HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

6. Water is claimed for the following purposes:

(both dates are inclusive)

(cfs)

(acre feet)

For Irrigation purposes from 3/15 to 11/15 amount 2.0 or 500

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

For _____ purposes from _____ to _____ amount _____ or _____

7. Total quantity claimed (a) 2.0 (cfs) and/or (b) 500 (acre feet)

8. Total consumptive use claimed is 350 acre feet per annum.

9. Non-irrigation uses; describe fully (eg. Domestic: Give number of households served; Stockwater: Type and number of livestock Etc.) None

10. Description of place of use:

a. If water is for irrigation, indicate acreage in each subdivision in the tabulation below.

b. If water is used for other purposes, place a symbol of use (example: D for Domestic) in the corresponding place of use below. See instructions for standard symbols.

TWP	RNG	SEC	NE 1/4				NW 1/4				SW 1/4				SE 1/4				Totals
			NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	NE1/4	NW1/4	SW1/4	SE1/4	
5S	3E	22													5	40		5	50
5S	3E	27			20	30													50

Total number of acres irrigated 100

11. In which county (ies) are lands listed above as place of use located? Owyhee

12. Do you own the property listed above as place of use? Yes X No _____

If your answer is No, describe in Remarks below the authority you have to claim this water right.

13. Describe any other water rights used at the same place and for the same purposes as described above.
57-2274; 57-2264; 57-2234; 57-2324 or None ()

14. Remarks:

Last Name Draper Ident No. _____

MICROFILMED

Copies: White-Santa-Yell Claimant
OCT 07 1992

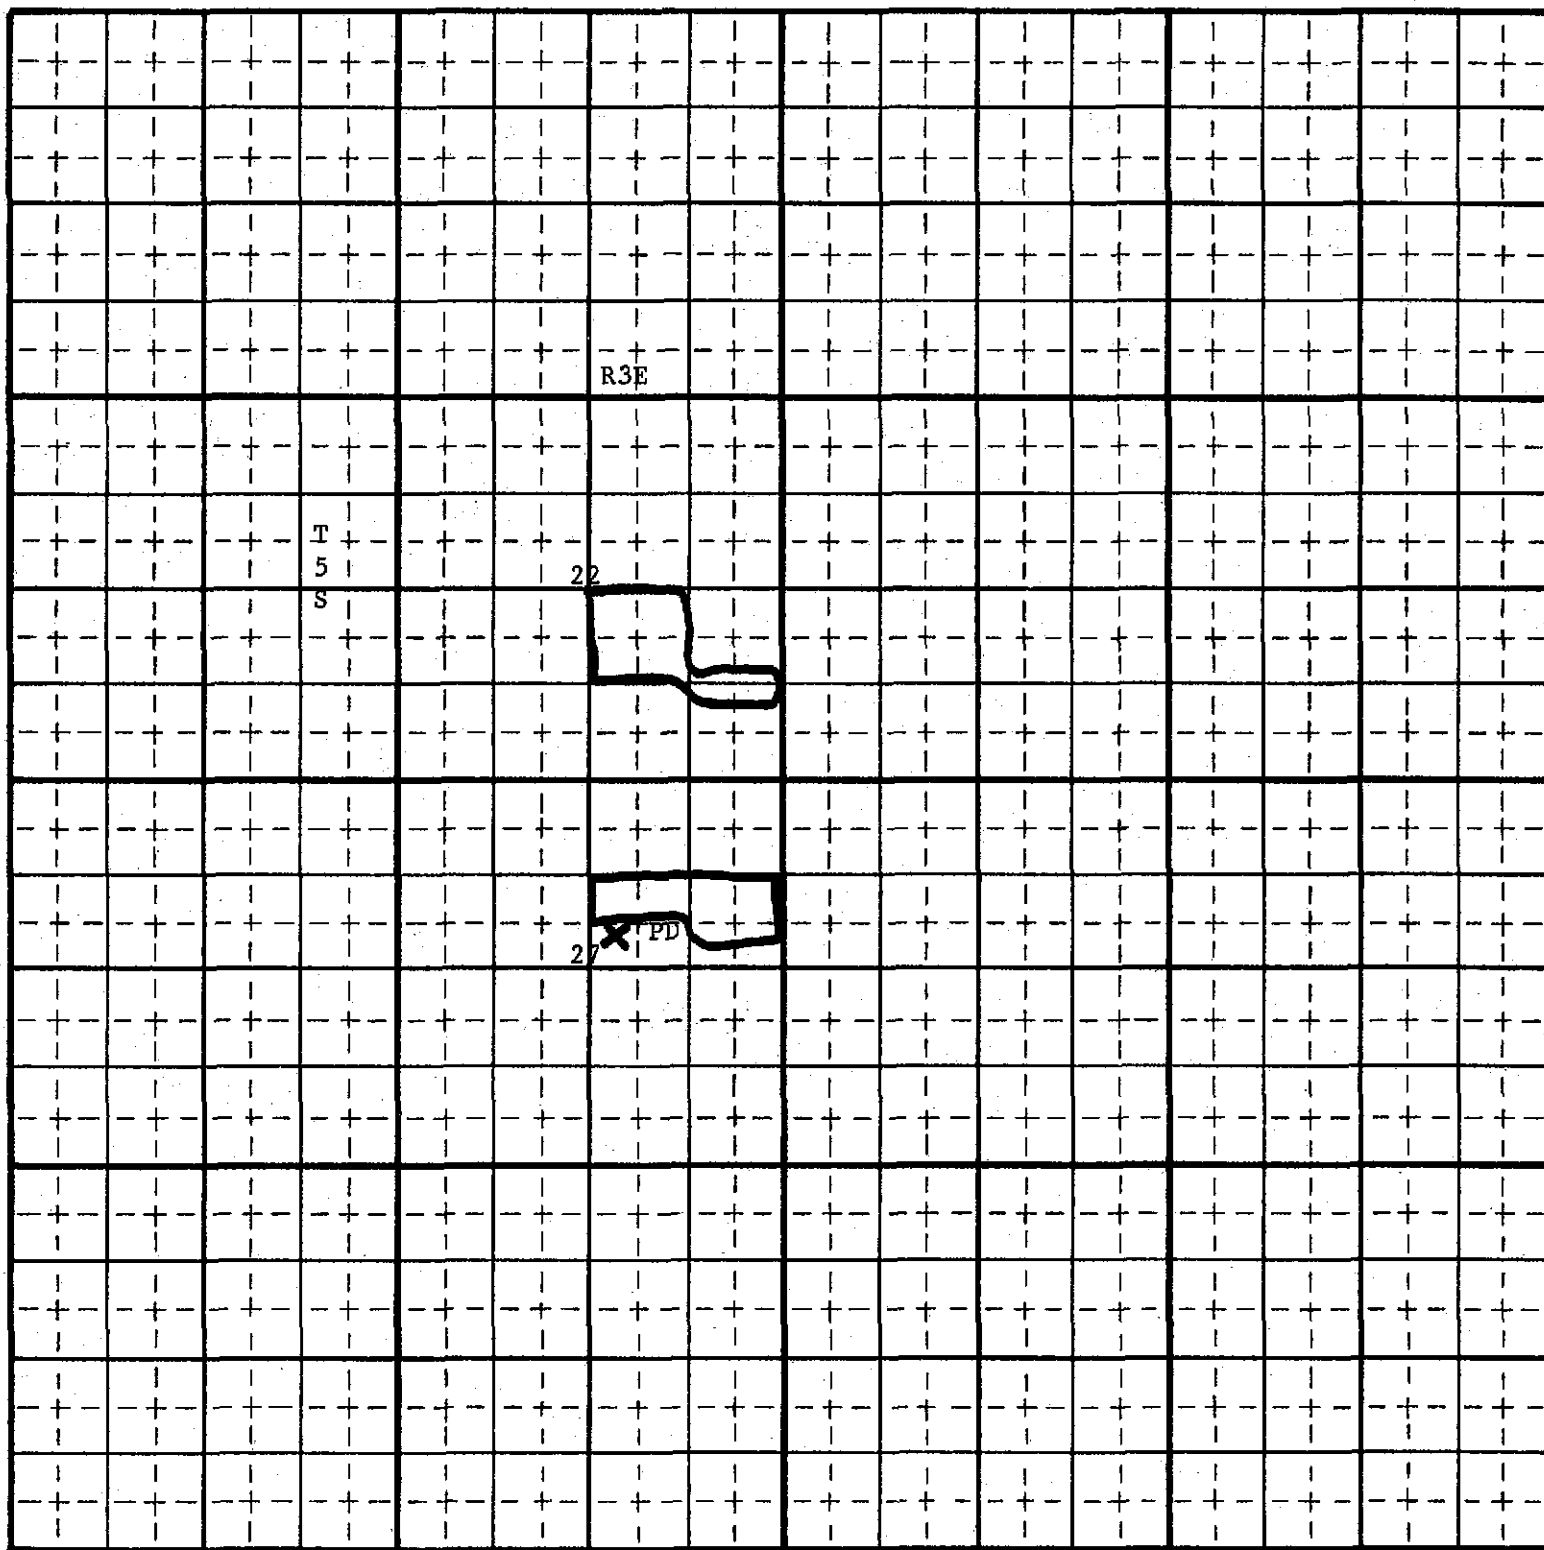

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

RE: Permit and/or Adjudication Claim No.s A57-02224-02234

02234A-02264-02274-02324-04108

Dear Claimant(s):

The Department of Water Resources will be conducting beneficial use examinations and water right adjudication claim verification examinations for Owyhee County from July thru November 1990. Once the beneficial use examination or claim verification is made, your water rights will be recommended for licencing by the department or decree by Judge Hurlbutt in the Fifth District Court. The recommendations will be based on our findings in the field.

Information on your permit or claim that may need to be verified, includes source(s) of water, uses and amounts, legal descriptions of point(s) of diversion, place of use and in some cases documentation verifying the date of priority as claimed in the Snake River Basin Adjudication. Some of your claims may only need a small amount of verification if there are no changes in the manner in which they were previously documented and examined in accordance with the State's permitting, licencing and/or decree process.

Although it is not mandatory that you accompany the field examiner, should questions arise during the exam, it would be most helpful for yourself or a knowledgeable representative to be available for a short time during the field exam. This would help speed up our findings and help collect information for your rights to be recommended to the court.

A field examiner will be calling or writing you for the scheduling of this (these) field exam(s). We can either meet you at the place of use or a place of your convenience. This may be determined at the time we contact you.

If you have questions regarding this letter or prior to scheduling, please call 334-2190 and ask for either Steve Lester or Ron Howerton.

Sincerely,

Ron Howerton

Senior Water Resource Agent

R

A. IRRIGATION

1. All irrigated land also receives Snake River water via Bybee's gravel lined Mutual Canals. All sources can be combined & applied to any of the acres.

2. WELLS

a) Hot artesian wells #1 & #2 in SWNW 5.26 can deliver water into a drainage ditch that runs north along east side of Rwy 78 & dumps into g.v. mutual Canal in NWSE 5.22. Water is withdrawn from canal in NWSE 5.22 via 100 hp. booster into mainline for sprinkler irrigation. Water can also go from mainline to cement & earth ditches for gravity irrigation. Both wells can deliver water to a feeder ditch that runs into drainage ditch. (No meas. device found in front of Reservoir)

b) Hot artesian well #3 flows via ~12" pipe directly into Bybee Canal in SWSE 5.35 & hence to Bybee Reservoir in SWNE & NWSE 5.34. From the reservoir, combined water can be pumped north through 12" pipe to cement ditch & then to south end of irrigated land. Cement ditch ends at booster pump in NWSE 5.27. Water can be pumped into mainline or go to earth ditches from cement ditch.

c) Hot artesian well #4 in SWNE 5.27 (same well as Bens AS7-10442) can be used in irrigation. It used to have a booster pump at well & cement ditch delivery system. Now, an earth ditch runs from the well N. & then E. to a buried line that runs e. into fish pond in SESE 5.27. This well can serve as a backup well for irrigation if needed? [8/30/91: DO NOT INCLUDE THIS P/D IN IRRIGATION - WELLS 1-3 ARE NOW THE IRRIG. WELLS]

3. Surface water other than Snake River

a) Shoofly Creek is combined with an unnamed stream in the on-stream storage at Tate Reservoir in S¹/₂NE¹/₄ 5.2. Water is released from one of 2 outlets into Shoofly Cr. & for unnamed stream that joins Shoofly just downstream from reservoir. Combined reservoir water is withdrawn from Shoofly Cr. & injected into Bybee Canal in NWSE 5.2 via a diversion

continued

* Also, combined reservoir water can be injected into Twentymile gulch (at revised route) in SESE 5.34. This injected & combined water is injected into SWSE 5.35.

MICROFILMED

SYSTEM DESCRIPTION ATTACHMENT TO CLAIM VERIFICATION REPORT

CLAIM NO. DRAPER, CONT.

ditch & 5' weir. No measuring devices were noted at input & output points of reservoir. Water can also bypass the diversion ditch & continue downstream to be withdrawn via a second diversion ditch & injected into the G.V. Mutual Canal in SWNE (withdrewn) & NWNE (injection) S. 35. This conveyed water is withdrawn from G.V. Mut. Canal in NWSE S. 22 as noted in item A2a.

b) unnamed stream is the other portion of the water impounded in Tate Reservoir. No IDWA Dam Safety records were found for this reservoir. Owner estimates average depth at 10'.

c) Twentyone gulch (locally known as Twentyone Creek) is used although no normal diversion works exist. The gulch route was revised just W. of Bybee Canal in S. 34. The gulch now crosses the canal via 2 pipelines in NWSE S. 34 & runs east to join Shoofly Cr. in SWSE S. 35 (pt. of injection of Twentyone into Shoofly Cr. & also point where return flow from Bybee Res. can be injected via Twentyone into Shoofly). Twentyone water can empty into Bybee Canal in NWSE S. 34 via a small ditch near the pipes crossing on the canal (pipes = the gulch route, join two segments of gulch ditch together). Thus, Twentyone gulch can enter Bybee Reservoir or can enter Shoofly Cr. & in both cases can be utilized in the irrigation system. The revision of the gulch route plus addition of pipes & small ditch constitute diverting works.

B. NON-IRRIGATION

1. HEATING occurs at Draper home (pln in A57-10579), 1 home just N. of well #2, 1 home W. of wells 1 & 2, 1 trailer between wells 1 & 2 & fish pond, 1 shop, and the greenhouse that covers $\pm 1/2$ acre, and a barn.

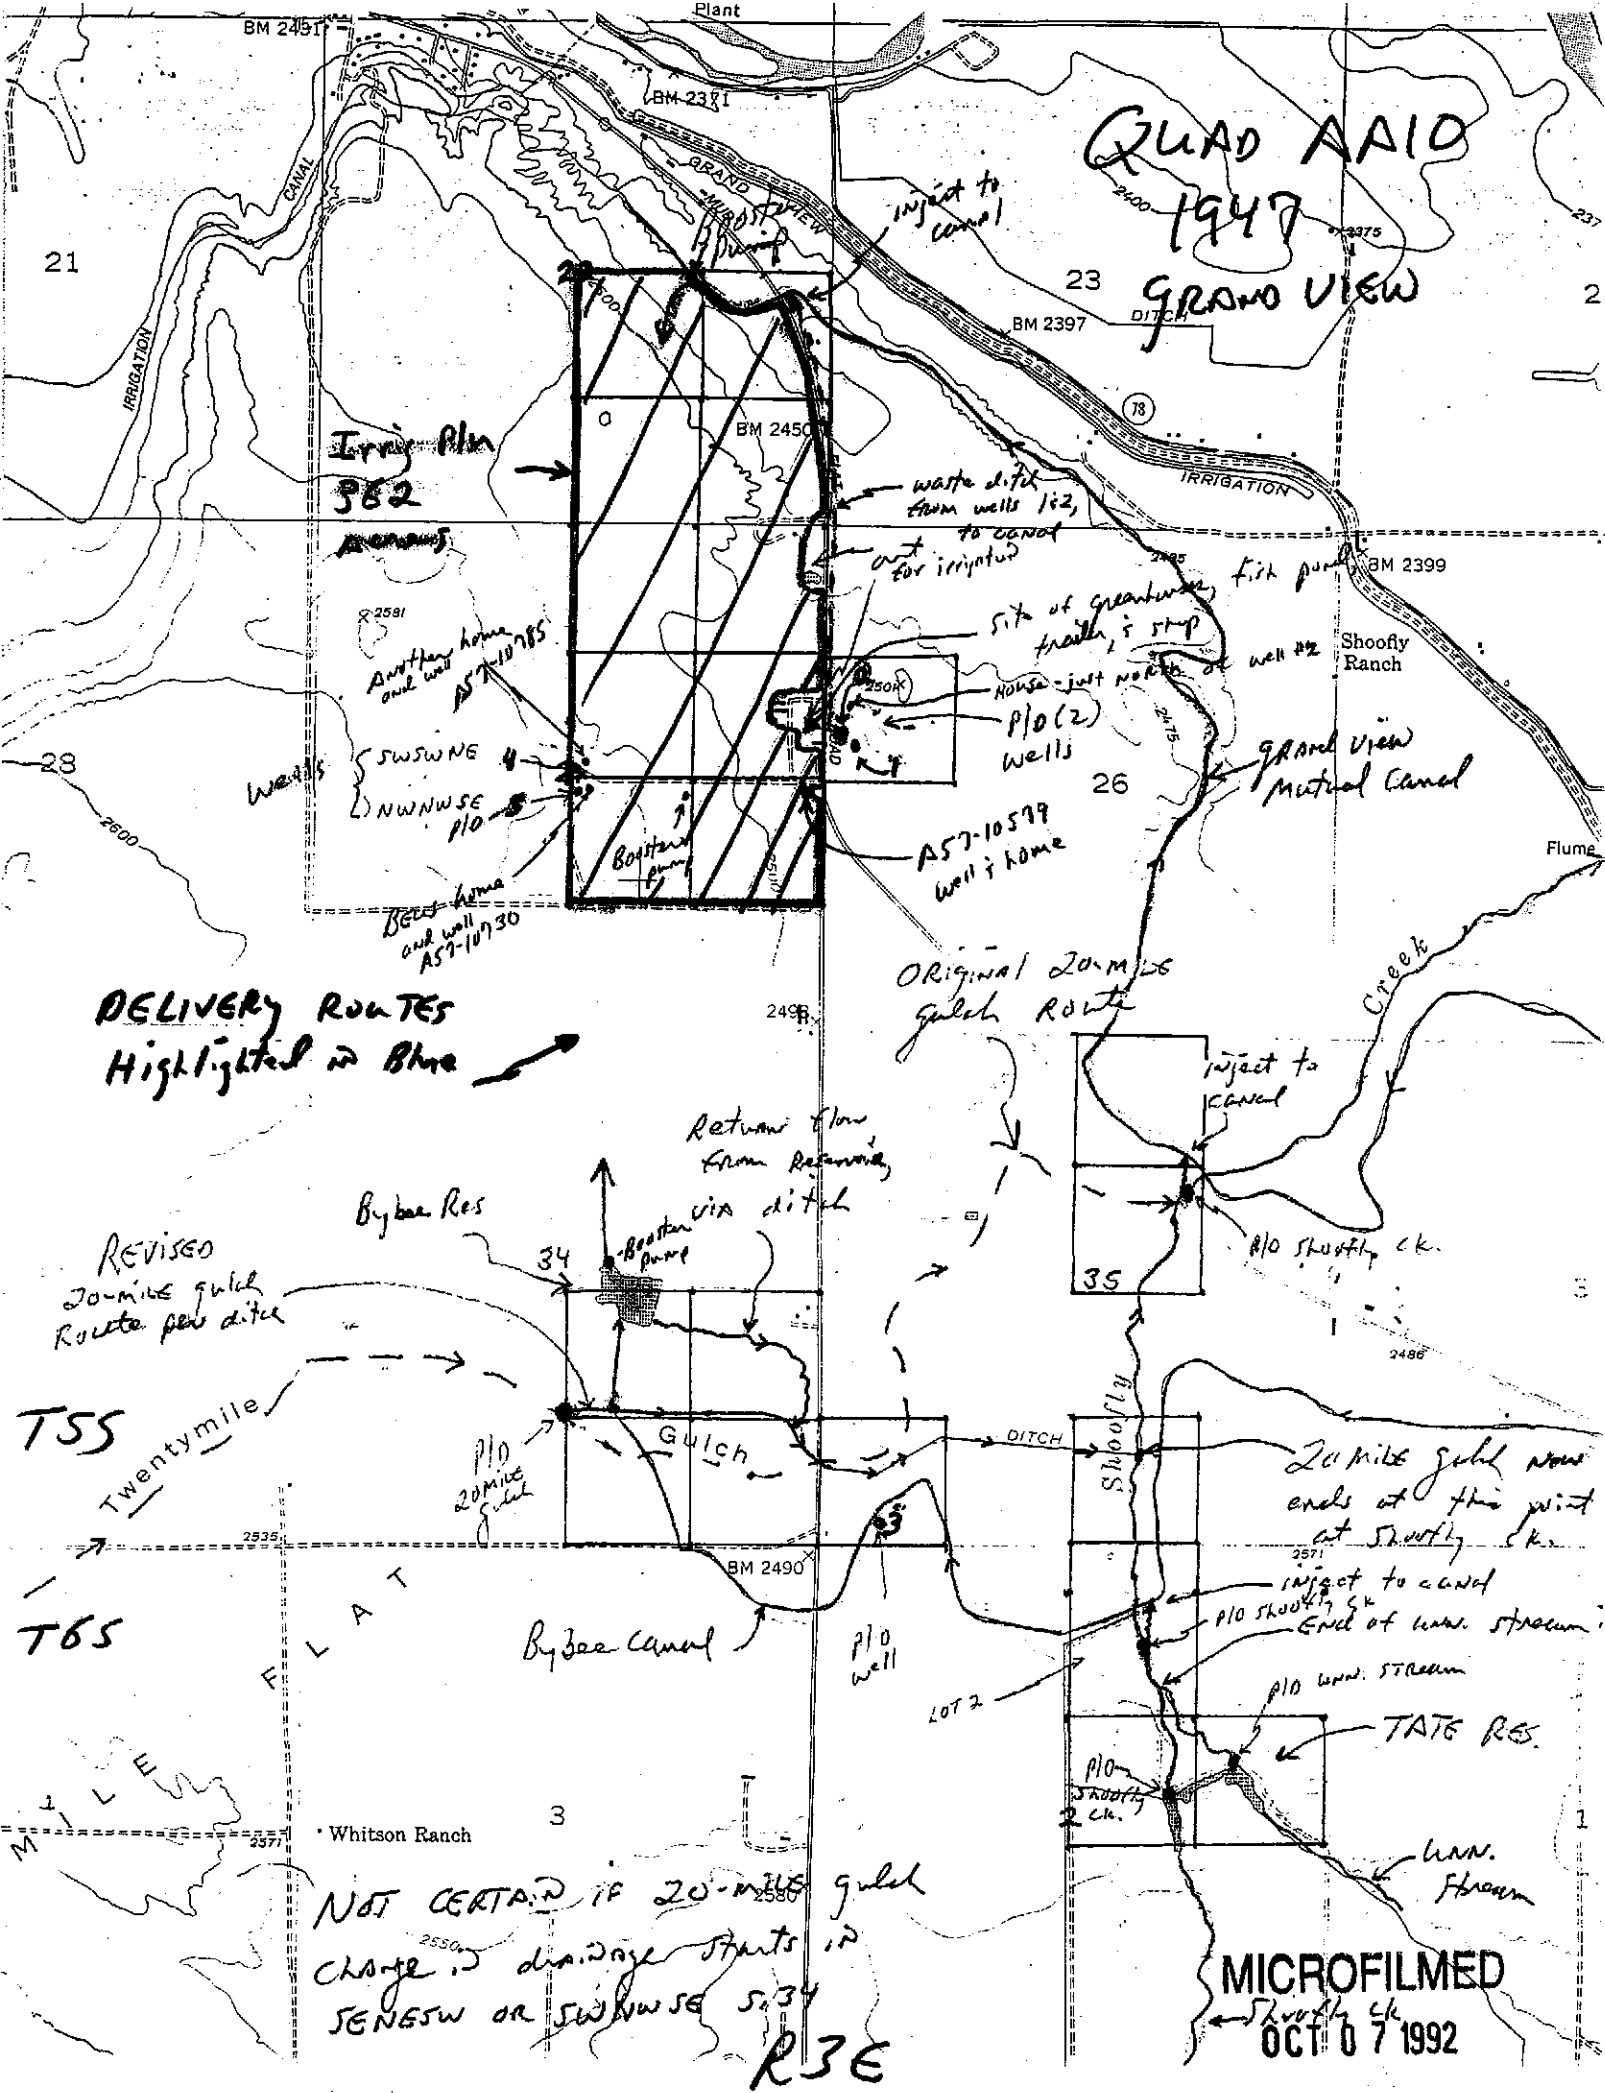

plus barn (D/4, shop, greenhouses). All of the heating occurs via wells 1 & 2.

2. Commercial use from wells 1 & 2 occurs at the greenhouse & the shop.

3. FISH PROPAGATION occurs at 1 A.F. pond (150' x 100' x 3') in SENE S. 27 from wells 1, 2, & 4 via buried line from wells 1 & 2 buried line to pond from well #4.

MICROFILMED

D. RATE/VOLUME CALCULATIONS: (IRRIGATION)

1a. IRRIGATION RATE
ACRES 100.0 x 0.02 CFS/ACRE = 2.00 CFS
(Taken from p/u review)

DOES AMOUNT CLAIMED EXCEED 0.02 CFS/ACRE? Y() N(☒)

*** IF YES ADDITIONAL WATER USE FORM FILED AND ATTACHED? Y() N() ***

2. IRRIGATION CONSUMPTIVE USE

CLAIMED CONSUMPTIVE USE = 350.0 AF/A

ACRES 100.0 x CONSUMPTIVE VOL. AF/A FOR AREA 3.5 =

TOTAL CONSUMPTIVE USE 350.0 AF/A

3. IRRIGATION DIVERSION VOLUME

CLAIMED DIVERSION VOLUME = 500.00 AF/A

ACRES 100.0 x DIVERSION VOL. AF/A FOR AREA 4.5 =

TOTAL DIVERSION VOLUME 450.0 AF/A

4. CALCULATIONS FOR USES OTHER THAN IRRIGATION:

SEE ATTACHED SHEET? Y() N(☒)

REMARKS: (Include limitations on CONSUMPTIVE USE for combined rights.)

Snake River water delivered through Bybee Canal. All water
from all rights combined. 362.0 acres are irrigated when
combined with A57-02234.

FD7 (rights in 02 rpt.)

E01 (57-02234, 3.35 cfs, 1267.0, 1629.0, 362.0)

1b. CALCULATIONS

$362.0 \times 0.02 = 7.24$
(exceeds capacity)
capacity = 3.35 cfs

$362.0 \times 3.5 = 1267.0$
 $3.35 \times 1.9835 \times 246 = 1634.6$

$362.0 \times 4.5 = 1629.0$

MEMO TO APOL. FILE 57-07469

SL
8/30/91

Based on SRBA & Permit field exams as summarized in A57-02224 etc. (includes A57-04108) for droppers, need to amend the application.

Cannot recommend commercial & testing of greenhouses or fish propagation in SRBA claims. Might be able to recommend comm/testing at shop since it probably is $\leq .04$ cts & ≤ 2500 gpd. Also, well #4 in SWSWNE 5.27 should be added to appl. for fish prop. purposes.

Therefore:

1) amend appl. to add pld in SWSWNE 5.27.

2) could amend appl. to add use:

Commercial at greenhouses (perhaps shop)
testing " " " "

on file a new
appl. that
would also be
a ground hold

3) Total flow from wells 1, 2, 4 (currently used for testing, commercial, fish prop., as well as irrigation (well 1 & 2 only)) is 4.47 cts

well	measured flow
1	1.20 cts
2	.76
4	2.51
	<u>4.47</u>
