Dear Mr./Ms. Blackstock :

The Department of Water Resources will be conducting Beneficial Use field examinations and water right claim verification examinations in your area during the weeks of 7/23 to 8/3. These Beneficial Use and verification field examinations and verifications are required by Idaho Code. Once the Beneficial Use examination or claim verification is made, your water rights will be recommended for licensing by the Department or decree by Judge Hurlbutt in the Fifth District Court. The recommendations will be based on our findings in the field.

Information on your permit or claim, which may need to be verified, includes source(s) of water, types and amounts of water used, legal description of the point of diversion, legal description of the place of use, and in some cases documentation verifying the date of priority as claimed in the Snake River Basin Adjudication. Some of your Adjudication Claims may not be subject to verification as they have not been claimed in the Snake River Basin Adjudication differently from the manner in which they were previously documented and examined in accordance with the State's permitting, licensing and/or decree process.

In order to expedite the Beneficial Use field examinations and claims verifications, we request that you call our office at 208-334-2190 and establish an appointment during one of these weeks. Although it is not mandatory that you accompany our field examiner, it would be helpful for you or someone who knows the intricacies of your delivery system to accompany the field examiner should questions arise during the exam, in order that they make recommendations to the department or court which most accurately reflect the water rights.

MICROFILMED

OCT 07 1992

Based on our initial review of your water rights, the field examination will take approximately 16 hours.

Please reply within 15 days of receipt of this notice and reference the water right numbers, the time we have approximated for the field exam, and the undersigned senior agents, who will be conducting the exam. If there are extenuating circumstances preventing the field examination of your water rights during this week, please contact us and arrangements can be made to resolve the scheduling conflict. Failure to reply or have the field examinations performed may result in inaccurate recommendations.
