STATE OF IDAHO
DEPARTMENT OF RECLAMATION
BOISE, IDAHO
REPORT OF ENGINEER

Permit No. 21592

This proof is for Beneficial Use

In Water District No.

1. Name of applicant: A. L. Clark, Box # 25, Marsing, Idaho

2. Source of water supply: Five artesian wells

3. Location of point of diversion: Is in the NEANEA Sec. 2, NEANEA & of Section 1

T. 1 N. R. 4 W. County of Owyhee

4. Describe works as they exist, giving dimensions and capacities of same: This a group of artesian wells drilled by the owner several years ago in an attempt to get irrigation water. Thw all have 3" casing down to blue shale. Well # 2 & 3 are each 1130' deep. # 4 is only 600' deep. tools were lost in the hole. The other wells are each 1140' deep. Well # 1 & 5 are used for irrigation, the water being dumped into and mixed with the regular water. # 5 is also used for the household. All wells are used for stock water. # 1 & 5 have considerable gas coming up with the water. Clark says it is natural gas and will burn. At one time an attempt was made to pipe the gas from well # 5 into the house for cooking and heating purposes. It was not satisfactory. Water is used for Irrigation & domestic purposes.

5. State whether or not water has been turned into works of diversion: Yes

7. List legal subdivisions of lands to be irrigated. If proof is for beneficial use, give exact number of acres under cultivation in each forty-acre tract. (Describe manner and place of use if other than irrigation)

SW NE 1/4, NE 1/4 NW 1/4, NW 1/4 NW 1/4 Section 1, Twp. 1 N., Range 4 W. R. M.

(Submit map on attached plat, showing location and details of above description.)

8. What large stream would the water here appropriated finally reach? Snake River

Remarks: When these wells and some by a neighbor to the East were drilled the old springs against the foothills to the South where the Indians had camped and bathed for years in past generations dried up and have never flowed since. Clark said it had been at least 50 years ago.

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

QUITCLAIM DEED

For Value Received, Everett L. Clark, dealing with his sole and separate property, hereinafter called the First Party, does by these presents remise, release and forever QUITCLAIM, unto Mary E. Corbridge, Marguerite M. Avichouser and Patricia A. Daniel, as equal tenants in common and as their sole and separate property, hereinafter called the Second Party, and to Second Partys heirs and assigns, all title which first party now has or may hereafter acquire, in the following described real property, situated in Owyhee County, State of Idaho, to-wit:

A portion of Lot 3 of Section 1, Township 1 North, Range 4 West of the Boise Meridian in Owyhee County, Idaho;

Commencing at the Northeast corner of said Lot 3 and running South along the easterly boundary line of said Lot 3 a distance of 514 feet; thence West and parallel to the North boundary line of said Lot 3 a distance of 440 feet; thence North and parallel to the easterly boundary line of said Lot 3 a distance of 514 feet more or less to a point in the northerly boundary line of said Lot 3; thence easterly along the North boundary line of said Lot 3 to the point of commencement.

Together with all water and ditch rights and rights of way for water and ditches appurtenant thereto.

First Party does hereby convey any and all right, title and interest, either contingent or vested and however arising, in and to the above-described real property that First Party may now have or may hereafter acquire.

TO HAVE AND TO HOLD, ALL and singular the said premises, together with any appurtenances thereto, unto the Second Party, and to Second Party's heirs and assigns forever.

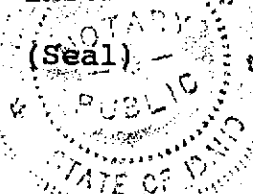

IN WITNESS WHEREOF, The said First Party has hereunto set First Party's hand and seal this 2 day of October, 1995.

Everett L. Clark

* The previous exam indicated 5 wells were in usage. They were numbered 1-5. Well nos 1 & 5 were used for irrigation & 2, 3 & 4 were used for stock. These wells are not hooked together. This property used to be owned by one individual & has since been split. The only well used on this property is well no. 5. The usage is consistent with the earlier field exam which indicated domestic & irrigation. Well nos 2, 3 & 4 have been abandoned. Well no. 1 is appurtenant to A57-02197B. I was able to locate well #4; but not 2 & 3. This information has been forwarded to Rob Whitney for his review.

SYSTEM DESCRIPTION ATTACHMENT TO CLAIM VERIFICATION REPORT

CLAIM NO. A57-02197A

System consists of one deep artesian, hot water well. Water temperature is 120 degrees farenheit. Water flows to home and shop. It is also used at the home and shop for heating purposes. 1 1/4" pipeline used for heating purposes. The water also flows to a 100 gallon (approximately) barrel. There is a 1/2 hp pump in the barrel. From the barrel the water flows by means of PVC pipe to lawn and front pasture for irrigation. The system can be shut down to home &/or irrigation usage. There is a pressure tank in the home with a capacity of approximately 10 gallons. The irrigation is by means of sprinkler. At the time of the field exam on May 1, 1991, 7 sprinklers were in use for the irrigation of the lawn. Nozzle size was 5/32 with a pressure of 20.

License 57-02197 indicates a place of use in the NE 1/4 of section 2, T1N, R4W. This may be a clerical error as the field examiners notes show irrigation in the NE NW & SW NE, all in section 1, T1N, R4W. The number of acres irr. were not listed on the license but are in the field examiners notes.

REMARKS:

This claim based on 2 57-2197. At the time the flow of 0.10 cfs was the total of all 5 wells shown on 1951 field exam. Only two of those 5 wells are presently used. The flow from those are the same now as they were then.

RE: NOTICE OF CLAIM NO: A57-02197A

Dear Mr. Clark:

We are currently in the process of preparing the above referenced Notice of Claim for court decree in the Snake River Basin Adjudication. During this review certain questions arose concerning the claims listed above. All claims with an A57 prefix number are being reviewed at this time. If you filed other claims with yet a different prefix for the claim number, such as A02, A51 or A55, please be advised that these claims will be reviewed at a later date. The following claims require the information or changes listed:

In our initial investigation of this claim it appears that there has been a change in the nature of use from the point of diversion which was shown on the original water right. The report of the field examiner indicates that there were initially five wells used as the point of diversion and that only those wells located in the SW1/4NE1/4 of section 1 and the NE1/4NE1/4 of section 2, T1N, R4W were used for irrigation. The remaining 3 wells were used for stockwatering.

Your claim also indicated that the wells are used for heating of your home and barn. Again, the examiners field report indicated that the well above was not satisfactory for domestic heating purposes and also did not mention a heating usage for the barn. Your claim; however, does mention that the heating of the barn took place approximately 10 years after the completion of the licensing exam. Also, a second claim has been filed by Mr. Hazen based on the same water right and showing the same place of use.

Based on the information discussed above, please submit the following data:

1. Proof of ownership of the place of use listed in Notice of Claim, A57-02197A.
2. Evidence substantiating the usage of heating for the barn.
3. Information regarding the changes in use for the points of diversion.

They added heating of house & barn to this right. Field examiner indicated at time of exam they tried to heat the home but was not satisfactory. Now in claim he indicated a heating usage for house & barn w/ house being heated at time of exam & barn 10 yrs. later.

QUESTION? Does this require a 2nd claim for heating of barn? Home? How to refer to usage.

Also Total quantity for both claims comes to more than license. Plus! both filed on same 26 acres. Claimant contact letter or phone call.

Is a field exam necessary.
7-25-90. Per Jo Beeman. Since the report indicated the heating of the home unsatisfactory - another claim would be necessary w/ a different priority for the domestic heating - possibly the same time as heating of the barn if they occurred at the same time.
