ME TO GIVE HIM AN ANSWER BUT I TOLD HIM I WOULD BE INSANE TO TRY TO READ THESE FILES AND FIGURE OUT WHAT WAS REQUIRED DURING A SHORT PHONE CALL...

HE ALSO STATED THAT THEY HAD NO USE IN SEC. 36...

Re: Amending claim A55-10258

Dear Mr Andrus:

I'm writing as a follow up to Linda Werner's letter dated April 10, 1995 (copy attached) concerning the possible amendment of claim A55-10258. We anticipate making our recommendations to the court in the near future for the claims covering the area for claim A55-10258. If you intend to amend the claim I need as soon as possible the executed amended claim form, additional fee and information requested in Linda's letter. At this time we can only base our recommendation on the claim as originally filed.

Sincerely,

A handwritten signature in cursive script that reads "Mel Schulte".

Dear Mr. Andrus;

I am writing in regard to our phone conversation of Friday, April 7, in which you stated that you would like to amend your mining claim numbered A55-10258, on Jordan creek, to increase the quantity. I have enclosed a copy of this claim. You can make the change under items 6 and 7, water usage and total quantity. Please initial and date each changed item. This claim will also need to be notarized.

Since you are increasing the quantity, the fee may also increase. This fee is \$100.00 per cfs. For instance, if you claim a total quantity of 0.34 cfs, the additional fee due would be \$28.00. \$56.00 has already been paid for this claim. \$50.00 is the flat rate and \$6.00 is the variable rate based on 0.06 cfs already claimed. So, \$34.00 (0.34 cfs) - \$6.00 (0.06 cfs) = \$28.00.

Also, please send me the following information:

1. HP of motor used
2. lift (from inflow point in creek to pump to outflow point)
3. type of hose or pipe (PVC, steel, etc.)
4. length of hose or pipe
5. diameter of hose or pipe

Please keep in mind that an increase of quantity on this claim indicates that this amount has been used since the priority date of 1946. If the new quantity represents an increase in flow from what has been historically used, you may want to apply for a water right to appropriate the additional amount, rather than filing a Notice of Claim to a Water Right.

If you have any questions, be sure to contact me.

Sincerely,

Linda A. Werner
