Dear Ms. Schaal:

Enclosed please find reports which summarize your water rights as recommended to the SRBA court. The source of most of these water rights is Castle Creek, and one right from ground water for domestic and stockwater use (57-10451).

When this office changed the ownership of the water right claims to your name we sent an acknowledgement letter to you along with copies of the SRBA claims as originally filed with this office. The enclosed reports are for your information; you may want to compare the reports to the original claim.

If you have any questions about the enclosed reports please do not hesitate to contact this office. Information about water rights from the Snake River which are recorded as being appurtenant to your property has been sent under a separate cover. Please refer questions about rights from the Snake River to Cindy Hodges of this office.

Sincerely,

Maria Minicucci

SUBJECT: Change of OwnershipDATE: 02/28/1996

Gisela Schaal called this office regarding the letter she received telling her about the change in ownership to her for the above SRBA claims plus some basin 57 claims. She wasn't sure what the letter was saying and we ~~reviewed~~ discussed the differences between a basin 57 claim and what may have been recommended to the court. She indicated that she will review the claims versus what was recommended and call this office or the court if she has any questions. At the time I didn't know if she had been sent copies of the claims or the recommended rights and I said I would call her back. ~~So~~ When I did call back I left a message on her answering machine.

We also discussed the claims to water from the Snake River. Mrs. Schaal indicated that she had no knowledge of water being pumped from the Snake River. Her property is over a mile from the Snake & she thought it very impractical to pump water that distance. She said she knew the property ~~was~~ very well and has never seen any conveyance system from the Snake and had no intention of using Snake River water in the future.

No domestic use found for 14 1/4's recommended. The only domestic use is for irrigation around ranch houses and small garden area which is being covered by Right Nos. 57-00097A, 5006A & 00237A allocation in the Subd, S. 24.

Stockwater use is being shown only in the non-irrig. use field since it was in the decree, however, it also was limited to the irrig. season only which is 4-1 to 10-15 on this decree. Therefore, it is considered incidental to the irrigation use & will automatically be covered by this decree and is only listed in non-irrig. use for informational purposes.
