Dear Ms. McKee:

Enclosed are the two Notices of Claims to a Water Right we discussed in our phone conversation of Thursday, September 13. They are numbered A57-02165 and A57-02192.

On A57-02165 I added the diversion which was deleted when the claim was initially completed. On A57-02192 the second diversion point had an inaccurate legal description. I amended it to show the correct diversion point. Both claims are now consistent with the way they were decreed in the Reynolds Creek decree.

Please review these claims for accuracy and if they are correct, initial and date each change. The changes are highlighted. Return the initialed claims to my attention and when I receive these I will send you a copy of the corrected claims.

Dear Mr. and Mrs. McKee:

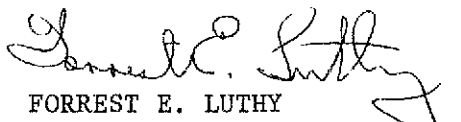

The Department has investigated your protest against the Preliminary Report of the Proposed Finding of Water Rights in the Reynolds Creek Drainage Basin. The Department finds that your water rights were misinterpreted in its Report and is willing to make the necessary corrections in its Proposed Finding to the Court.

The recommendation for your claims on page 5 of the Report should appear in the Proposed Finding as they appear on the attached page.

If you find the corrections satisfactory, please sign one copy of the enclosed letter and return it. The signed letter will withdraw your protest. Withdrawing your protest to the Preliminary Report will in no way prevent you from filing an objection to the Proposed Finding when it is filed with the Court should you find it necessary to do so.

Also enclosed are your copies of the aerial photos which you furnished earlier. Thank you for helping the Department in making a more accurate Proposed Finding. If you have any questions, please contact us.

Sincerely,

FORREST E. LUTHY
Senior Water Resource Agent

Dear Sir:

I wish to file a protest to your Preliminary Report of the Reynolds Creek Adjudication. The report recommends a total of 67 acres for my two water rights. I believe there are substantially more acres. I will supply a map verifying the larger number.

Sincerely,
