TRIANGLE DAIRY'S BASIN "57" CLAIMS

December 11, 1991

Comments made by
Field Examiner: Ron Howerton
Date of Exam: 10/9/90

Ref: Triangle Dairy's Irrigation System

1. The claims that were licensed or decreed all listed 17 points of diversion.
2. Claim 57-02152 was a surface water right, but listed 17 wells for the source and points of diversion.
3. During the Field Exam I was told several times by the owner that each well could divert the water on any piece of ground that the others could irrigate.
4. During the field exam I found that only seven wells were being used. Well No. 7 I found, was the only source for its place of use.
5. The system was a mixture of sprinklers, underground pipelines furrows, and flood irrigation.
6. The remaining wells were inconclusive as to whether they could divert to any place that the others could irrigate, however the owner still insisted that they could.
7. I went with that statement and started figuring up the claims for permissible place of use.
8. I started by making a map that showed what lands they claimed. In some cases the licenses overlapped each other. The decrees were claimed for separate lands, and their own place of use with little or no exceptions to the licenses.
9. I added up the CFS of both the licenses and decrees, this amount was more than an inch per acre.
10. Then, after my research I only found that six wells may possibly irrigate 1 big PERMISSIBLE PLACE OF USE. I did theoretical calculations for each well, for the maximum rate of flow with the exception of the artesian well, it was an open flow, open casing, with no logical way of measuring it, as waste water from Triangle Dairy's fields were comingling with it. The only possible way that I knew to measure it, was in the ditch after the irrigation season was over. This was later obtained with an affidavit for 15 inches.

OCT 07 1992

11. I finished all of the calculations based from upon what I saw and what I could obtain from Mr. Tate and his foreman, Kent and Sherl Chapman, and put it all together.
12. After much time spent to show that the land was 1 permissible place of use, I could tell that wasn't going to work.
13. I called Sherl Chapman, as he helped Mr. Tate file his claims and accompanied me on this field exam too. My request was to have Sherl contact Mr. Tate, and set up another field examination date to show proof of the system by plotting the underground lines etc., that the wells could be diverted as such, and that all were somehow tied in together.
14. Sherl, went ahead and got with Bill Tate and by using the map that I drew, plotted in the system, then we met to go over what he found. From this I then drew up a master copy, based upon what I seen and what Sherl had drawn.
15. After studying and putting the master copy together, I found that 3 separate area's would well work as permissible places of use. Not 1 large PPOU...

SUMMARY:

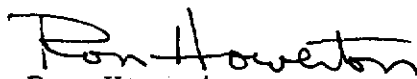

The places of use and points of diversion that were claimed had to be totally re-drawn from the beginning.

Of the 17 wells that were originally claimed, only 7 remain, the rest do not exist for irrigation.

The entire system was re-worked as Mr. Tate stated from the time he bought it in 1957, and had it completed by 1960 and 1962.

The system works ONLY because of the overlapping Snake River Water Rights, without it, the 3 systems would not work as a "PERMISSIBLE PLACE OF USE."

The Department of Water Resources will be conducting beneficial use examinations and water right adjudication claim verification examinations for Owyhee County from July thru November 1990. Once the beneficial use examination or claim verification is made, your water rights will be recommended for licencing by the department or decree by Judge Hurlbutt in the Fifth District Court. The recommendations will be based on our findings in the field.

Information on your permit or claim that may need to be verified, includes source(s) of water, uses and amounts, legal descriptions of point(s) of diversion, place of use and in some cases documentation verifying the date of priority as claimed in the Snake River Basin Adjudication. Some of your claims may only need a small amount of verification if there are no changes in the manner in which they were previously documented and examined in accordance with the State's permitting, licencing and/or decree process.

Although it is not mandatory that you accompany the field examiner, should questions arise during the exam, it would be most helpful for yourself or a knowledgeable representative to be available for a short time during the field exam. This would help speed up our findings and help collect information for your rights to be recommended to the court.

A field examiner will be calling or writing you for the scheduling of this (these) field exam(s). We can either meet you at the place of use or a place of your convenience. This may be determined at the time we contact you.

If you have questions regarding this letter or prior to scheduling, please call 334-2190 and ask for either Steve Lester or Ron Howerton.

Sincerely,

Ron Howerton
