ATTACHMENT 1. REASONS FOR AMENDING NOTICE OF CLAIM

1. The original Notice of Claim was prepared by Eva Johnston, the Randalls' predecessor in interest, with the assistance and consultation of IDWR. Mrs. Johnston failed to claim all lands to which this water right is appurtenant by the Decree issued in Davey v. Brown (the "Castle Creek Decree," (copy attached)) dated May 15, 1923. This water right is identified at page 7 of the Castle Creek Decree under the name of the Johnstons' predecessor, Joseph W. Hardimen, by the priority date 1870 for 25 miners inches. The Decree makes this water right, together with the four others listed at page 7, appurtenant to the lands owned by Joseph Hardimen as generally identified by five quarter sections in Section 21 of Township 5 South, Range 1 East, Boise Meridian. A more precise legal description and quantification of acreage is not described in the Decree. However, the Decree allocates the waters of Castle Creek to each party, including Joseph Hardimen:

in the amount, priorities and for the lands, hereinafter set forth, for the irrigation of the lands owned by them respectively at the date [of the Decree], and for domestic use and for live stock according to the date of priority on which the said waters were first diverted and used upon said lands and in the quantity so diverted as hereinafter specifically set forth.

As of the date of the decree, Joseph Hardimen owned 200 acres within the lands identified in the decree. These lands were subsequently transferred to Mrs. Johnston, who transferred these lands to the Randalls in 1996 (see attached deeds). Pursuant to the SRBA District Court's decisions relating to partial forfeiture and reductions of decreed water rights based on IDWR's beneficial use determinations, currently before the Idaho Supreme Court, this water right is not subject to partial forfeiture or reduction, and should be confirmed in this proceeding as decreed in the Castle Creek Decree.

2. The Notice of Claim filed by Eva Johnston for this water right claims only 16 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, and only 28 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 21, Township 5 South, Range 1 East, B.M. The Directors' Report recommends only 13 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, and only 22 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 21, Township 5 South, Range 1 East, B.M. As discussed above, the License entitles the Randalls to apply this water right to irrigate all the land identified in the License (i.e. 67 acres) within these quarter sections. Attached hereto is a letter written by Bob Collett, who leases the Randalls' land within these quarter sections. Mr. Collett identifies 20 acres, more or less, within these quarter sections (Mr. Collett circled this area on the map attached to his letter), all or part of which were not claimed in Mrs. Johnston's Notices of claims, and not recommended by IDWR. Mr. Collett's letter establishes that this water right has been beneficially used on these acres, and that this water right should be confirmed to include irrigation of these acres within the place of use.

To whom it may concern:

I have farmed the place on Carthage Creek now owned by Mike and Char Randall for over 40 years.

Several different years I have flooded water on the piece of ground that seems to be in dispute the brushland just east of the house.

I have also cleared that land and irrigated it before. The last time I flooded water on it to help raise a little cow feed was 1995.

It is land that takes quite a little time and patience to farm and with the past owner was not to economically feasible.

The new owners and I do plan to establish it in crops again.

ATTACHMENT 1. REASONS FOR AMENDING NOTICE OF CLAIM

1. The original Notice of Claim was prepared by Eva Johnston, the Randalls' predecessor in interest, with the assistance and consultation of IDWR. Mrs. Johnston failed to claim all lands to which this water right is appurtenant by the Decree issued in Davey v. Brown (the "Castle Creek Decree," (copy attached)) dated May 15, 1923. This water right is identified at page 7 of the Castle Creek Decree under the name of the Johnstons' predecessor, Joseph W. Hardimen, by the priority date 1870 for 25 miners inches. The Decree makes this water right, together with the four others listed at page 7, appurtenant to the lands owned by Joseph Hardimen as generally identified by five quarter sections in Section 21 of Township 5 South, Range 1 East, Boise Meridian. A more precise legal description and quantification of acreage is not described in the Decree. However, the Decree allocates the waters of Castle Creek to each party, including Joseph Hardimen:

in the amount, priorities and for the lands, hereinafter set forth, for the irrigation of the lands owned by them respectively at the date [of the Decree], and for domestic use and for live stock according to the date of priority on which the said waters were first diverted and used upon said lands and in the quantity so diverted as hereinafter specifically set forth.

As of the date of the decree, Joseph Hardimen owned 200 acres within the lands identified in the decree. These lands were subsequently transferred to Mrs. Johnston, who transferred these lands to the Randalls in 1996 (see attached deeds). Pursuant to the SRBA District Court's decisions relating to partial forfeiture and reductions of decreed water rights based on IDWR's beneficial use determinations, currently before the Idaho Supreme Court, this water right is not subject to partial forfeiture or reduction, and should be confirmed in this proceeding as decreed in the Castle Creek Decree.

2. The Notice of Claim filed by Eva Johnston for this water right claims only 16 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, and only 28 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 21, Township 5 South, Range 1 East, B.M. The Directors' Report recommends only 13 acres in the NE $\frac{1}{4}$ NW $\frac{1}{4}$, and only 22 acres in the SE $\frac{1}{4}$ NW $\frac{1}{4}$ Section 21, Township 5 South, Range 1 East, B.M. As discussed above, the License entitles the Randalls to apply this water right to irrigate all the land identified in the License (i.e. 67 acres) within these quarter sections. Attached hereto is a letter written by Bob Collett, who leases the Randalls' land within these quarter sections. Mr. Collett identifies 20 acres, more or less, within these quarter sections (Mr. Collett circled this area on the map attached to his letter), all or part of which were not claimed in Mrs. Johnston's Notices of claims, and not recommended by IDWR. Mr. Collett's letter establishes that this water right has been beneficially used on these acres, and that this water right should be confirmed to include irrigation of these acres within the place of use.

The several parties to this action whose rights

JUN 1 9/28 The use of the waters of said streams are of even date, are entitled, whenever the amount of water flowing in the channel of said streams is insufficient in quantity to sup-

To whom it may concern,

I have farmed the place on Castle Creek, now owned by Mike and Chari Randall for over 40 years.

Several different years I have flooded water on the piece of ground that seems to be in dispute. The brushland just east of the house.

I have also cleared that land and irrigated it before. The last time I flooded water on it to help raise a little cow feed was 1995.

It is land that takes quite a little time and patience to farm and with the past owner was not to economically feasible.

The new owners and I do plan to establish it in crops again.

MEMORANDUM

To: Lynne Krogh
From: Roxanne McCarthy
Re: Castle Creek decree expansions
Date: March 28, 1996

The Castle Creek decree does not contain the number of acres actually irrigated by each party. As with many of the old decrees, the only description of the lands is by 40-acre tract. The duty of water is not specifically addressed, although on page 12 of the original document it does say, "...the average amount of water required each year for the irrigation of the lands...is one inch of water to the acre."

Given the above information, many of the Castle Creek claims were recommended with Condition C01, referring to §42-1416(1).

I am currently reviewing objections to rights in that area and have come across one that may be easily settled. The original recommendation included 4 acres of BLM ground for a total of 91 acres, served by 85" of decreed water from Castle Creek. The parties have agreed to the removal of the 4 acres from the recommendation, leaving 87 acres within the description given in the decree.

Can I assume that expansion is no longer an issue, given that 1" to the acre was merely considered "average" and all of the recommended acres are now within the 40 acre legal description given in the decree?

Dave Shaw has asked me to correspond with the new owner of this property in regards to the objection; I'd like an answer ASAP. Thanks!

*assuming we have no info
to indicate that 87 acres
were not the original acres,
YES.*

Dear Ms. Delaney,

Enclosed is the completed Standard Form 3 you sent us last week. I do have some questions regarding this matter.

Eva M Johnston the previous owner stated that she had been to the BLM office regarding the disputed 4 Acres and then she followed their instructions and went back to the Water Resources office in Boise, Idaho, Orchard Street site, and had the 4 acres in question removed from her water right. She believed an attorney was present at the Orchard Street address when this was done. Her understanding was that per that agreement, the dispute was settled on her water rights.

Can you please verify the above information or forward to the appropriate party as I would like to know just what this status is regarding this matter.

Thank you very much for your help. Being a new property owner in this area we are pretty much overwhelmed by all of this adjudication information and requirements. We don't want to neglect anything pertaining to the protection of these water rights. Thanks again.

Sincerely,

Dear Mr. and Mrs. Randall:

The court was recently notified that you purchased property from Mrs. Eva M. Johnston. The water rights appurtenant to that property are: 57-00084, 57-00101, 57-00111, 57-00133, 57-00146 and 57-02210A.

These water rights are currently being contested before the District Court in the Snake River Basin Adjudication. In order to substitute your names in place of Eva M. Johnston as claimants to these water rights, please complete pages 3-6 of the enclosed *Standard Form 3 Consent to Substitution of Party*. Because I have attached a copy of the letter the court received from Ms. Eva M. Johnston, you will not be required to obtain her signature on the Standard Form 3.

If you have questions about this Standard Form or about the status of these water rights, please give me a call at the Snake River Basin Adjudication District Court at 208-736-3011.

IDWR is informed and therefore believes that the parties have resolved the matters raised by the objection. The United States asserts ownership of four acres in the claimant's place of use and the claimant has agreed. In recognition of this agreement a revised description of the water right, deleting the four acres and including appropriate reductions in the amount of water (based on the reduced acreage), is attached to this response. IDWR denies the objection and all allegations of the objection not expressly admitted herein.
