Important Information About Your Water Right

October 25, 2002

RECEIVED

OCT 28 2002

Joseph L. Parkinson
356 Selby Lane
Atherton, CA 94027

Department of Water Resources

Dear Water Right Claimant(s):

Attached to this letter is a copy of an **Order Amending Irrigation Period of Use Element in Partial Decree, Nunc Pro Tunc** (hereinafter "**Order**") for water right number 57-171. According to Idaho Department of Water Resources (IDWR) records, you are the current owner of this water right. If you are not the current owner, please contact IDWR immediately at:

Idaho Department of Water Resources
1301 North Orchard
Boise, ID 83706
800-451-4129

The purpose of the **Order** is to set forth beginning and ending dates for the irrigation period of use for this water right. As stated in the face of the **Order**, this action was necessary following the decision of the Idaho Supreme Court in *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998). This **Order** also incorporates into the **Partial Decree** an express statement that the **Partial Decree** is subject to such general provisions necessary for the definition or for the efficient administration of the water right. This express statement is necessary to comply with the requirements of Idaho Code section 42-1412(6). September 9, 1997, sets forth all of the elements of your water right. The Snake River Basin Adjudication (SRBA) Court suggests that you keep this document in a safe location together with a copy of the **Partial Decree** to show evidence of this water right. The original of this **Order** and the original of the **Partial Decree** for this water right are on file with SRBA Court. If you do not have a copy of the original **Partial Decree**, one can be obtained by contacting the SRBA Court at (208) 736-3011. Please note that the **Order** is entered **Nunc Pro Tunc**, meaning that the **Order** will be treated as if it were issued on the same date that the **Partial Decree** was originally issued.

Sincerely,

Diana Delaney
Case Administrator

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

II. STATEMENT OF THE RESPONSE

8. ☒ Period of Year: I respond to the objection concerning the period of year when water is used or is necessary for the purpose stated.

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection item 8 and all allegations of the objection regarding this item IDWR responds as follows: The period of year during which this water right may be used is the irrigation season of use decreed for this right in Davey v. Brown (Ada Co. 3rd Dist. ID. 1923). Water may be used for irrigation outside the decreed season of use, subject to the conditions set forth in general provision 13b of the director's report.

IDWR is without knowledge or information sufficient to form a belief as to the truth of the matter asserted in the "Reasons Supporting Each Box Checked" section of the objection and therefore denies the allegations of this section. IDWR denies the objection and all allegations of the objection not expressly admitted herein.

INSTRUCTIONS FOR USE

This form must be used to provide notice of change in address or to substitute a party whose water right recommendation is in a director's report which has been filed with the court. The filing of Standard Form 3 cannot result in a contested matter. A hearing will not be scheduled.

This form has been adopted by the court in *SRBA Administrative Order 1* (amended June 21, 1993), Section 4A, which may be consulted for further information.

MICROFILMED

Standard Form 3 shall not operate to excuse compliance with the statutory requirements of I.C. § 42-1409(7) where a water right recommendation is not before the court.

As used in this form, the term "prior claimant/seller" means any person who, pursuant to I.C. § 42-1409(2), (3) and (6), filed a notice of claim asserting the right to the use of water or on whose behalf the right to the use of water was asserted. "New claimant/purchaser" means any successor in interest of a "prior claimant/seller," whether the interest is acquired by purchase, gift, inheritance or other means.

A *Consent to Substitution of Party (Substitution)* must be signed by the prior claimant/seller and the new claimant/purchaser. The *Substitution* shall be filed by the new claimant/purchaser.

Check either the *Change in Address* or *Consent to Substitution of Party* box and fill in the requested information. A party may copy or reproduce the standard form. The text of the form must be on the front and back of each page, exactly as it appears here.

REASONS SUPPORTING EACH BOX CHECKED

In the space following, you must state the reason(s), by number, for each box checked. You may use additional pages if necessary. 1. S12, SWSW, 8 acres, is not owned by Parkinson and should be deleted from Place of use for irrigation and stockwater. 2. The S14, SWNE quadrant was inadvertently marked incorrectly on Dept. of Water Resources maps of actual irrigation use, and on reexamination is S14, SENE for Place of Use for irrigation and stockwater. This can be verified by calling Ron Howerton of Water Resources (phone 208-334-2190). 3. The Point of Diversion is on BLM but this is historically how it has been used. Also, the Department of Water Resources maps show another Point of Diversion at S14, SENE. 4. Places of Use as amended are deeded to me. 5. The BLM objection is unclear and ambiguous.

CHANGES TO THE DIRECTOR'S REPORT

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

1. Add a Place of Diversion in T06S, R01W, S14, SENE. 2. Delete on Place of Use: Irrigation T06S, R01W, S12, SWSW, 8.0 acres. 3. Delete on Place of Use: Stockwater T06S, R01W, S12, SWSW. 4. Change Place of Use: Irrigation T06S, R01W, S14, SWNE 6.0 acres to Place of Use: Irrigation T06S, R01W, S14, SENE 6.0 acres. 5. Change Place of Use: Stockwater T06S, R01W, S14, SWNE to Place of Use: Stockwater T06S, R01W, S14, SENE.

Please note that you should attach copies of documents which support your response. Note on each document the "box number" it supports.

- ☒ Check here if you are submitting documents. Please list each document by the title and number of pages. You may use additional pages if necessary: _____

1. "Title Map" showing property owned by Joseph L. Parkinson according to title insured by Owhyee Title (2 page). 2. "Irrigation Use Map": Incorporated by reference are the color maps in the file on this water right at the Department of Water Resources prepared by Ron Howerton based on his field examination. Attached are xerox copies (2 pages) of the maps. 3. Affidavit of Stan Smith of Owhyee Title (2 pages).

REASONS SUPPORTING EACH BOX CHECKED

In the space following, you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

The United States of America, acting through the Bureau of Land Management, objects to this water right recommendation because the claimant is a private individual claiming a water right on public domain lands. The BLM, on behalf of the United States, has managed and controlled this property for the beneficial use of the American public. The claimant has no property interest in the claimed water right or any other water right appurtenant to federally owned lands. The United States objects to all aspects of the right because of these facts, including the recommended name and address, source, quantity, priority date, points of diversion, purpose of use, period of use, place of use, and consumptive use. BLM also objects to the recommendation in its entirety because claimant has not been the exclusive beneficial user of this water given that other members of the public have had access to this land and water source.

CHANGES TO THE DIRECTOR'S REPORT

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

The Directors report should be changed to recommend disallowance of this claim.

Dear Joseph Parkinson,

This letter is being written in response to the rights we looked at together on September 11, 1992 and response from the signing of Amended Claims in Western's Regional office September 18, 1992.

All of the above was in response from the notice of error received August 19, 1992.

The Departments standard seasons of use and volume amounts have been recommended for all the rights above with the exception of the prior Castle Creek decreed rights, that were decreed with a season of use of 4-1 to 10-15 in 1923 when the decree was finalized. The Department cannot recommend a longer season than what was previously decreed.

Copies of amended claims are enclosed that you filed Notice of Error on, reflect the Season of Use dates you requested, not the departments in most cases, this was done per your request in order to preserve your right to object to the Departments recommended standards, or to the total volume in which was also left off these amended claims for the same reason. New information that you gave that was not originally provided at the time of original field exams, either reduced or increased the acreage slightly, added or corrected points of diversion and most stockwater amounts that were not claimed by the original owner, in most cases were amended to show those amounts on the claims that you requested in the Notice of Error, received August 19, 1992.

Other claims such as 57-00076, 57-00138, 57-00226, 57-00227, 57-02027 and 57-04101 were recommended for disallowance because rights cover these uses and are in excess and are therefore termed as no-beneficial use.

Claims 57-00229, 57-02156 and 57-02162 were not recommended, because these old rights were abandoned, with much overgrowth of sagebrush on the place of use.

NOTICE of
Error Ltr
in 57 00046A

You may file an objection with the court for either season of use or volume amounts of the rights you filed a notice of error on with evidence as to why you feel a longer season of use is needed etc. The objection procedure will be explained completely when you receive copies of your water rights submitted to the court on October 1, 1992. This notification will be mailed at the same time the report is given to the court.

I look forward to completing all future claims with your input for Basin 55. If you have any questions concerning this letter and/or would like to look over or make copies any of the items we had previously amended, please feel free to contact me.

Sincerely,
