FINDINGS OF FACT AND CONCLUSIONS OF LAW

A notice of claim was filed for this water right pursuant to I.C. § 42-1409 (1990) by Junayo Ranch Limited Partnership. The director of the State of Idaho Department of Water Resources examined the water system for areas 1, 2, and 3 and investigated and abstracted the notices of claims for those Reporting Areas. The Director of the Idaho Department of Water Resources then filed a *Director's Report* which asserted how the elements of this water right should be decreed by the court.

An objection to the *Director's Report* for water right 57-01073 was filed by United States (BLM). Subsequently, a *Standard Form 5* was filed as to how the elements of this water right should be decreed. The *Standard Form 5* was accepted by the court.

A *Preliminary Special Master's Report and Recommendation* for this right was issued. No motion to alter or amend was filed and the time for filing such motions has now expired; therefore,

IT IS THEREFORE RECOMMENDED that subcase 57-01073 be decreed as recommended in the attached *Special Master's Report and Recommendation for Partial Decree*.

REASONS SUPPORTING EACH BOX CHECKED

In the space following, you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

The United States of America, acting through the Bureau of Land Management, objects to this water right recommendation because the claimant is a private individual claiming a water right on public domain lands. The BLM, on behalf of the United States, has managed and controlled this property for the beneficial use of the American public. The claimant has no property interest in the claimed water right or any other water right appurtenant to federally owned lands. The United States objects to all aspects of the right because of these facts, including the recommended name and address, source, quantity, priority date, points of diversion, purpose of use, period of use, place of use, and consumptive use. BLM also objects to the recommendation in its entirety because claimant has not been the exclusive beneficial user of this water given that other members of the public have had access to this land and water source. BLM specifically objects to the quantity, priority date, and/or purpose of use of the claimed right because granting this right will adversely affect the United States senior water right downstream.

CHANGES TO THE DIRECTOR'S REPORT

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

The Directors report should be changed to recommend disallowance of this claim.

Please note: You should attach copies of documents which support your objection. Note on each document the "box number" it supports.

☒ Check here if you are submitting documents. Please list each document by the title and number of pages. You may use additional pages if necessary. _____
