P/D same as previously licensed - Transfer, #3753 (approved 9-19-90) added a second well to this license. Well had not been completed yet - see well inspection form in file - Don Shaff recommended we condition this right with "A04" but allow 5 yrs. for completion transfer. RE: TRANSFER ON CLAIM

Hi, Dan!! Attached is a copy of a transfer adding a point of diversion to a right which is included in the SRBA (Basin 57). The claim was submitted on January 10, 1989; the transfer submitted on February 20, 1990. The transfer was approved on September 19, 1990, which was prior to the Dept. adding the "1 year to complete" condition. When Linda and I went out to look at this development (on November 20, 1991) and confirm the new well location, we found the new well had no pump or casing. The owner stated he was waiting to get some more money before he could finish the well.

In talking to state office personal it was determined that I should add a condition similar to the one placed on transfers but with a five year completion date. Attached is a copy of my "R" report which shows the condition in full.

My question is: Should I change this condition to show the work has to be completed on or before September 19, 1995, which would be 5 years from date of approval of the transfer? Or, should I leave it the way it is? Let me know, please!! Thanks in advance!! Kay
