Please note: You should attach copies of documents which support your objection. Note on each document the "box number" it supports.

The Directors report should be changed to recommend disallowance of this claim.

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

CHANGES TO THE DIRECTOR'S REPORT

In the space following, you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

The United States of America, acting through the Bureau of Land Management, objects to this water right recommendation because the claimant is a private individual claiming a water right affecting public domain lands. The BLM, on behalf of the United States, has managed and controlled this property for the beneficial use of the American public. The claimant has no property interest in the claimed water right or any other water right appurtenant to federally owned lands. The United States objects to all aspects of the right because of these facts, including the recommended name and address, source, quantity, priority date, points of diversion, purpose of use, period of use, place of use, and consumptive use. BLM also objects to the recommendation in its entirety because claimant has not been the exclusive beneficial user of this water given that other members of the public have had access to this land and water source. BLM specifically objects to the quantity, priority date, point of diversion, and/or purpose of use of the claimed right because granting this right will adversely affect the United States senior water right.

REASONS SUPPORTING EACH BOX CHECKED

12. ☒ Water Right Recommendation: I object to:
 - a. ☒ this water right being recommended at all; or
 - b. ☐ this water right not being recommended.
13. ☐ Description of Reservation: I object to the legal description of the reservation.
14. ☐ other: I object to:

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection items 1, 2, 3, 4, 5, 7, 8, 10, 11, 12 and 12a. and all allegations of the objection regarding these items, IDWR responds as follows:

IDWR lacks sufficient information to form a belief as to whether any or all of the lands upon which water is diverted, conveyed, or used pursuant to this right are owned by the United States. The notices of claim attached to the objection were not filed with IDWR and IDWR has not recommended a water right based on these notices of claim. IDWR admits that the claims listed in the objection are recommended in the director's report. IDWR admits that the exercise of rights to water from the same source may impact each other. IDWR denies the objection and all allegations of the objection not expressly admitted herein.

CHANGES TO THE DIRECTOR'S REPORT

The director proposes no changes to the description of this claim in the Director's Report.

In response to Statement of the Objection items 1, 2, 3, 4, 5, 7, 8, 10, 11, 12 and 12a. and all allegations of the objection regarding these items, IDWR responds as follows:

IDWR lacks sufficient information to form a belief as to whether any or all of the lands upon which water is diverted, conveyed, or used pursuant to this right are owned by the United States. The notices of claim attached to the objection were not filed with IDWR and IDWR has not recommended a water right based on these notices of claim. IDWR admits that the claims listed in the objection are recommended in the director's report. IDWR admits that the exercise of rights to water from the same source may impact each other. IDWR denies the objection and all allegations of the objection not expressly admitted herein.

The Directors report should be changed to recommend disallowance of this claim.

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

CHANGES TO THE DIRECTOR'S REPORT

In the space following, you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

The United States of America, acting through the Bureau of Land Management, objects to this water right recommendation because the claimant is a private individual claiming a water right affecting public domain lands. The BLM, on behalf of the United States, has managed and controlled this property for the beneficial use of the American public. The claimant has no property interest in the claimed water right or any other water right appurtenant to federally owned lands. The United States objects to all aspects of the right because of these facts, including the recommended name and address, source, quantity, priority date, points of diversion, purpose of use, period of use, place of use, and consumptive use. BLM also objects to the recommendation in its entirety because claimant has not been the exclusive beneficial user of this water given that other members of the public have had access to this land and water source. BLM specifically objects to the quantity, priority date, point of diversion, and/or purpose of use of the claimed right because granting this right will adversely affect the United States senior water right.

REASONS SUPPORTING EACH BOX CHECKED

12. ☒ Water Right Recommendation: I object to:
 - a. ☒ this water right being recommended at all; or
 - b. ☐ this water right not being recommended.
13. ☐ Description of Reservation: I object to the legal description of the reservation.
14. ☐ Other: I object to:

Dear Mr. Sherman:

Enclosed you will find reports for each water right claimed by Junayo Ranch. Each report will show the identification number, source, point of diversion and places of use by 40 acre section and number of acres irrigated. I have highlighted these items on the first report.

There are four rights that were not claimed in the Snake River Basin Adjudication. They are numbered 57-07400, 57-07454, 57-07472 and 57-07473. I have enclosed a report for each of these that show the way they were licensed along with the adjudication report that shows a claim has not been filed. An unclaimed right indicates that the water for the right is no longer being used and will not be recommended in the adjudication.

If you have any questions, feel free to contact me.

Sincerely,

Linda A. Werner

MEMO TO: 57-0248 FROM: F.E.L. DATE: 11/21/79

MEMORANDUM DECISION & ORDER ON TFR. # 57-0249 SPEAKS TO THE ORIGINAL POINT OF DIVERSION AS HISTORICALLY BEING NEAR THE SE SE SEC. 24, T2S, R4W, EVEN THOUGH TFR. #535 OF JULY 16, 1934 LISTS THE NEW POINT OF DIVERSION FROM REYNOLDS CREEK AS BEING IN THE SE SE SEC 13, T2S R4W.

APPLICATION FOR TRANSFER #57-0249 ALSO MAKES MENTION OF THE FACT THAT WATER CANNOT REACH THE NW SE, SEC 13, T2S, R4W FROM A POINT OF DIVERSION IN THE SE SE OF SEC 13. IT IS ALSO SOMEWHAT DIFFICULT, IF NOT IMPOSSIBLE, TO GET GRAVITY FLOW FROM THE NE NE, SEC. 25, T2S, R4W, AS CLAIMED FOR THIS RIGHT. A CLOSE INSPECTION OF AERIALS OF THE AREA AND DISCUSSION WITH THOSE FAMILIAR WITH THE DEVELOPMENT, SEEMS TO INDICATE THAT THE SW NE, SEC 24, T2S, R4W IS THE SPOT OF THE P.D. FOR THIS RIGHT. IT IS RECOMMENDED IN THAT MANNER.
