TO: No. 57-1218 & No. 57-0184
FROM: Don Shaff *DS*
DATE: 12/03/82
Subj: Field Inspection on 12/02/82

Purpose of this field inspection was to determine the course of ditches made with the diversion from the creek and springs. Paul Black said the creek was moved in the mid-1970's from its original location to a point east next to the hill. The purpose of the change was to reduce the flood water impact on the house. A resulting effect was the availability of the springs for use on other lands.

The first diversion or high ditch ~~and~~ irrigates land west of the creek ~~in the NE 1/4 of the NW 1/4, Sec. 26 and pick-up and co-mingle water from the springs for use on the center portion of the N 1/2 of the N 1/2 of Sec. 26 and the west half east of the south east, Sec. 23 west of the creek.~~

Besides pointing out existing diversions on their land, Paul and Mike Black showed me parts of an old ditch, west of the road that irrigated ground in the SWNW of Sec. 13. Also, they showed an old ditch south of the creek, in Sec. 7 that apparently carried water to the Burkhardt farm. Paul Black said Bill Burkhardt made this diversion in the 1950's. ^{His} maintenance was apparently unsuccessful because the land exhibited several washes starting at the ditch. Paul Black said remanants of one or more ditches ~~are remanants of one or more ditches~~ are present north of the road in Sec. 7. The CCC's in the '30's covered a ditch when the road was built. This ditch or another one north of Shoofly Creek was flumed across Poison Creek just above its junction with Shoofly Creek. Posts and pipe are still present, ^{I observed,} that connected what are now remanants of a ditch. ^{or may be the one shown in 57-2109} The diversion may have been at the site described in the 1899 decree. The elevation contour lines on the USGS quad' map match very closely to these two points.

Although there was water in Shoofly Creek (about .50 cfs- estimated) at the south quarter corner of Sec. 23 on Black's land, there was no water in the creek in the NWNE, Sec. 13. There ^{were} ~~was~~ no diversions taking place in between the two points.

SUBJ: LOCATION OF SPRINGS AT BLACKS

ONE SPRING IS UNDER BLACKS HOUSE AND IS PIPED INTO THE OLD CREEK CHANNEL THAT IS NOW PART OF THEIR DIVERSION SYSTEM.

THE OTHER SEEPING SPRINGS ARE ON THE BANK EAST OF THE CREEK JUST UPSTREAM FROM THE HOUSE.

THE WATER FROM THE SPRINGS DRAINS INTO THE DITCH AND CARRIED TO THE FIELDS. A DITCH WEST OF THE CREEK JUST BELOW THE CORRALS CARRIES WATER TO THE FIELDS WEST OF THE CREEK IN THE NENW, S. 26 & THE W²SE¹/₄, S. 23. A DITCH CAN CARRY THE SPRING WATER BACK TO THE CREEK JUST ABOVE THE DIVERSION IN THE SWSE, S. 23, FOR THE FIELD EAST OF THE CREEK IN THE W²SE¹/₄, S. 23.

D. REMARKS

This change in point of diversion from the Last Chance Canal Co. to the Farmers Cooperative Irrigation Co., Ltd., if approved, will record the change in operation within the two companies and document the change in rate of diversion and in the place of use for the respective companies. Proposed Finding showing 7 acres of Emmett Irrigation District right in the NENE, S. 26, is incorrect.

I hereby assert that no one will be injured by such change and that the change does not constitute an enlargement in use of the original right. The information contained in this application is true to the best of my knowledge.

I understand that any willfull misrepresentations made in this application may result in voiding its approval.

SUBJ: 8/05/82 WATER MEASUREMENTS IN SHOOFLY CREEK BASIN

THREE DIFFERENT CALCULATED RESULTS CAME OUT OF THESE MEASUREMENTS. THE FIRST CALCULATIONS WERE MADE IN THE FIELD AND RECHECKED IN THE OFFICE. SOME ADJUSTMENTS WERE MADE FOR STILL WATER.

THE SECOND SET ARE THOSE MADE ON THE COMPUTER WHERE NO ADJUSTMENTS ARE MADE FOR STILL WATER.

THE FINAL SET ARE THOSE MADE AFTER GRAPHICALLY SHOWING THE CROSS-SECTIONS. THE STILL WATER AREAS WERE NOT INCLUDED AND ARE SHOWN ON THE CROSS-SECTIONS.

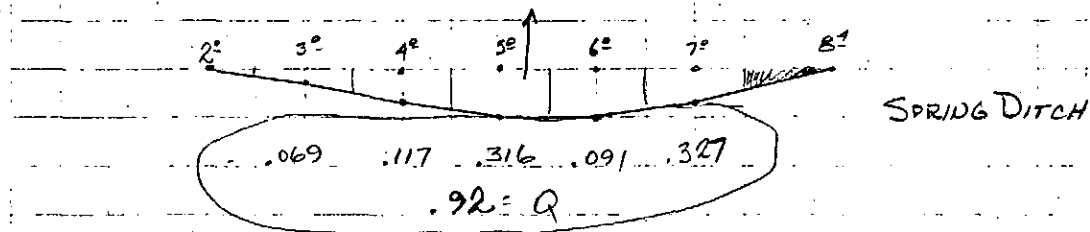

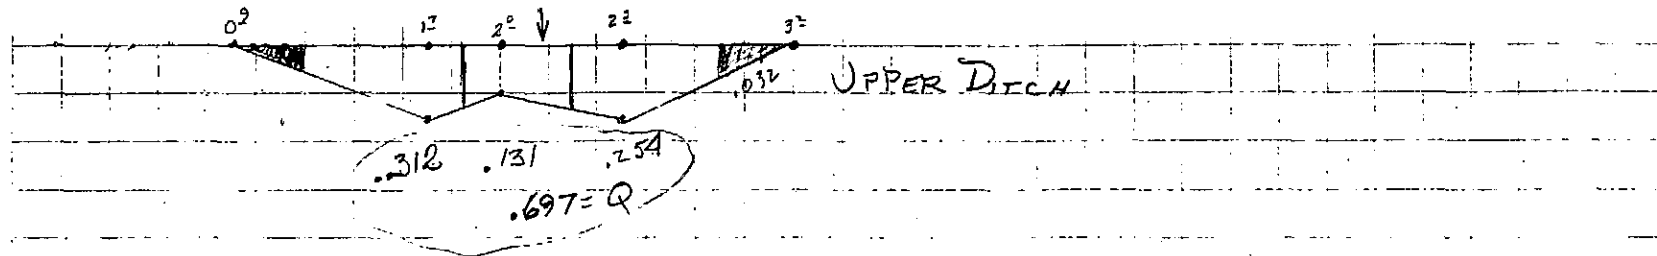

THE THIRD SET OF CALCULATIONS WILL BE USED AS THE PRESUMED CORRECT WATER MEASUREMENTS.

THIS SET HAS CONSIDERED FAIRLY THE FLOWING AND STILL-WATER PARTS OF THE CREEK OR DITCHES. THE STILL-WATER PARTS WERE AREAS OF WATER WHERE GRASSES AND FORBS PREVENTED WATER AROUND THEM FROM FLOWING. THESE STILL-WATER AREAS WERE EXCLUDED FROM THE MEASUREMENT CALCULATIONS.

"WATER RIGHT."

Notice of Location 16th August, 1883.

To Whom It May Concern, I, Paul Cullen, have this day located the water right known as Shee Fly Creek running from a southeasterly direction to a northwesterly direction, and flowing into Snake River in Owyhee Co., Idaho, for irrigating purposes.

Witness, R. Gilmore Sethern.

Paul Cullen

Recorded in Book 3 of Water Rights, at page 94, among the records of Owyhee Co., Idaho.

STATE OF IDAHO,
COUNTY OF OWYHEE.

I, E. L. Ballard, County Recorder of Owyhee county, State of Idaho, do hereby certify that I have compared the foregoing copy of *Notice of Location of a Water Right*

and of the endorsements thereon, with the original records of the same remaining in this office, and that the same are correct transcripts therefrom, and of the whole of said original records.

WITNESS my hand and official seal,
this 31st day of Dec. 1894,

E. L. Ballard
County Recorder
By *J. H. Blair* Deputy.

Notice of location of a Ranch.

I, the undersigned, a citizen of the United States, do hereby locate and claim one hundred and sixty acres of land, for the purpose of farming and raising stock; this location or ranch is situated in Owyhee County, Territory of Idaho, about half way between Castle Creek and Bruneau River, on Shoo Fly Creek, and bounded and described as follows, to-wit:

Commencing at the northwest corner stake, and running in a southerly direction one mile; thence in a southeasterly direction one quarter of a mile; thence in a northerly direction one mile; thence in a northwesterly direction one quarter of a mile to the starting point, the side and end lines of this location being parallel and forming a square one mile long and one quarter of a mile wide. This ranch is situated on said Shoo Fly Creek, about two miles below the mountains or hills and about two miles above the mouth of said gulch.

Located & notice posted August 17th, 1883.

Paul Cullen, locator.

I, Paul Cullen, being sworn, says the above described claim does not enclose more than one hundred and sixty acres, and that I do not hold any other claim under the provisions of an Act of the legislature approved December 10th, 1864; that to the best of my knowledge and belief no part of said claim or land is claimed under any existing adverse title.

Paul Cullen

Subscribed and sworn to before me this 18th day of August, 1883.

The above was sworn, subscribed to before me, a Justice of Peace, this 18th day of Aug., 1883.

Wm. C. Schenck,
Justice of Peace, Bruneau Precinct,
Owyhee Co., Idaho.

Filed August 25th, 1883, at one o'clock P. M.

James Lynam, Recorder.

Recorded in Book 3 of Water Rights, at page 96, among the records of
Owyhee Co., Idaho.

UNITED STATES DEPARTMENT OF AGRICULTURE
SOIL CONSERVATION SERVICE

SUBJECT: Irrigation Water Needs

DATE: July 28, 1982

TO: Paul Black
Box 273
Grandview, Idaho

The purpose of this letter is to show the amount of water needed to irrigate alfalfa on silt loam and fine sandy loam soils.

Method of irrigation is surface from concrete ditches.

Gross seasonal need for alfalfa from the Soil Conservation Service Irrigation Guide is 34.18". This figure is based on 100% efficiency.

Gross alfalfa needs for summer months are:

June = 6.21"	average consumptive use = .21"/day
July = 8.19"	average consumptive use = .26"/day
August = 6.53"	average consumptive use = .21"/day

When determining irrigation needs the peak month needs to be met.

Recent surface irrigation trials by the Soil Conservation Service on very sandy soils ranged from 10% to 20%. However, with good management 25% to 30% efficiency should be achieved with the soils on this farm.

Based on 27% efficiency surface irrigation for alfalfa, 2 miners inches per acre would be needed.

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.
