IDWR lacks sufficient information to form a belief as to whether any or all of the lands upon which water is diverted, conveyed, or used pursuant to this right are owned by the United States. The notices of claim attached to the objection were not filed with IDWR and IDWR has not recommended a water right based on these notices of claim. IDWR admits that the claims listed in the objection are recommended in the director's report. IDWR admits that the exercise of rights to water from the same source may impact each other. IDWR denies the objection and all allegations of the objection not expressly admitted herein.

Please note: You should attach copies of documents which support your objection. Note on each document the "box number" it supports.

The Directors report should be changed to recommend disallowance of this claim.

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

CHANGES TO THE DIRECTOR'S REPORT

In the space following, you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

The United States of America, acting through the Bureau of Land Management, objects to this water right recommendation because the claimant is a private individual claiming a water right affecting public domain lands. The BLM, on behalf of the United States, has managed and controlled this property for the beneficial use of the American public. The claimant has no property interest in the claimed water right or any other water right appurtenant to federally owned lands. The United States objects to all aspects of the right because of these facts, including the recommended name and address, source, quantity, priority date, points of diversion, purpose of use, period of use, place of use, and consumptive use. BLM also objects to the recommendation in its entirety because claimant has not been the exclusive beneficial user of this water given that other members of the public have had access to this land and water source. BLM specifically objects to the quantity, priority date, point of diversion, and/or purpose of use of the claimed right because granting this right will adversely affect the United States senior water right.

REASONS SUPPORTING EACH BOX CHECKED

12. ☒ Water Right Recommendation: I object to:
- a. ☒ this water right being recommended at all; or
- b. ☐ this water right not being recommended.
13. ☐ Description of Reservation: I object to the legal description of the reservation.
14. ☐ Other: I object to:

Please note: You should attach copies of documents which support your objection. Note on each document the box number" it supports.

The Directors report should be changed to recommend disallowance of this claim.

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

CHANGES TO THE DIRECTOR'S REPORT

In the space following, you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

The United States of America, acting through the Bureau of Land Management, objects to this water right recommendation because the claimant is a private individual claiming a water right affecting public domain lands. The BLM, on behalf of the United States, has managed and controlled this property for the beneficial use of the American public. The claimant has no property interest in the claimed water right or any other water right appurtenant to federally owned lands. The United States objects to all aspects of the right because of these facts, including the recommended name and address, source, quantity, priority date, points of diversion, purpose of use, period of use, place of use, and consumptive use. BLM also objects to the recommendation in its entirety because claimant has not been the exclusive beneficial user of this water given that other members of the public have had access to this land and water source. BLM specifically objects to the quantity, priority date, point of diversion, and/or purpose of use of the claimed right because granting this right will adversely affect the United States senior water right.

REASONS SUPPORTING EACH BOX CHECKED

12. ☒ Water Right Recommendation: I object to:
 - a. ☒ this water right being recommended at all; or
 - b. ☐ this water right not being recommended.
13. ☐ Description of Reservation: I object to the legal description of the reservation.
14. ☐ Other: I object to:

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection items 1, 2, 3, 4, 5, 7, 8, 10, 11, 12 and 12a. and all allegations of the objection regarding these items, IDWR responds as follows:

IDWR lacks sufficient information to form a belief as to whether any or all of the lands upon which water is diverted, conveyed, or used pursuant to this right are owned by the United States. The notices of claim attached to the objection were not filed with IDWR and IDWR has not recommended a water right based on these notices of claim. IDWR admits that the claims listed in the objection are recommended in the director's report. IDWR admits that the exercise of rights to water from the same source may impact each other. IDWR denies the objection and all allegations of the objection not expressly admitted herein.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

A notice of claim was filed for this water right pursuant to I.C. § 42-1409(1990) by Junayo Ranch Limited Partnership. The director of the State of Idaho Department of Water Resources examined the water system for areas 1, 2, and 3 and investigated and abstracted the notices of claims for those Reporting Areas. The Director of the Idaho Department of Water Resources then filed a *Director's Report* which asserted how the elements of this water right should be decreed by the court.

An objection to the *Director's Report* for water right 57-00250 was filed by United States (BLM). Subsequently, the objection was withdrawn by stipulation of the parties; now therefore,

IT IS THEREFORE RECOMMENDED that subcase 57-00250 be decreed as recommended in the attached *Preliminary Special Master's Report and Recommendation for Partial Decree*.

FINDINGS OF FACT AND CONCLUSIONS OF LAW

A notice of claim was filed for this water right pursuant to I.C. § 42-1409 (1990) by Junayo Rnach Limited Partnership. The director of the State of Idaho Department of Water Resources examined the water system for areas 1, 2, and 3 and investigated and abstracted the notices of claims for those Reporting Areas. The Director of the Idaho Department of Water Resources then filed a *Director's Report* which asserted how the elements of this water right should be decreed by the court.

An objection to the *Director's Report* for water right 57-00250 was filed by United States (BLM). Subsequently, the objection was withdrawn by stipulation of the parties.

A *Preliminary Special Master's Report and Recommendation* was issued. No motion to alter or amend was filed and the time for filing such a motion has now expired; therefore,

IT IS THEREFORE RECOMMENDED that subcase 57-00250 be decreed as recommended in the attached *Special Master's Report and Recommendation for Partial Decree*.

AS DECREED THIS RIGHT WAS FOR IRRIGATION OF 89 ACRES IN LOTS 3 & 4 & THE SE SW SEC 31, T2S R3W. AGAIN IT IS IMPOSSIBLE TO DETERMINE EXACTLY WHAT PATTERNS OF IRRIGATION DEVELOPED OVER 100 YEARS AGO, BUT THE SYSTEM FOR THE 83 ACRES NOW RECOGNIZED FOR THIS RIGHT COVERS APPROX. 9 ACRES IN THE NE SW S31 AND WE HAVE RECOMMENDED IT IN THAT MANNER.
