DEPARTMENT OF RECLAMATION

STATE OF IDAHO

IN RE APPLICATION FOR TRANSFER
J. F. CAROTHERS, CASE NO. 88
WATER DISTRICT 14-B

ORDER

WHEREAS, under date of April 22, 1921, there was received in the Department of Reclamation, the application of J. F. Carothers for a transfer of 1.2 cubic feet per second of water from Brown's Creek, 0.4 cubic feet per second thereof being from the decree of Judge Chas. F. McCarthy of the Third Judicial District of the State of Idaho in and for Owyhee County, bearing priority date of October 1, 1901, and 0.8 cubic feet per second from the said decree bearing priority date of April 11, 1904, the said decree having been mailed down under date of October 7, 1915, the said application for transfer praying that the foregoing quantity of water, to-wit: 1.2 cubic feet per second, be transferred from the following described lands: NW 1/4 SW 1/4, Sec. 27, T. 5 S., R. 1 W., B. E., to the following described lands: SW 1/4 Sec. 1, NW 1/4 NW 1/4, NW 1/4 Sec. 12, T. 5 S., R. 1 W., B. E. and;

WHEREAS, upon a consideration of the said application, the same is found to be improper form, and accordingly, pursuant to the provisions of law and the orders and instructions from this Department, a public hearing was held at Boise, Idaho, May 16, 1921, at the hour of 10 A. M. Mountain Time, at which all persons were given an opportunity to present anything they may have bearing upon the said petition, the official publication of notice of such hearing being on file in the Department of Reclamation, and;

WHEREAS, upon a consideration of all the available data bearing upon the said application, together with the facts adduced at the hearing and particularly the showing made by the protestant in the said case, the following state of facts were found to exist:

1. That the protest against the granting of the said application is based upon the grounds that in the event of the granting of the said transfer, the protestant would be denied and deprived of the use of such portions of the water sought to be transferred as does under present existing conditions find its way back into the stream and thus becomes available for the use of the protestant.
2. That the protestant's position is not tenable owing to the fact that when stream flow is depleted to the extent where protestant could enjoy the use of said return flow if any there be, senior rights in and to the use of the water of said stream are, according to court decrees and orders entitled to the entire stream flow, thus protestant under such conditions obtains no benefit therefrom.
3. That no one will be injured by the granting of the said transfer.

NOW, THEREFORE, it is hereby ordered that a certificate of transfer in proper form be executed and delivered to the said applicant, J. F. Carothers.

IN WITNESS WHEREOF, I have hereunto set my hand and affixed the seal of this Department, at Boise, Idaho, this 16th day of May, 1921.

Commissioner of Reclamation.

Dear Dennis & Shirley:

This letter is being written in response to the Notice of Error filed September 1, 1992, on the above referenced water rights. This notice of error was on the proposed season of use for these rights.

As explained while you were in my office, the seasons of use for these rights will not be changed prior to submittal to the court on October 1, 1992. The Department's standard season of use for this area is 3-15 to 11-15 for other than Castle Creek previously decreed rights. Castle Creek previously decreed rights were decreed a season of use of 4-1 to 10-15 in 1923 when the decree was finalized, and the Department cannot recommend a longer season of use than what was previously decreed. Therefore, the season of use for these water rights will not be recommended for a longer season of use.

You can file an objection with the court once these rights are entered and submit evidence as to why you feel a longer season of use is needed. The objection procedure will be explained completely when you receive copies of your water rights submitted to the court on October 1, 1992. This notification will be mailed at the same time the report is given to the court. If you have any questions concerning this letter, please feel free to contact me.

Sincerely,

JAN SHURTE

E01 - The 13.16 cfs div. rate limiter was derived from the .035 cfs/acre allowed for the 46 acres under Catherine Ch. for a total of 1.61 cfs plus the remaining 46 acres under Brown's Ch. at .03 cfs = 4.38 cfs + 1.61 cfs = 5.99 cfs - added in the ditch box for all 3 sources overlapping - Harts Ch., Brown's Ch. & Catherine Ch. = 7.17 cfs + 5.99 cfs = 13.16 cfs total. See attached overlap analysis sheet for exact acres & figures. All Brown's Creek rights are diverted thru 1 pt. of diversion.
