HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

SUBJECT: BASIN 55 WATER RIGHTS QUESTIONS (MORE FOLLOW-UP)

1. Wanted an application for a right to use a new well drilled at the Bonus Cove Ranch for additional stock water in 1996. This might be exempt, but wants a right recorded on it. (Sent application)
2. Wants to file in-stream-stock on a stream near Boulder Creek, he will send me a fax, then I can send him a draft claim with beginning and ending points.
3. I advised Joe that I am amending the Basin 55 rights preparing them for amendments to add stock as he requested. I advised him that these claims were temporary until he signed them, they are based upon what I had found in the field and different DOP dates maybe reflected based upon the affidavits we had, within these claims. Thus, if he was in question or disagreement with anything I put on these, he could cross out, write in, or whatever, he wanted to change or add then initial each change. He agreed.

New "E" Mail jparkinson@8x8.com

SUBJECT: Basin 55 Rights

1. Called asked if he got my packet and E mail message?
2. No, not yet and he gave me a new E mail address, shown above. He said he can still retrieve the other E mail, he doesn't use it as much.
3. I went over all of the questions I had on the E mail dated 6 Jan 1997. He ok'd the idea of amending all of the claims to show stockwater for year round use, with the exception of the Spring Creek license A55-02094. This will only show stockwater for the irrigation season, recommended under accomplished change in nature of use. (On the storage, I will check to see if the reservoir is shown as a POU, if not I may add that to his amended claim to sign, if on his land)
4. He also wanted to amend the Florence Spring to 1000 hd and file a beneficial use claim for in-stream stock for the spring creek lands that it flows through on his property.
5. I told Joe that I believe we have enough affidavits in the filed to make the changes, if not, I will contact him. He needs a copy of our affidavit form.
6. I explained on the basin 57 packet how we determine beginning and ending Points of diversion and I enclosed samples for him in the packet and to call me if he has any questions.
7. I also informed him that the well drilling permit had questioned me about had expired and he would need to file a new one when he was ready.

Joe,

This is the first time I've tried to send an E mail to you.

I hope you are still on line...

1. Follow-up from our conversation January 2, 1996.
I hope you have received the packett from me that has the instructions for filing late claims in basin 57.
2. I checked on the well drilling permit 57-94-w-0066-000 and sent you a copy, the bad news is that it has expired. You will need to submit a new one.
3. I have looked at the claims for basin 55 for Spring creek, Florence spring and Boulder creek.
 - a. I will need to send you an amended claim to show stock use for all claims, but Florence Spring, you did claim stock on it, however, you only showed 700 Hd. If you want to amend this let me know and I will send an amended copy of it for 1000 hd.
(A55-10346)
 - b. For claims A55-04020A (Boulder Creek) A55-04021 (Spring Creek Storage), A55-10234 (Groundwater) I'll send you an amended claim that shows all year round stockwater for you to sign and return.
 - c. For claim A55-02094 Live flow for Spring Creek, it is a license and I can send it also to add stockwater, however, it can only be for the irrigation season, diverted water, this would be an expansion if we put all year round on it.
 - c1. You could also file a new beneficial use claim for instream stock for Spring Creek for all year round use, but you may have enough, from the changes we are doing on the others, you let me know.

It looks like I have enough affidavits in the files to qualify these changes, if not I'll contact you.

SENT 1-3-97

SUBJECT:

1. Send maps for 57-11504 ✓ & 57-11506 ✓ for D&S claims, wants to verify where they are. Fax is ok.
2. Wants to file in-stream stock, all year round, for Spivey Ranch area, Castle Creek, send claim forms & late claim forms for court. May use any date after decree for DOP. I will look-up and send the date. I will send a map. ((Andrew said I could help fill-out the draft forms with the maps for the tracts, but not to make any decisions for him, such as the DOP))
3. Send computer printout of A55-02094 ✓ and 57-07584 ✓. Also, send a computer printout of permit 57-07570 ✓
4. Send copy of drilling permit 57:94:W:0066:000 ✓, this is for a replacement well where two wells are tied in together. Claim 57-10493, which is the same P/D as 57-10496. Check and see if the permit is still good, if not he may want to use the copy to re-new again later.
5. Talked about 57-07186 and 57-07222, a hearing for a stipulation to add stock to these rights. I looked up both, neither show stock. Also, talked about some public land being deleted from these rights, the NENW 4.2 acres and the NWNW 1.0 acres. Believes the total to be 348.
6. Checked on A55-04021, A55-10234 and A55-02094 the Florence Spring Area, they didn't have stock claimed, thus, he wants to file on stockwater for this area, send claim forms. ((Andrew said that it may just be easier to amend these claims under the accomplished change in nature of use, this would require an affidavit to show the date of change))*Jan said that for the beneficial use claims, they can just be amended, no affidavit, for the licence, if it says Domestic on the original, it can be amended also for all year round, if not it could be amended only for the irrigation season for stock, with a date of change affidavit*
7. Also, checked on Boulder Creek claim A55-04020, it didn't have stockwater on it either, please send claim form. ((Same as 7))
Same as comment on 6
8. He also wants to claim stockwater in the area claimed by 57-00093 ✓ for in-stream stock all year round, send claim form. I will send a map. ((Same as 2))

Re: Claim No(s): A55-04020A A55-10234
 A55-04021 A55-10346

Dear Joseph L. Parkinson,

Recently, you submitted the above referenced claims in the Snake River Basin Adjudication. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date". Your claims have not been confirmed by a previous filing with the Department of Water Resources since there is no-license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Therefore, before the Department can make a recommendation to the court for decree for these claims, evidence of the priority date claimed must be submitted. If we do not receive this requested information, these claims will surely be recommended for disallow due to lack of evidence supporting any priority date. I'm enclosing a brochure outlining types of evidence you may submit, and some affidavit examples of what should be on each form. Using this type format with each claim, will give the Department a clearer idea of your claimed priority date for us to consider recommending that date of priority to the court. In addition, if you write about land patent(s) or any other documents referring to your priority date in your affidavit, attach a copy of that document. This supporting evidence makes an affidavit more creditable.

A Field Exam to verify other items of the above claim(s) will be needed and scheduled as soon as possible after we receive the "Evidence of Priority" you are required to submit.

Enclosed is a computer generated print-out of the claims for your reference.

Please submit the required evidence supporting the priority dates by June 11, 1993, referencing all documents with the corresponding claim numbers. If you have any questions not covered by this letter, please contact myself or this office **ASAP**.

Sincerely,

Ron Howerton

Re: Bonus Cove Ranch/A57-11497

Dear Ron:

On information and belief, I provide this evidence that the proper date for use from the Florence Springs (A57-11497) be at least back to July 1, 1907, which is the same date as the dam on Spring Creek (A55-04021). These two uses are for the same ranch. The County records reflect a sale in 1926 by the Estate of Mike Rock, the notorious sheriff of Silver City in the 19th century. His patent and use obviously predated this date by many years. His earlier improvements on the property are discussed in Helen Nettleton's book, Owhyee Sketches.

Very truly yours,

Joe Parkinson

Dear Mr. Parkinson,

During normal review and filing of the Notice of Claim to a Water Right previously submitted during the Snake River Basin Adjudication it was necessary to change the claim identification number(s). Your claim is still in good standing with the Department, and the number change was needed due to our geographical and numerical filing procedures.

Enclosed is a computer generated copy of your new Notice of Claim(s). Please review for completeness and if you have any questions or problems, do not hesitate to contact me.

Re: Claim No(s): A57-11495
A57-11496
A57-11497

Dear Joseph, James and Annetta:

Recently, you submitted the above referenced claims in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claims for your reference only; this is **NOT** to be returned or refiled. You have indicated when this claim was filed that the water rights was based on "Beneficial Use" of the water. water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-outs. Your claims have not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under these rights, if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claims will need to be conducted as soon as possible after we receive the "Evidence of Priority" you submit.

Please submit the required evidence supporting the priority dates by September 11, 1992, referencing all documents with the corresponding claim numbers. If you have any questions not covered by this letter, please contact myself or this office **ASAP**.

Sincerely,

Ron Howerton
