CLAIM NO. _____

Irrigation Rights

Cox, Gladys &
Geraldine

NO domestic use of irrigation water (decree includes domestic).

Stockwater use not claimed from decreed surface water rights
but stock use occurs wherever irrigation occurs.

[ADD TO REMARKS IN CUR]

CASTLE CREEK Gravity Irrigation:

P/D #1: Checkdam (tires for temp. chdam) $\frac{1}{2}$ 18" (2) culvert to
earth ditch. Irrigates land West of Castle Ck. $\frac{1}{2}$ east of Catherine Creek.
Note several acres irrigated S. of Hwy 78 in S. 26 NWNE on both sides
of ditch. The land between ditch & Catherine Ck. in " " also receives
Catherine Ck. water via pipe from Catherine Ck. ditch.

P/D #2: checkdam (tires used) $\frac{1}{2}$ 36" culvert to earth ditch. Ditch
shared with Warren Taylor. Irrigates land east of Castle Ck.

CATHERINE CREEK Gravity Irrigation:

P/D #1: mpid Cath. Ck. diversion

Checkdam (tires used) $\frac{1}{2}$ earth ditch. Water has been piped to
small field between Cath. Ck. & Castle Ck. P/D #1 ditch. Also irrigates
area in S. 26 NWNE W. of creek. Ditch runs NE to land in
S. 23 $\frac{1}{2}$ 24 that is N. of Catherine Creek.

P/D #2: Now a supplemental p/d if needed, mostly used during
high water times ("flood water" use).

Checkdam $\frac{1}{2}$ earth ditch. Ditch is blocked (filled in) about 50'
from creek but can be easily reopened. Ditch runs N. to
fields in S. 23 $\frac{1}{2}$ 24 N. of creek.

Dennis & Shirley Cox Murdoch
HC 79, Box 2065
Oreana, ID 83650

Dear Dennis & Shirley:

This letter is being written in response to the Notice of Error filed September 1, 1992, on the above referenced water rights. This notice of error was on the proposed season of use for these rights.

As explained while you were in my office, the seasons of use for these rights will not be changed prior to submittal to the court on October 1, 1992. The Department's standard season of use for this area is 3-15 to 11-15 for other than Castle Creek previously decreed rights. Castle Creek previously decreed rights were decreed a season of use of 4-1 to 10-15 in 1923 when the decree was finalized, and the Department cannot recommend a longer season of use than what was previously decreed. Therefore, the season of use for these water rights will not be recommended for a longer season of use.

You can file an objection with the court once these rights are entered and submit evidence as to why you feel a longer season of use is needed. The objection procedure will be explained completely when you receive copies of your water rights submitted to the court on October 1, 1992. This notification will be mailed at the same time the report is given to the court. If you have any questions concerning this letter, please feel free to contact me.

Sincerely,

JAN SHURTE

Lloyd Law

lessee of the Cox property. Currently facing default to Cox's; however stop order put on Cox's to prevent this & he has made pymt. to cover default to Cox's. This should be settled in court this fall - no date set as yet.

The land was last irrigated in 1988. At this time Gordon King put in cement ditches & destroyed Cox's ditches so Cox could not irrigate. King told L. Law he could use their ditches (Kings) to irrig. but according to McHew, Kings ditch will not hold enough water for both King & Cox.

The old diversion point may still be in Castle creek but McHew wasn't sure. Will check for old & new POD when we do exam. Also - ck on condition of ditches during exam.

Also - there is a 60' dam in Catherine creek according to McHew - will check during exam.

9-5-90 - Called J. Sturmer to set up appt. no answer @ 0815. Try & set up for Tues - 9

Comments: Ms. Cox's guardian, Geraldine Cox, apparently claimed all of Ms. Cox's rights on all of the lands currently irrigated. Not all of the water is deliverable on all of the lands and some of the water appears never to have been delivered to some of the land. The found total represents all of the Cox's irrigated acres as determined by field examination and comparison with ASCS and orthophotoquad maps.

CASTLE CREEK Gravity Irrigation:

P/D #1: Checkdam (uses tires for temp. checkdam) $\frac{1}{2}$ 18" (3) culvert to earth ditch. Irrigates land West of Castle Cr. & east of Catherine Creek. Note several acres irrigated S. of Hwy 78 in S. 26 NWNE on both sides of ditch. The land between ditch & Catherine Cr. in " " also receives Catherine Cr. water via pipe from Catherine Cr. ditch.

P/D #2: checkdam (tires used) $\frac{1}{2}$ 36" culvert to earth ditch. Ditch shared with Warren Taylor. Irrigates land east of Castle Cr.

CATHERINE CREEK Gravity Irrigation:

P/D #1: main Cath. Cr. diversion

Checkdam (tires used) & earth ditch. Water has been piped to small field between Cath. Cr. & Castle Cr. P/D #1 Ditch. Also irrigates area in S. 26 NWNE W. of creek. Ditch runs NE to land in S. 23 & 24 that is N. of Catherine Creek.

P/D #2: Now a supplemental p/d if needed, mostly used during high water times ("flood water" use).

Checkdam: earth ditch. Ditch is blocked (filled in) about 50' from creek but can be easily reopened. Ditch runs N. to fields in S. 23 & 24 N. of creek.

Dear Mrs. Cox:

The Department of Water Resources will be conducting beneficial use and water right claim verification examinations in your area during the week of July 16. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used and legal description of the point of diversion and/or place of use. In some cases we may need documentation verifying the date of priority as claimed in the Snake River Basin Adjudication.

In order to expedite these field examinations, we request that you call our office at (208) 334-2190 and establish an appointment during the above week. Although it is not mandatory that you accompany the field examiner, it would be helpful for you or someone who knows the details of your water right to go with the examiner should questions arise during the exam. It may also be necessary for the system to be operated normally at the time of the exam.

Please advise me within seven days of the date of this letter as to the best time for us to perform this field exam.

Sincerely,

Linda A. Werner
Sr. Water Resource Agent

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.
