As stated in the face of each **Order**, this action was necessary following the decision of the Idaho Supreme Court in *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998). The **Order** also incorporates into the **Partial Decrees** an express statement that each **Partial Decree** is subject to such general provisions necessary for the definition or for the efficient administration of the water right. This express statement is necessary to comply with the requirements of Idaho Code section 42-1412(6). These **Orders**, in combination with the **Partial Decrees** that were issued for these water rights on December 12, 1996, set forth all of the elements of your water rights. The Snake River Basin Adjudication (SRBA) Court suggests that you keep these documents in a safe location together with a copy of each **Partial Decree** to show evidence of these water rights. The original of these **Orders** and the original of each **Partial Decree** for these water rights are on file with SRBA Court. If you do not have a copy of the original **Partial Decree**, one can be obtained by contacting the SRBA Court at (208) 736-3011. Please note that the **Orders** are entered **Nunc Pro Tunc**, meaning that the **Orders** will be treated as if they were issued on the same date that the **Partial Decrees** were originally issued.

Sincerely,

Diana Delaney

	)	PROVISIONS, <i>NUNC PRO TUNC</i>

A *Partial Decree* was entered for the above-captioned irrigation water right on December 12, 1996. The period of use element was decreed as "irrigation season." In *A&B Irrigation Dist. v. Idaho Conservation League*, 131 Idaho 411, 423, 958 P.2d 568, 580 (1998), the Idaho Supreme Court remanded with the directive to include specific dates for the period of use element. Following remand, on July 26, 1999, IDWR filed a *Supplemental Director's Report, Reporting Area 2, IDWR Basin 57, Regarding Revision of Period of Use (For Irrigation Water Uses) and Conjunctive Management General Provisions*, which included an irrigation period of use recommendation for this water right. No objections were filed to this *Supplemental Director's Report*.

THEREFORE, IT IS ORDERED that the period of use element for the irrigation portion of the above-captioned water right is hereby amended and decreed as:

PERIOD OF USE: 03-01 to 11-15

IT IS FURTHER ORDERED that the *Partial Decree* for the above-captioned water right is hereby amended and decreed to contain the following:

This partial decree is subject to such general provisions necessary for the definition of the rights or for the efficient administration of the water rights as may be ultimately determined by the court a point in time no later than the entry of a final unified decree. I.C. section 42-1412(6).

This order is being entered *nunc pro tunc* as of the date the *Partial Decree* was issued and is not intended to modify subsequent administrative changes for the water right, if any, which occurred following entry of the *Partial Decree*.

RULE 54(b) CERTIFICATE

With respect to the issues determined by the above judgment or order, it is hereby CERTIFIED, in accordance with Rule 54(b), I.R.C.P., that the court has determined that there is no just reason for delay of the entry of a final judgment and that the court has and does hereby direct that the above judgment or order shall be a final judgment upon which execution may issue and an appeal may be taken as provided by the Idaho Appellate Rules.

In response to Statement of the Objection items ^{1,2,12a} 12 and ~~12b~~ and all allegations of the objection regarding these items IDWR responds as follows: IDWR is informed and therefore believes that the United States holds an Oregon water right for the storage of water pursuant to Oregon law in the Owyhee Reservoir. IDWR further recognizes that this water is diverted and stored in Oregon, transported by canal into Idaho, injected into and rediverted from Succor Creek and then put to beneficial use in Idaho. The director's report acknowledges the use of natural channels in Idaho for the conveyance of stored water diverted in other states in general provision 7. IDWR denies the objection and all allegations of the objection not expressly admitted herein.

The source of the contested right is Jump Creek.
Water stored in Owyhee Reservoir is not
conveyed in the natural channel of Jump Creek.

FINDINGS OF FACT

A notice of claim was filed for this water right to pursuant to I.C. § 42-1409(1990). The director of the State of Idaho Department of Water Resources (IDWR) examined the water system for Reporting Area 1 and investigated and abstracted the notices of claim for Reporting Area 2 (Basin 57), which includes portions of Owyhee County. The Director of the Idaho Department of Water Resources then filed a *Director's Report for Reporting Area 57 (Director's Report)* which asserted how the elements of this water right should be decreed by the court.

An objection to the *Director's Report* for water right 57-02177 was filed on February 26, 1993, by the United States Bureau of Reclamation. A response to the objection was filed on July 1, 1993 by the State of Idaho Department of Water Resources.

On February 16, 1996, the United States and GEM Irrigation District filed *Parties' Stipulation to Consolidate Subcases*. An *Order Consolidating Subcases (Order)* was issued February 21, 1996, the *Order* consolidated subcases 57-02118, 57-02177, 57-04104, 57-10854, 57-10912, 57-10913 and 57-10807.

On April 3, 1996, the parties, the United States Bureau of Reclamation, and GEM Irrigation District filed a *Stipulation to Dismiss Objection and Dismiss the United States as a Party (Stipulation)*, which stated in part: "[t]he parties further agree that the water right filed by the United States on behalf of the Bureau of Reclamation, Subcase No. 57-02177, should be decreed as recommended." *Stipulation*, ¶ 7. Subsequently, the United States' objection was dismissed. *Order Dismissing Objections*, Apr. 8, 1996. On April 10, 1996, the United States' and GEM Irrigation filed *Parties' Stipulation to Amend Prior Stipulation to Dismiss Objection and Dismiss the United States as a Party*, which further clarified the parties' intent that water right 57-02177 should be decreed.

CONCLUSIONS OF LAW

Under *SRBA Administrative Order 1*, a Special Master is required to make a recommendation to the Presiding Judge as to whether and how a water right should be recommended for each subcase.

Under I.R.C.P. 41, an action may be dismissed with prejudice by stipulation or court order. The record on file for this subcase, particularly the *Stipulation to Dismiss Objection and Dismiss United States as a Party*, clearly establishes the intent of the parties that this subcase be decreed as recommended.

Therefore, based on the file and record herein, IT IS RECOMMENDED that subcase 57-02177 be decreed as recommended in the *Preliminary Special Master's Report*.

IT IS SO RECOMMENDED.

DATED February 9, 1996.

FINDINGS OF FACT

A notice of claim was filed for this water right to pursuant to I.C. § 42-1409(1990). The director of the State of Idaho Department of Water Resources (IDWR) examined the water system for Reporting Area 1 and investigated and abstracted the notices of claim for Reporting Area 2 (Basin 57), which includes portions of Owyhee County. The Director of the Idaho Department of Water Resources then filed a *Director's Report for Reporting Area 57 (Director's Report)* which asserted how the elements of this water right should be decreed by the court.

An objection to the *Director's Report* for water right 57-02177 was filed on February 26, 1993, by the United States Bureau of Reclamation. A response to the objection was filed on July 1, 1993 by the State of Idaho Department of Water Resources.

On February 16, 1996, the United States and GEM Irrigation District filed *Parties' Stipulation to Consolidate Subcases*. An *Order Consolidating Subcases (Order)* was issued February 21, 1996, the *Order* consolidated subcases 57-02118, 57-02177, 57-04104, 57-10854, 57-10912, 57-10913 and 57-10807.

Subsequently, the United States' objection was dismissed. *Order Dismissing Objections*, Apr. 8, 1996. REASONS SUPPORTING EACH BOX CHECKED

In the space following, you must state the reason(s) by number for each box checked. You may use additional pages if necessary.

Box 1: The United States may be the appropriate holder of title of all or a portion of this "right" recommended to the irrigation district.

Box 2: The source of a portion of this "right" may be the Owyhee River.

Box 11, 12(a): The United States of America, acting through the Regional Director, PN Region, USBR, objects to this water right recommendation because it may involve some or all of water associated with U.S. claim 57-10807 which was erroneously not recommended. That claim is based upon storage of water pursuant to Oregon law in the Owyhee Reservoir, which water is released and transported via canal over the Idaho state line for discharge into Succor Creek, from which it is subsequently rediverted for district use pursuant to federal contract. The United States should be recognized as retaining title to the waters originating from the Owyhee Reservoir through their rediversion from Succor Creek to the district. The United States requires recognition of its rights to be assured that Owyhee Reservoir water transported through Succor Creek is not decreed or administered as if it were natural flow subject to any sort of adverse appropriation in Idaho. The United States must be recognized as title holder of record to U.S. claim 57-10807 in order to be assured of notice of state activities concerning Owyhee Reservoir waters and to participate in their protection for project purposes. This claim must be reconciled with U.S. claim 57-10807.

CHANGES TO THE DIRECTOR'S REPORT

Specifically describe how you want the Director's Report to be changed. You may use additional pages if necessary.

The report should explicitly recognize the United States' interest in certain waters imported to Idaho from the Owyhee River and the Owyhee Reservoir.

Please note: You should attach copies of documents which support your objection. Note on each document the "box number" it supports.

Comments: Date: 10/31/1991 User-ID: SHURTE Subject: REASON FOR DISALLOWAL-P.D. NOT USED. DURING THE FIELD EXAM FOR GEM IRRIG. DIST. CLYDE HUTTON INFORMED US THAT THE P.D. FROM JUMP CREEK COVERED BY THIS OLD LICENSE HAS NOT BEEN USED FOR MANY YEARS. THE LAND COVERED UNDER THIS LICENSE/CLAIM IS IRRIGATED BY GEM'S SNAKE RIVER DIVERSIONS. THEREFORE, THIS CLAIM IS BEING DISALLOWED DUE TO ABANDONMENT OF THE P.D. FROM JUMP CREEK.

Date: 09/19/1992 User-ID: SHURTE Subject: RECOMMENDATION CHANGED
ORIGINALLY THIS WAS RECOMMENDED AS DISALLOWED BECAUSE CLYDE
HUTTON OF GEM IRR. DIST(GID) INFORMED US DURING INITIAL EXAMS
THAT THIS RIGHT WAS NO LONGER USED. WHEN THE PRR WENT OUT THEY
REALIZED THAT THE 8 CFS FOR JUMP CREEK UNDER 57-02118 WAS NOT
SUFFICIENT FOR THE ACRES IRRIGATED PLUS THEY DIVERT MORE THAN 8
CFS FROM THEIR DIVERSION UNDER THAT RIGHT. THEREFORE, THIS RIGHT
HAS BEEN TRANSFERRED TO THE SAME PD AS 57-02118, THAT DITCH WAS
MEASURED AND THE TOTAL CFS IS OVER AND ABOVE ADEQUATE ENOUGH TO
JUSTIFY ADDING CFS FROM THIS RIGHT FOR THAT DIVERSION. THE TOTAL
CFS FOR BOTH JUMP CREEK RTS FROM THIS P.D. IS 14.25 CFS FOR 712.6
ACRES OR 1" PER ACRE. THIS RIGHT IS RECOMMENDED FOR 6.25 CFS AND
57-02118 IS FOR 8.0 CFS.

REMARKS:

POD changed to the POD on 57-02118 - when the p.d. was no longer used, the water transferred to the other p.d. from Jump Creek covered by 57-02118. The ditch for 57-02118 can hold 40 cfs + and only 8 cfs licensed. With this right transferred total that can be diverted is 14.25 cfs or 12.6" or 1" per acre irrigated by the ditch from Jump Cr. Original recommendation was to disallow due to P.D. no longer used. Then, GID realized only 8.0 cfs was allowed for the one Jump Cr. diversion & since much more is being diverted, this right is being recommended with a P.D. change.

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

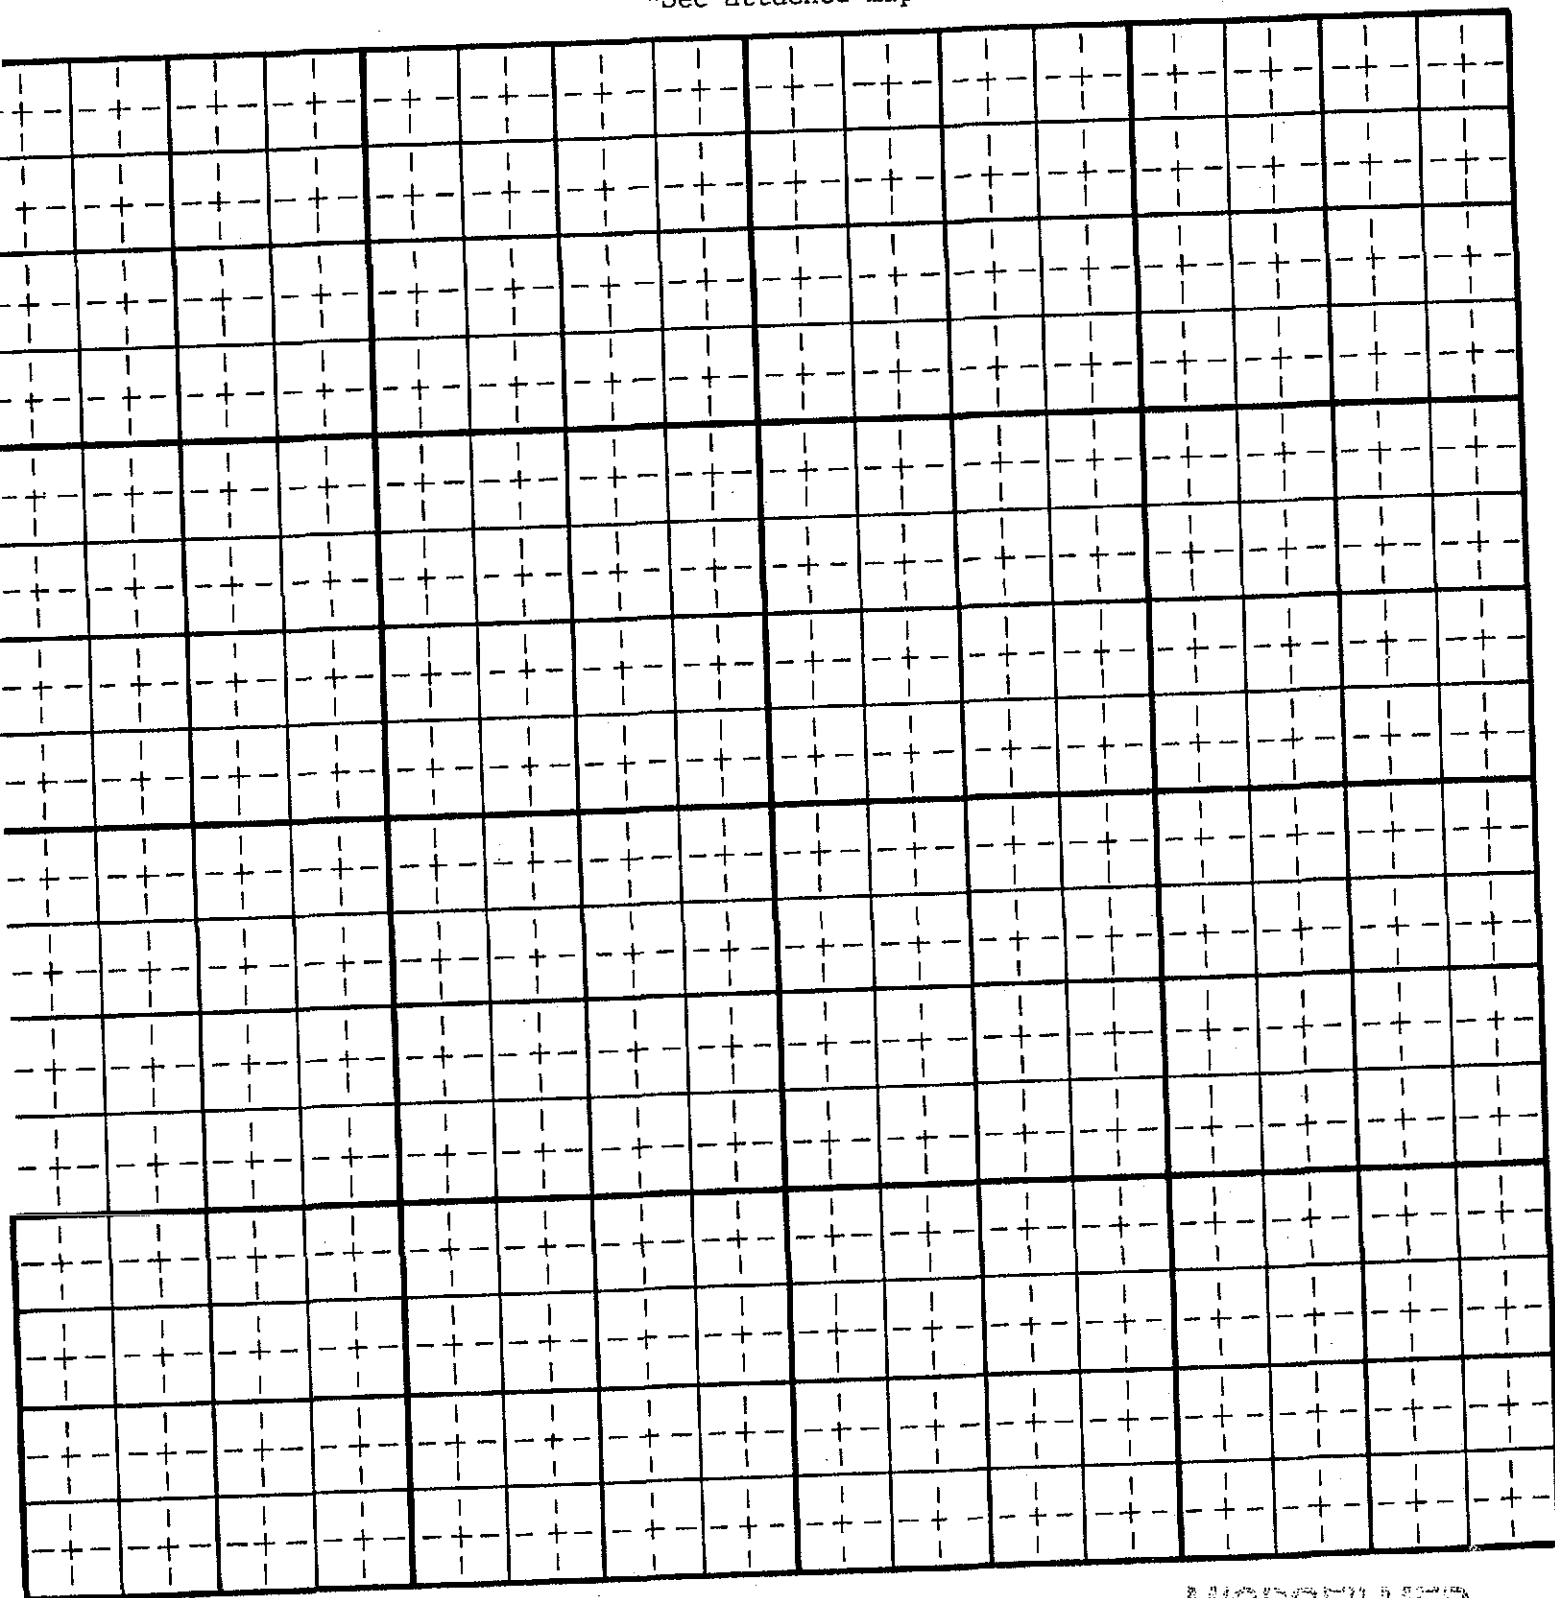

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.
