FINDINGS OF FACT AND CONCLUSIONS OF LAW

A notice of claim was filed for this water right pursuant to I.C. § 42-1409(1990) by Joseph L. Parkinson. The director of the State of Idaho Department of Water Resources examined the water system for areas 1, 2, and 3 and investigated and abstracted the notices of claims for those Reporting Areas. The Director of the Idaho Department of Water Resources then filed a *Director's Report* which asserted how the elements of this water right should be decreed by the court.

An objection to the *Director's Report* for water right 57-02102 was filed by Joseph L. Parkinson. Subsequently, a *Standard Form 5* was filed as to how the elements of this water right should be decreed. The *Standard Form 5* was accepted by the court; now therefore,

IT IS THEREFORE RECOMMENDED that subcase 57-02102 be decreed as recommended in the attached *Preliminary Special Master's Report and Recommendation for Partial Decree*.

57-00170, 57-00171 and 57-02102 (Spivy Ranch).

Dear Joseph L. Parkinson,

Along with the proposed changes as we have previously addressed through the objection/response process for the above recommended claims, we have discovered an discrepancy with the place of use on the licensed claim 57-02102.

This license was originally claimed for 50 acres. The claim was intended to be recommended as a permissible place of use listing the entire acreage, to match the other above claims. However, somehow, when the land list was cloned the land list it came out slightly different.

The claim was to have shown the same 110 acres as the others, but came out to be a different 110 acres. Due to a very thorough review of these claims from our State office the discrepancy was discovered.

The difference can be seen by comparing any of the land lists of the above mentioned claims with 57-02102.

If you are in agreement with this oversight, the following steps will need to be taken

In addition to these water rights we also changed your address on your claims in Basins 02 and 55 and the Basin 57 rights that have already been decreed by the Court. FINDINGS OF FACT AND CONCLUSIONS OF LAW

A notice of claim was filed for this water right pursuant to I.C. § 42-1409 (1990) by Joseph L. Parkinson. The director of the State of Idaho Department of Water Resources examined the water system for areas 1, 2, and 3 and investigated and abstracted the notices of claims for those Reporting Areas. The Director of the Idaho Department of Water Resources then filed a *Director's Report* which asserted how the elements of this water right should be decreed by the court.

An objection to the *Director's Report* for water right 57-02102 was filed by Joseph L. Parkinson. Subsequently, a *Standard Form 5* was filed as to how the elements of this water right should be decreed. The *Standard Form 5* was accepted by the court.

A *Preliminary Special Master's Report and Recommendation* for this right was issued. No motion to alter or amend was filed and the time for filing such motions has now expired; therefore,

IT IS THEREFORE RECOMMENDED that subcase 57-02102 be decreed as recommended in the attached *Special Master's Report and Recommendation for Partial Decree*.

Dear Joseph Parkinson,

This letter is being written in response to the rights we looked at together on September 11, 1992 and response from the signing of Amended Claims in Western's Regional office September 18, 1992.

All of the above was in response from the notice of error received August 19, 1992.

The Departments standard seasons of use and volume amounts have been recommended for all the rights above with the exception of the prior Castle Creek decreed rights, that were decreed with a season of use of 4-1 to 10-15 in 1923 when the decree was finalized. The Department cannot recommend a longer season than what was previously decreed.

Copies of amended claims are enclosed that you filed Notice of Error on, reflect the Season of Use dates you requested, not the departments in most cases, this was done per your request in order to preserve your right to object to the Departments recommended standards, or to the total volume in which was also left off these amended claims for the same reason. New information that you gave that was not originally provided at the time of original field exams, either reduced or increased the acreage slightly, added or corrected points of diversion and most stockwater amounts that were not claimed by the original owner, in most cases were amended to show those amounts on the claims that you requested in the Notice of Error, received August 19, 1992.

Other claims such as 57-00076, 57-00138, 57-00226, 57-00227, 57-02027 and 57-04101 were recommended for disallowance because senior water rights cover these uses and are in excess and are therefore termed as no-beneficial use.

Claims 57-00229, 57-02156 and 57-02162 were not recommended, because these old rights were abandoned, with much overgrowth of sagebrush on the place of use.

OCT 17 1992
NOTICE of
Error Ltr
in 57 00046A

You may file an objection with the court for either season of use or volume amounts of the rights you filed a notice of error on with evidence as to why you feel a longer season of use is needed etc. The objection procedure will be explained completely when you receive copies of your water rights submitted to the court on October 1, 1992. This notification will be mailed at the same time the report is given to the court.

I look forward to completing all future claims with your input for Basin 55. If you have any questions concerning this letter and/or would like to look over or make copies any of the items we had previously amended, please feel free to contact me.

Sincerely,

Ron Howerton

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection item 8 and all allegations of the objection regarding this item IDWR responds as follows: The period of year during which this water right may be used is the irrigation season of use decreed for this right in Davey v. Brown (Ada Co. 3rd Dist. ID. 1923). Water may be used for irrigation outside the season of use, subject to the conditions set forth in general provision 13b of the director's report.

IDWR is without knowledge or information sufficient to form a belief as to the truth of the matter asserted in the "Reasons Supporting Each Box Checked" section of the objection and therefore denies the allegations of this section. IDWR denies the objection and all allegations of the objection not expressly admitted herein.

CHANGES TO THE DIRECTOR'S REPORT

The director proposes no changes to the description of this claim in the Director's Report.
