HC 79, Box 2065

Dear Dennis & Shirley:

This letter is being written in response to the Notice of Error filed September 1, 1992, on the above referenced water rights. This notice of error was on the proposed season of use for these rights.

As explained while you were in my office, the seasons of use for these rights will not be changed prior to submittal to the court on October 1, 1992. The Department's standard season of use for this area is 3-15 to 11-15 for other than Castle Creek previously decreed rights. Castle Creek previously decreed rights were decreed a season of use of 4-1 to 10-15 in 1923 when the decree was finalized, and the Department cannot recommend a longer season of use than what was previously decreed. Therefore, the season of use for these water rights will not be recommended for a longer season of use.

You can file an objection with the court once these rights are entered and submit evidence as to why you feel a longer season of use is needed. The objection procedure will be explained completely when you receive copies of your water rights submitted to the court on October 1, 1992. This notification will be mailed at the same time the report is given to the court. If you have any questions concerning this letter, please feel free to contact me.

Sincerely,

JAN SHURTE

S is loss in cfs per mile

W is the top width of the high water mark in feet

i is the loss rate in feet per day (see Table)

0.0667 is a factor used to convert to cfs per mile

Table:

Type of soil	Loss rate i (ft/day)
medium clay loam	0.5 to 1.5
impervious clay	0.5
medium soils	1.0
somewhat pervious soils	1.5 to 2.0
gravel	2.5 to 5.0
