RE: Notice of Claims to Water Right Nos. 57-02000 and 57-02094K

J. Lavar Young
HC 79, Box 58
Melba, ID 83641

Dear Mr. Young:

We are in receipt of the Notice of Error you submitted in regard to the above referenced claims.

In review of Claim 57-02000, we found that we had made an error on the amount of water that was shown on your proposed preliminary report. Enclosed is a profile report of the claim which describes the right as it will be recommended to the Judge. Please note that we have changed the amount of water from 1.66 cfs to 1.84 cfs. Thank you for bringing this error to our attention.

In reviewing Claim 57-02094K, I found that the original claim, A57-02094B in the name of Cereda Ranches Inc., was split between you and George & Patricia Earll. The original claim was for 2.0 cfs for the irrigation of 100 acres. The amount of water that was conveyed to the Earlls was enough to cover 6 acres - that is 0.12 cfs, leaving 1.88 cfs for the 94 acres conveyed to you. Therefore, we will not make any changes on our recommendations on this claim.

If you have any other questions in regard to these claims, please feel free to contact me.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

RE: CLAIMS 57-02000, 57-00006 & 57-00281

Hi, Lynne!! I received notice of error on Claims 57-02000 and 57-02094K which opened a whole bucket of worms.

In review of the notice of error, I found that you had reduced the rate of flow on Rt. 57-02000 (which is what should have been done due to a transfer that was approved on April 26, 1977). The water right was never reduced (as far as a data entry), just a condition limiting it to 1.66 cfs at the new point of diversion. In my review, I missed the condition reducing the rate of diversion and recommended this right at 1.84 cfs.

While looking into the above, I found that we have two other rights that are in the same boat. Transfer #2050 reduces the amount diverted under Rts. 57-00006 and 57-00281 to 3.78 cfs but I have recommended what was shown in the Reynolds Creek Decree (RCD) 57-00006 for 1.0 cfs and 57-00281 for 3.20 cfs = total of 4.20 cfs.

approved
5/6/77

Today, I searched the RCD attachments and could not find anything that corrects the rate of diversion in the decree. Since the transfers were approved prior to the RCD, and the reduction was not shown in the proposed finding or in "Order correcting clerical oversights/errors" or in the Decree itself, can we reduce these without a problem? I found that our copy of the RCD was lacking lots of attachments and went over and got Don Shaff to investigate. Don thought that we had gotten everything that was important but maybe we missed some... Do you have something that addresses the reduction of these rights?

NO.

I am having trouble trying to find the words to explain our snafu to the claimant... Your input would be appreciated. Thanks!! Kay

After the review of a letter and exhibits from the Department of Water Resources dated February 17, 1982, Cereda Ranches, Inc. is willing to withdraw its protest to the Department's Preliminary Report of Proposed Finding of Water Rights in the Reynolds Creek Drainage Basin with regard to claim numbers 57-0006, 57-0281, 57-1117, 57-2000, 57-1119, 57-1120, 57-1121, 57-1122 and 57-1123.

The withdrawal is conditioned on the Department amending its report in the Proposed Finding that will be presented to the Court. The amendment shall conform to the changes stated in the letter from the Department dated February 17, 1982 for the above numbered claims. Any other protest against the Preliminary Report which the Corporation has at present outstanding shall not be affected by this withdrawal.

Dear Mr. Earll:

The Department has investigated the Cereda Ranches, Inc. protest against the Preliminary Proposed Finding of Water Rights in the Reynolds Creek Drainage Basin. The Department finds that it misinterpreted the Corporation's water right(s), 57-0006, 57-0281, 57-1117, and 57-2000, in its Preliminary Report and is willing to make the necessary corrections for the recommended diversion rates in its Proposed Finding to the Court as shown in the following.

<u>Right No.</u>	<u>Claimed Diversion Rate</u>	<u>Prelim. Report Recommended Diversion Rate</u>	<u>Proposed Recommended Diversion Rate</u>
57-0006	1.0 cfs	.90 cfs	1.0 cfs
57-0281	3.2 cfs	2.88 cfs	3.2 cfs
57-1117	.94 cfs	.94 cfs	1.04 cfs
57-2000	1.84 cfs	1.66 cfs	1.84 cfs

The Department also finds that it omitted the Corporation's water right(s) 57-1119, 57-1120, 57-1121, 57-1122, and 57-1123, and is willing to incorporate them into its Proposed Finding to the Court as shown on the attached page.

If the Corporation finds these proposed corrections satisfactory, please have one copy of the enclosed letter signed and returned to the Department. The signed letter will withdraw the Corporation's protest against the Preliminary Report's recommendations for Claims 57-006, 57-0281, 57-1117 and 57-2000. This will also withdraw the Corporation's protest against the Report's omission of right(s) 57-1119, 57-1120, 57-1121, 57-1122, and 57-1123.

TO: CEREDA RANCHES, INC. (Protest Files)

FROM: Forrest E. Luthy

THROUGH: Don Shaff

DATE: February 17, 1982

On May 1, 1981, Cereda Ranches, Inc. filed a protest against the Department's Preliminary Proposed Finding of Water Rights in the Reynolds Creek Drainage Basin. This protest cited the Corporation's disagreement with the diversion rates recommended on claims 57-0006, 57-0281, 57-1117, and 57-2000. Subsequently, on May 7, 1981, per verbal communication at the ranch on May 1 and a phone conversation on May 7, a modification to the protest was made listing the omission of several groundwater rights and a wastewater right. The claims for these rights, 57-1119, 57-1120, 57-1121, 57-1122, and 57-1123, were filed on July 1, 1980.

As a consequence of the foregoing, and a previously mentioned concern by the Corporation's Manager, George Earll, investigations were conducted in the late fall of 1980 and in September of 1981. The intent of the investigations, or field exams, was to determine if additional flows of any consequence enter Reynolds Creek between the older lower points of diversion for these rights and the newer points further upstream.

Cereda Ranches, Inc. contends that no water of any consequence does enter the stream between these points and that the Department had improperly and without cause reduced the rate of diversion on three rights, 57-0006, 57-0281, and 57-2000 by its action on transfer numbers 2050 and 2051 in the year 1977. In keeping with the action on the transfers, the Department also recommended a reduced rate of flow for a Beneficial Use Right, 57-1117, in its Preliminary Proposed Finding.

The Corporation also contends that the Department reduced the flow of the foregoing rights without prior notification or the normal protest procedures allowed for such matters. The Corporation Management admits that it was at fault in not properly considering the transfers when they were approved, but since there had been no communication or conversation that any reductions were being considered or that there were any valid reasons for the consideration of such, they failed to protest them in a timely manner.

In addition to the previous, the intent of the investigations was to confirm the existence, location, and use for a series of groundwater rights and one wastewater right claimed by the Corporation.

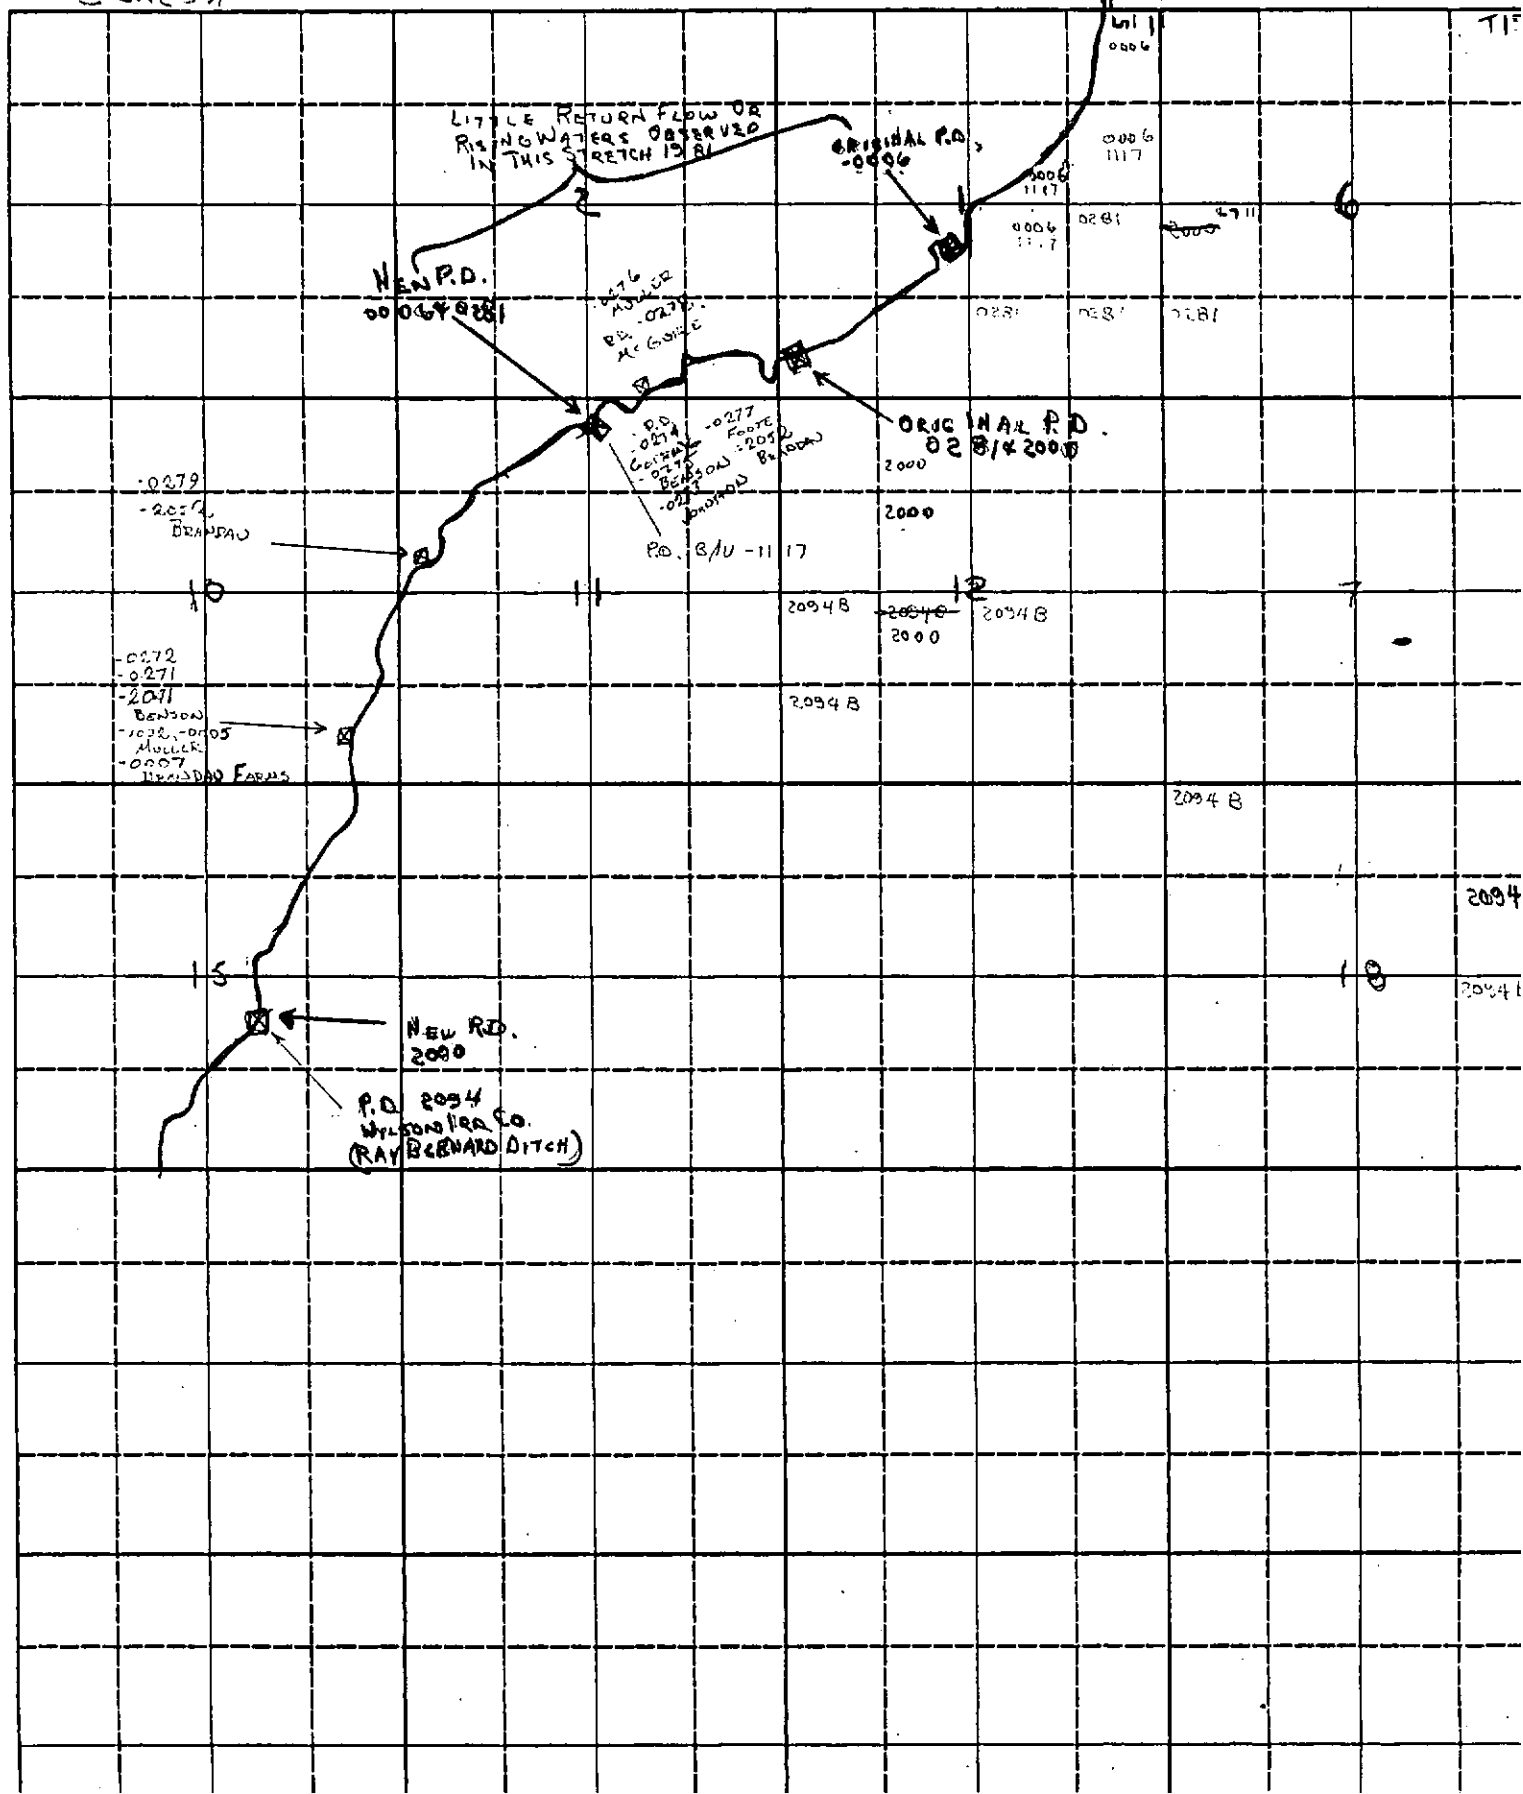

The discovery of a previous transfer #421 on right 57-2000 approved on April 12, 1928, without protest would appear to make the the 1977 transfer #2031 null and void. If this is so, it would seem to remove the necessity for any further action by the Department except to assure that the full rate of diversion appears in the Proposed Finding.

Field exams concerning claimed rights 57-0006 and 57-0281, by Department Agents, G. L. Sisco and F. E. Luthy, accompanied by George Earll, failed to reveal any additional flows of consequence entering the creek between the diversion points in question. The effect of this would be that any junior users above the new diversion point would not be forced to operate differently at short water times and these diversions below may even stand to gain if there is a small increase in that stretch.

On September 1, 1981, the three individuals mentioned in the above paragraph toured the ranch area with Mr. Earll pointing out the series of wells and explaining the irrigation system through which waters from the wells and the wastewater source flows. General land areas covered by these sources were noted at that time for comparison with land lists

With this letter, Cereda Ranches, Inc. wishes to file a protest against the Idaho State Department of Water Resources Preliminary Proposed Finding of Water Rights in the Reynolds Creek Drainage Basin.

Cereda Ranches holds that as presently compiled the report improperly and without cause reduces the diversion rates of claimed rights 57-0006, 57-0281, 57-1117, and 57-2000, with probable results of a more inefficient irrigation and farming operation, hardship, and possible economic loss.

Cereda Ranches asks that the Department reexamine the claims and restore the original rates of diversion claimed in its Proposed Finding to the Court.

CEREDA RANCHES, INC.

In addition several groundwater claims for Cereda Ranches have been omitted. Those claims will be filed in the near future. - Per verbal conversation at Cereda Ranches on May 1, 1981 and telephone conversation on May 7, 1981. FEL ~~ec~~

AS A RESULT THEY ABANDONED THE LOWER DIVERSION (SHOWN ON B) AND DESIGNED THEIR CONVEYANCE SYSTEM TO THE SEC. 6 LANDS FROM THE UPPER DIVERSION. OUR RECOMMENDATION IS THUS CHANGED FROM A SPLIT RT TO A SINGLE RT, 57-2000. THE DISPUTE OVER THE REDUCED DIVERSION RATES AS A CONDITION OF THE TRANSFERS IS NOT RESOLVED AT THIS DATE.

FOR DEPARTMENT USE ONLY

57-1000

STATE OF IDAHO
DEPARTMENT OF RECLAMATION
CERTIFICATE OF WATER RIGHT
Transferred Right No. 421.

This is to certify that John E. Keith of Wilson, County of Owyhee, State of Idaho, has a right to the use of the waters of Reynolds Creek, for irrigation and domestic purposes, and that said right has been obtained by virtue of Water License No. 49, issued by the State Engineer of the State of Idaho, dated July 7, 1906, bearing date of priority of June 10, 1903, for the irrigation of Lots 7, 8, and 11 of Section 6, Twp. 1 S., Rge. 2 W., B.M.;

That said license has been entered in the records of the Department of Reclamation of the State of Idaho, in Book 1 of Water Licenses at page 74;

That upon the application of the said John E. Keith for a transfer of water right made before the Commissioner of Reclamation of the State of Idaho, and the said application having been granted, the right to the use of 1.84 second feet of the waters of Reynolds Creek upon the lands above described is hereby abandoned, and a description of the lands to be irrigated under such right and to which the water right hereby confirmed shall by this certificate become appurtenant, for irrigation and domestic purposes, is shown in the following list of lands, limited at any given time to an amount actually needed and beneficially used for such purposes, and shall not exceed the following amount, to-wit:

1.84 sec. ft., dated June 10, 1903.

East Half of the Northwest Quarter, and Northeast Quarter of the Southwest Quarter, Section 12, Twp. 1 S., R. 3 W., B.M.;

That the water right to be transferred has heretofore been diverted from Reynolds Creek in the Southwest Quarter of the Southwest Quarter, Section 1, Twp. 1 S., R. 3 W., B.M., but will hereafter, by virtue of this certificate, be diverted at the head of the Wilson Irrigation Company's Ditch, and conducted through said ditch to the lands to be irrigated;

That the right to the use of the water aforesaid hereby confirmed is restricted to the lands or place of use herein described, as provided by the laws of the State of Idaho.

WITNESS, The seal and signature of the Commissioner of Reclamation of the State of Idaho, affixed at Boise, this 12th day of April, 1928.

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.
