REMARKS:

The recommended diversion point has been used since 1986. The previous diversion was located in Section 18, SE 1/4. This is an ongoing stream change on a long stream. No other appropriators are nearby so it is presumed there is no injury.

ESTIMATING CONVEYANCE LOSS

Formula: $S = (W)(i)(0.0667)$ where: S is loss in cfs per mile
 W is the top width of the high water mark in feet
 i is the loss rate in feet per day (see Table)
 0.0667 is a factor used to convert to cfs per mile

Type of soil	Loss rate i (ft/day)
medium clay loam	0.5 to 1.5
impervious clay	0.5
medium soils	1.0
somewhat pervious soils	1.5 to 2.0
gravel	2.5 to 5.0

Worksheet: $S = (\underline{3'} \text{ ft}) (\underline{2} \text{ ft/day}) (0.0667)$
 $S = \underline{0.40} \text{ cfs/mi}$
Conveyance loss = $(S)(\text{length of ditch in miles})$
Conveyance loss = $(\underline{0.40} \text{ cfs/mi}) (\underline{1.02} \text{ mi})$
Conveyance loss = $\underline{0.41} \text{ cfs}$

length of ditch = 1.02 mi.
 $W = 30'$
 $i = 2.0$

9/5/90-NOTES FROM HELEN BACHMAN FIELD EXAM.

THIS EXAM WAS CONDUCTED ON 9/4/90 BY ROXANNE MCCARTHY AND LINDA WERNER. WE WERE ACCOMPANIED BY LARRY BACHMAN AND ROBERT HINES. THE EXAM STARTED AT 10:00 AM AND WE FOLLOWED BACHMAN OUT TO THE SITE.

THERE IS AN OLD HOMESTEAD THERE (OR WHAT REMAINS OF AN OLD STONE HOUSE) BUT NO WATER IS SUPPLIED DOMESTICALLY FROM HARTS CREEK. THERE IS A CORRAL THERE AND EVIDENCE OF STOCK. WE ALSO SAW APPROXIMATELY 10 HORSES. MR. BACHMAN SAID HE HAS HAD UP TO 200 HEAD THERE BUT NOT RECENTLY. HE THOUGHT THAT THE DOMESTIC USE HELEN BACHMAN REFERRED TO IN HER ADJUDICATION CLAIM WAS REFERRING TO A HAND DUG WELL.

IT HAS BEEN 3 YEARS SINCE BACHMAN IRRIGATED FROM THE CREEK. HE HAS GONE IN WITH A BACKHOE AND CAT AND IMPROVED THE DITCHES. THE DITCHES RUN ALONG THE NORTHERN PERIMETER OF THE PROPERTY UP TO AND ALONG THE HILL. THE WATER THEN RUNS DOWN THE DRAINAGE TOWARD THE HOMESTEAD. THE DIVERSION CONSISTS OF ROCK, BRUSH AND TIRE DAM; HEADGATE AND GRAVITY FLOW DITCH. THE DIVERSION USED HAS BEEN THERE FOR 4 YEARS.

IT IS OUR OBSERVATION THAT THE DITCH HAS THE CAPACITY TO CARRY WATER EQUIVALENT TO AN INCH PER ACRE AND MORE. ON HER CLAIM, HOWEVER, SHE IS FILING FOR 3.9 CFS (AS DECREED) FOR 34 ACRES. AN EXCESSIVE IRRIGATION FORM AND FURTHER CLAIMANT CONTACT IS REQUIRED.

→ Excessive irr. form will be necessary if claimant can show proof of usage. L.R.W. 5-16-91

As stated by L. Bachman during exam. L.R.W. 5-16-91

CONVERSATION MEMORANDUM

DATE 10/22/91FILE A57-00071
Helen J. BachmanNAME OF PARTY Larry BachmanEMPLOYEE Linda WarnerRE: Excessive Flow

Mr. Bachman was in today to discuss the excessive flow form I had sent to Helen. ^{His mother.} He said he would not be able to complete this form as he has no way of obtaining the data. He felt that the additional flow resulting from conveyance loss calculations would be sufficient.

He said he would discuss this w/mom to be sure there were no issues. He felt she would agree since she no longer takes an interest in the property - allowing him to oversee the property.

RE: NOTICE OF CLAIM NO[S]: A57-00071

Dear Claimant;

We are currently in the process of preparing the above referenced Notice(s) of Claim for court decree in the Snake River Basin Adjudication. During this review certain questions arose concerning the claim listed above.

This right was claimed with a duty of water of more than one inch to the acre. Idaho law states that the normal duty of water in Idaho be limited to one inch of water per acre, unless it can be shown that more water is necessary. In order to determine if more water is necessary, the enclosed Irrigation Flow Rate Questionnaire must be completed. If we do not receive this form by the response date indicated above, we will assume you agree with the inch per acre rule and this right will be recommended per this standard.

If you have any questions, or need help in any way, please contact me at 334-2190.

Sincerely,

Linda A. Werner
Sr. Water Resource Agent

(Helen Bachman)NAME OF PARTY Larry BachmanEMPLOYEE Linda WarnerRE: Conveyance loss & excessive flow

Called to discuss w/ him excessive flow needs for his land. He said his mother filed the claim that way simply because of the way it was decreed. He did say that it takes more water to irr. than 1"/day. Even using conveyance loss. We discussed the conveyance loss & the soil types in his ditch. He mentioned the soil types in the ditch are variable & range from gravelly in some areas to some clay on the lower end. Based on this info. the factor I will use for soil types in my conveyance loss will be "2.8" - the high range for somewhat porous soils. (See conveyance loss form). He does want me to send him the excessive flow form.

LETTER OF AFFIDAVIT

I, LARRY BACHMAN, DO HEREBY AFFIRM THAT MY MOTHER'S (JOAN BACHMAN) PROPERTY NOW AND IN THE PAST HAS BEEN IRRIGATED BY MYSELF, MY PARENTS AND BY THE OWNERS BEFORE THEM SINCE THE PROPERTY WAS HOMESTEADED.

THE METHOD OF IRRIGATION HAS BEEN TO SIMPLY RUN WATER DOWN THE EXISTING DITCH AND TURN IT OUT. THIS WAS DONE TO PUT WATER ON THE NATIVE FEED FOR STOCK COW FEED.

THIS PRACTICE HAS BEEN DONE THROUGH THE YEARS, HOWEVER THIS HAS BEEN GREATLY HAMPERED BY THE FACT THAT SO MANY YEARS THEY DIDN'T GET OVERLY PROGRESSIVE.

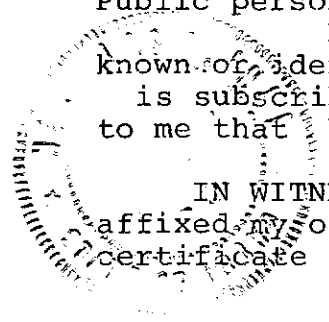

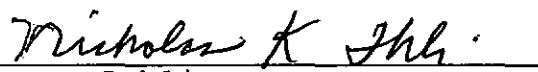

AT THIS TIME I'M WORKING ON A PROGRAM TO IMPROVE THIS PRACTICE TO PROMOTE BETTER FEED AND INCREASE MY CARRYING CAPACITY.

DATED THIS 30th DAY OF MAY, 1991.

RE:

Floodwater right = Must irrigate w/ water
when its available.

Called in sw to my letter to Helen Bachman, mother, dated 5-16-91. He asked what he needed to do about the acreages recommended for decollor. I advised him that he needs to show proof substantiating irrigation. A signed, notarized affidavit from someone knowing of the irr. Also advised him to be sure & read the IDWR info sheet for more ideas as to what is acceptable proof. He said I explained that our O.P. & Napp maps did not show irr. He said he had gone to the ASCS office to look at their latest flight maps & was disappointed they did not show irr. He said his type of irrigation practice may be the reason for that. I advised him to explain his irr. practice thoroughly in his protest.

I also advised him that if he proves his been irr., we will still pursue a reduction in flow. He agreed the flow was excessive & stated this is basically a floodwater right & they have to irr. when water is available. I also advised him to respond timely to the above mentioned letter.

RESPONSE DATE: May ³¹ 20, 1991

RE: NOTICE OF CLAIM NO: A57-00071

Dear Mrs. Bachman:

We are currently in the process of preparing the above referenced Notice of Claim for court decree in the Snake River Basin Adjudication. During this review certain questions arose concerning the claims listed above. All claims with an A57 prefix number are being reviewed at this time. If you have other claims with this prefix, that are not shown here, we may be contacting you again if questions should arise during their review. Also, if you filed other claims with yet a different prefix for the claim number, such as A02, A51 or A55, please be advised that these claims will be reviewed at a later date. The following claims require the information or changes listed:

Our initial investigation of this claim indicates that the following portion of the water right: (Irrigation of 34 acres) was not used during the following period: March 1979-August 1987.

Under Idaho law, a portion of a water right may be forfeited by five years continuous nonuse of the right. The use of water may be resumed under certain conditions. However, resumption of use after forfeiture may sometimes result in a change in the priority of the water right to the date of resumption.

Before we can recommend the irrigation portion of claim listed above, you must submit one of two types of evidence. First, you may submit evidence showing use of the water during the period stated above. (This evidence should show use frequent enough to leave no five year period of nonuse.) Second, you may provide us with the date you resumed using the water and submit some evidence tending to support that date.

Your response must be received in our office by the response date shown above. If no response is received, then the portion listed above will not be recommended to be decreed. Your Notice of Claim will be recommended for in-stream stockwatering usage with the priority date and place of use indicated on your Claim.

Address

RE: Claims filed in the Snake River Basin Adjudication

Dear

The Department of Water Resources will soon be conducting beneficial use and water right claim verification examinations in your area. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used and legal description of the point of diversion, and/or place of use. In some cases we may need documentation verifying the date of priority as claimed in the Snake River Basin Adjudication.

In order to expedite these field examinations, we request that you call our office at (208) 334-2190 and establish an appointment. Although it is not mandatory that you accompany the field examiner, it would be helpful for you or someone who knows the details of your water right go with the examiner should questions arise during the exam. It may also be necessary for the system to be operated normally at the time of the exam.

Please advise me within seven days of the date of this letter as to the best time for us to perform this exam.

Sincerely,

Linda A. Werner
Sr. Water Resource Agent
