NOTE: If acres found by examiner were moved over to the west one quarter quarter it would match acres now irrig. by the well. It appears that the field examiner may have checked only the well - since it was originally on this permit & found the acres irrig. by the well & did not check the acres irrig. by Handtriggers Creek since orig. owner says no change in POW has occurred.

Dear Mr. Jensen:

I am in receipt of the Notice of Error you filed on August 19, 1992, for Notice of Claim No. A57-02200.

In the Notice of Error you indicate that the diversion point for the ditch that irrigates the lawn around your home is actually further south in the NW1/4 NE1/4, Sec. 30 rather than the SW1/4 SE1/4, Sec. 19 as recommended. The reason I recommended the point of diversion in the SW1/4 SE1/4, Sec. 19 was due to your visit to my office on November 12, 1991, in response to my letter dated November 6, 1991, in which I had a question concerning the actual location of the ditch for your lawn irrigation. My notes show we located it on a map as being in the SW1/4 SE1/4, Sec. 19 and only the point of diversion for the 40 acres of irrigation was in the NWNE, Sec. 30. However, I could have misunderstood and located the point of diversion incorrectly, therefore, both points need to be clarified.

I am enclosing two map copies. One is a copy of the ASCS map of this area showing where both points of diversion were for my recommendation. Also enclosed, is a copy of a larger map area to show my recommended points of diversion along with where you indicated the lawn irrigation ditch should be. Please review these maps and let me know which points are correct. Feel free to either return the map indicating the correct points of diversion, or come into the office to discuss this matter. Please respond no later than September 21st as our report is due to the court on October 1, 1992.

Sincerely,

Jan Shurte

Dear Mr. Jensen:

In the process of preparing your claims for recommendation to the Court for decree, a question came up that Kay Walker and I failed to ask you while conducting our exam on your Hardtrigger Creek claims.

On both claims for Hardtrigger Creek a point of diversion in the SW1/4SE1/4, Sec. 30, Twp. 1N, Rge. 3W, is mentioned. However, when we were conducting our exam, only a point of diversion in the NW1/4NE1/4, Sec. 30 was noted. I am enclosing a map which shows the location of the point of diversion we looked at (marked in red), and the point of diversion in question (marked in green). Do you use both points of diversion for irrigation? The original license for Hardtrigger Creek shows only the point of diversion in the NW1/4NE1/4, Sec. 30. Also, a domestic use is listed on one of the Hardtrigger Creek claims. It appears to be used for irrigation of a yard around your mobilehome. However, when we were out there no irrigation was evident, but that could have been due to the drought. Have you ever irrigated a yard area around your mobilehome with Hardtrigger Creek water? Everything else looks fine on your claims, both for Hardtrigger Creek and your well rights. Before I can make recommendations on your rights, however, I need the above information.

This report is due for review by the State Office on November 15, 1991, so if you could respond to these two questions prior to that time, I would appreciate it. Feel free to call or write with any questions or a response.

Sincerely,

RE: Claims filed in the Snake River Basin Adjudication

Dear Claimants:

The Department of Water Resources is now conducting beneficial use and water right claim verification examinations in your area. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, due to the oncoming winter months, we request that you contact our office at (208)334-2190 within two weeks to make an appointment at a time convenient for you.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be appreciated.

In some cases, the date of priority also needs to be verified. Recently, letters were sent to some claimants notifying them that evidence of the date of first use of their water right(s) was required. If you received one of these letters and have questions, we can address those during our examination.

If you have any questions or problems with the exam verification, please call within the two week period.

Sincerely,

KAY WALKER
Water Resource Agent
