Important Information About Your Water Right

October 25, 2002

RECEIVED

OCT 28 2002

Joseph L. Parkinson
356 Selby Lane
Atherton, CA 94027

Department of Water Resources

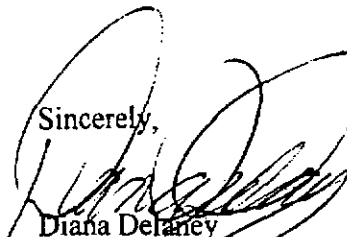

Dear Water Right Claimant(s):

Attached to this letter is a copy of an **Order Amending Irrigation Period of Use Element in Partial Decree, Nunc Pro Tunc** (hereinafter "**Order**") for water right number 57-166. According to Idaho Department of Water Resources (IDWR) records, you are the current owner of this water right. If you are not the current owner, please contact IDWR immediately at:

Idaho Department of Water Resources
1301 North Orchard
Boise, ID 83706
800-451-4129

The purpose of the **Order** is to set forth beginning and ending dates for the irrigation period of use for this water right. As stated in the face of the **Order**, this action was necessary following the decision of the Idaho Supreme Court in *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998). This **Order** also incorporates into the **Partial Decree** an express statement that the **Partial Decree** is subject to such general provisions necessary for the definition or for the efficient administration of the water right. This express statement is necessary to comply with the requirements of Idaho Code section 42-1412(6). September 9, 1997, sets forth all of the elements of your water right. The Snake River Basin Adjudication (SRBA) Court suggests that you keep this document in a safe location together with a copy of the **Partial Decree** to show evidence of this water right. The original of this **Order** and the original of the **Partial Decree** for this water right are on file with SRBA Court. If you do not have a copy of the original **Partial Decree**, one can be obtained by contacting the SRBA Court at (208) 736-3011. Please note that the **Order** is entered **Nunc Pro Tunc**, meaning that the **Order** will be treated as if it were issued on the same date that the **Partial Decree** was originally issued.

Sincerely,

Diana Delaney

	)	EXPRESS STATEMENT REGARDING GENERAL
	)	PROVISIONS, <i>NUNC PRO TUNC</i>

A *Partial Decree* was entered for the above-captioned irrigation water right on September 9, 1997. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, on July 26, 1999, IDWR filed a *Supplemental Director's Report, Reporting Area 2, IDWR Basin 57, Regarding Revision of Period of Use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this *Supplemental Director's Report*.

THEREFORE, IT IS ORDERED that the period of use element for the irrigation portion of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 04-01 to 10-15

The use of water for irrigation under this right may begin as early as March 15 and may continue to as late as November 15, provided other elements of the right are not exceeded. The use of water before April 1 and after October 15 under this remark is subordinate to all water rights having no subordinated early or late irrigation use and a priority date earlier than the date a partial decree is entered for this right.

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

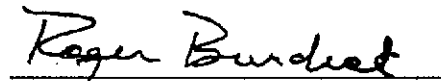

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

A notice of claim was filed for this water right pursuant to I.C. § 42-1409(1990) by Joseph L Parkinson. The director of the State of Idaho Department of Water Resources examined the water system for areas 1, 2, and 3 and investigated and abstracted the notices of claims for those Reporting Areas. The Director of the Idaho Department of Water Resources then filed a *Director's Report* which asserted how the elements of this water right should be decreed by the court.

An objection to the *Director's Report* for water right was filed on February 26, 1993, by the United States Bureau of Land Management (BLM) an objection was also filed by Joseph L Parkinson. Subsequently, a settlement was reached as to how the elements of this water right could be decreed, and on January 6, 1996, the parties, filed a *Standard Form 5* in subcase 57-00166. IT IS THEREFORE RECOMMENDED that subcase 57-00166 be decreed as recommended in the attached *Preliminary Special Master's Report and Recommendation for Partial Decree*.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

A notice of claim was filed for this water right pursuant to I.C. § 42-1409 (1990) by Joseph L. Parkinson. The director of the State of Idaho Department of Water Resources examined the water system for areas 1, 2, and 3 and investigated and abstracted the notices of claims for those Reporting Areas. The Director of the Idaho Department of Water Resources then filed a *Director's Report* which asserted how the elements of this water right should be decreed by the court.

An objection to the *Director's Report* for water right 57-00166 was filed by the claimant and United States (BLM). Subsequently, a *Standard Form 5* was filed as to how the elements of this water right should be decreed. The *Standard Form 5* was accepted by the court.

A *Preliminary Special Master's Report and Recommendation* for this right was issued. No motion to alter or amend was filed and the time for filing such motions has now expired; therefore,

IT IS THEREFORE RECOMMENDED that subcase 57-00166 be decreed as recommended in the attached *Special Master's Report and Recommendation for Partial Decree*.

**MOTION TO AMEND
NOTICE OF CLAIM

MICROFILMED
JUL 20 1994

I request the Court to amend the Notice of Claim and Recommended Water Rights in the Directors Report in related case numbers 57-00166, 57-00167, 57-00168, 57-00169, 57-00170 and 57-00171 to reflect the following errors discovered in the course of examination:

1. Delete T06S R01W S12 SWSW 8.0 acres as being on public land.
2. Change the legal description for "Place of Use: Irrigation" from T06S R01W S14 SWNE 6 acres to T06S R01W S14 SENE 6 acres. This corrects an error on the map we used with IDWR. (See maps attached to my Response to Objection.)
3. Change the legal description for "Place or Use: Stockwater" from T06S R01W S14 SWNE to T06S R01W S14 SENE. This corrects the same error as described in prior paragraph.
4. Add Point of Diversion: T06S R01W S14 SENE. This picks up a P/D shown on IDWR map but inadvertently omitted. (See maps attached to my Response to Objection.)

5. Change total acres from 110 to 102 to reflect the deletion in paragraph 1 (paragraph 2 and 3 result in no net change) in Place of Use: Irrigation and Remarks.

6. Reduce the Directors Report Total Combined Annual Consumptive Volume and Records from 275 AF to 255 AF to reflect reduced acreage.

7. Delete James W. and Annetta J. Garrett as owners, since I bought out their 1/2 interest.

If any fee is involved in amending, I will pay it.

Respectfully submitted

REASONS SUPPORTING EACH BOX CHECKED

In the space following, you must state the reason(s), by number, for each box checked. You may use additional pages if necessary. 1. S12, SMSW, 8 acres, is not owned by Parkinson and should be deleted from Place of Use for Irrigation and stockwater. 2. The S14, SWNE quadrant was inadvertently marked incorrectly on Dept. of Water Resources maps of actual irrigation use, and a reexamination is S14, SENE for Place of Use for Irrigation and stockwater. This can be verified by calling Ron Howerton of Water Resources (phone 208-334-2190). 3. The Point of Diversion is on BLM but this is historically how it has been used. Also, the Dept. of Water Resource maps show another Point of Diversion at S14, SENE. 4. Places of Use as amended are deduced to me. Joseph L. Parkinson purchased the interest of James W. and Pamela J. Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary. 1. Add a Place of Diversion in T06S, R01W, S14, SENE. 2. Delete on Place of Use: Irrigation T06S, R01W, S12, SMSW, 8.0 acres. 3. Delete on Place of Use: stockwater T06S, R01W, S12, SMSW. 4. Change Place of Use: Irrigation T06S, R01W, S14, SENE 6.0 acres. 5. Change Place of Use: Stockwater T06S, R01W, S14, SENE to Place of Use: Irrigation T06S, R01W, S14, SENE 6.0 acres. 6. Change ownership to show sole owner is Joseph L. Parkinson. Please note that you should attach copies of documents which support your response. Note on each document the "box number" it supports.

☒ Check here if you are submitting documents. Please list each document by the title and number of pages. You may use additional pages if necessary: 1. "Title Map" showing property owned by Joseph L. Parkinson according to title insured by Owyhee Title (1 page). 2. "Irrigation Use Map": Incorporated by reference are the color maps in the file on this water right at the Department of Water Resources prepared by Ron Howerton based on his field examination. Attached are xerox copies (2 pages) of the maps. 3. Affidavit of Stan Smith of Owyhee Title (2 pages).

CHANGES TO THE DIRECTOR'S REPORT

In the space following, you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

The United States of America, acting through the Bureau of Land Management, objects to this water right recommendation because the claimant is a private individual claiming a water right on public domain lands. The BLM, on behalf of the United States, has managed and controlled this property for the beneficial use of the American public. The claimant has no property interest in the claimed water right or any other water right appurtenant to federally owned lands. The United States objects to all aspects of the right because of these facts, including the recommended name and address, source, quantity, priority date, points of diversion, purpose of use, period of use, place of use, and consumptive use. BLM also objects to the recommendation in its entirety because claimant has not been the exclusive beneficial user of this water given that other members of the public have had access to this land and water source.

REASONS SUPPORTING EACH BOX CHECKED

12. ☒ Water Right Recommendation: I object to:
 - a. ☒ this water right being recommended at all; or
 - b. ☐ this water right not being recommended.
13. ☐ Description of Reservation: I object to the legal description of the reservation.

Dear Joseph Parkinson,

This letter is being written in response to the rights we looked at together on September 11, 1992 and response from the signing of Amended Claims in Western's Regional office September 18, 1992.

All of the above was in response from the notice of error received August 19, 1992.

The Departments standard seasons of use and volume amounts have been recommended for all the rights above with the exception of the prior Castle Creek decreed rights, that were decreed with a season of use of 4-1 to 10-15 in 1923 when the decree was finalized. The Department cannot recommend a longer season than what was previously decreed.

Copies of amended claims are enclosed that you filed Notice of Error on, reflect the Season of Use dates you requested, not the departments in most cases, this was done per your request in order to preserve your right to object to the Departments recommended standards, or to the total volume in which was also left off these amended claims for the same reason. New information that you gave that was not originally provided at the time of original field exams, either reduced or increased the acreage slightly, added or corrected points of diversion and most stockwater amounts that were not claimed by the original owner, in most cases were amended to show those amounts on the claims that you requested in the Notice of Error, received August 19, 1992.

Other claims such as 57-00076, 57-00138, 57-00226, 57-00227, 57-02027 and 57-04101 were recommended for disallowance because senior water rights cover these uses and are in excess and are therefore termed as no-beneficial use.

Claims 57-00229, 57-02156 and 57-02162 were not recommended, because these old rights were abandoned, with much overgrowth of sagebrush on the place of use.

NOTICE
Error Ltr
in 57 00046A

You may file an objection with the court for either season of use or volume amounts of the rights you filed a notice of error on with evidence as to why you feel a longer season of use is needed etc. The objection procedure will be explained completely when you receive copies of your water rights submitted to the court on October 1, 1992. This notification will be mailed at the same time the report is given to the court.

I look forward to completing all future claims with your input for Basin 55. If you have any questions concerning this letter and/or would like to look over or make copies any of the items we had previously amended, please feel free to contact me.

Sincerely,

Ron Howerton
