MEMORANDUM

From: Roxanne McCarthy
To: Blaine Collett files
Re: Additional acreage
Date: December 4, 1991

=====

Blaine Collett originally filed claims for 118.0 acres of irrigation. His Castle Creek decreed rights, with a duty of water of 1" per acre, would have covered up to 130 acres. Steve Lester conducted a field exam in 1990 and found 112.0 acres irrigated under the claimed rights.

On October 30, 1991, I sent the Collett's a letter telling them of our findings and requesting information for excessive flow. Mrs. Collett called John Carlson on November 4, 1991 and I spoke to her two days later. The Collett's expressed concern that not all of their farm land was represented on the claims. They apparently had not understood the claim process and filed only on the lands they were irrigating THAT YEAR. I made an appointment to re-examine their irrigated land in an effort to solve the discrepancy.

On November 12, 1991, I met with the Collett's on their Castle Creek ranch and examined the lands they felt should have been included on their claims. The small fields could easily have been missed by Steve Lester as they are not in view from the previously examined lands. I found that the lands were corrugated and although of marginal quality could be irrigated from the existing ditch system. These fields probably receive water only in good water years but have obviously been irrigated.

I will solicit amended claims from the Collett's representing these additional lands.

Re: Snake River Basin Adjudication (SRBA)
Owyhee County - Claim No(s). A57-00083, A57-00096,
A57-00105, A57-00117 and A57-10518

Dear Mr. Collett,

These rights were originally decreed for use of 130 inches of Castle Creek water for the irrigation of 130 acres. During our field examination, it was determined that you currently irrigate 112 acres from this source.

Under Idaho law, the normal duty of water is one inch of water per acre, unless it can be shown that more water is needed. This would limit your rights to a total of 112 inches (2.24 cfs) to be used on 112 acres.

In order to determine if more water is necessary, the enclosed "Irrigation Flow Rate Questionnaire" must be completed. Once this form is complete and returned, the Department can determine if more than 1 inch per acre is justified. Your local ASCS office may be able to help you with the form.

If we do not receive this form by November 8, 1991, we will assume that you agree with the inch per acre rule and these rights will be recommended as noted above. Please call me at 327-7925 if you have any questions.

Sincerely,

Roxanne McCarthy

SYSTEM DESCRIPTION ATTACHMENT TO CLAIM VERIFICATION REPORT

CLAIM NO. A57-00083 -00096 -00105 -00117-10518 (combo
of -00145 + 00157)

Stockwater p/u = irrig. p/u

P/D #1 NWSESE S. 29

Checkdam is earth ditch ("west side ditch") that is shared
p/d with BOB Collett & EVA Johnston claims. Supplies water
for gravity irrigation for land west of creek.

P/D #2 NWSESE S. 29 just south of P/D #1 about 300'

Also a checkdam is earth ditch ("east side ditch") for
gravity irrigation of land east of creek. NO one else
uses p/d #2.

Two wells* provide supplemental water for land on
west side of creek.

hot well - 022108

cold well - 02230

According to Blaine Collett, A57-022108 does not provide
water to any of Johnston's land. Johnston's A57-02210A
is a hot well in NWSW S. 21.

RE: Permit and/or Adjudication Claim No.s A57-00083 - 00096 - 00105

-00117 - 02210 B - 02330 - 10518

Dear Claimant(s):

The Department of Water Resources will be conducting beneficial use examinations and water right adjudication claim verification examinations for Owyhee County from July thru November 1990. Once the beneficial use examination or claim verification is made, your water rights will be recommended for licencing by the department or decree by Judge Hurlbutt in the Fifth District Court. The recommendations will be based on our findings in the field.

Information on your permit or claim that may need to be verified, includes source(s) of water, uses and amounts, legal descriptions of point(s) of diversion, place of use and in some cases documentation verifying the date of priority as claimed in the Snake River Basin Adjudication. Some of your claims may only need a small amount of verification if there are no changes in the manner in which they were previously documented and examined in accordance with the State's permitting, licencing and/or decree process.

Although it is not mandatory that you accompany the field examiner, should questions arise during the exam, it would be most helpful for yourself or a knowledgeable representative to be available for a short time during the field exam. This would help speed up our findings and help collect information for your rights to be recommended to the court.

A field examiner will be calling or writing you for the scheduling of this (these) field exam(s). We can either meet you at the place of use or a place of your convenience. This may be determined at the time we contact you.

If you have questions regarding this letter or prior to scheduling, please call 334-2190 and ask for either Steve Lester or Ron Howerton.

Sincerely,

Ron Howerton
Senior Water Resource Agent
