GOST 07 1992

IRRIGATION RIGHT FROM A GROUND WATER SOURCE

A theoretical calculation is necessary to determine if a measurement is required for irrigation from a groundwater source.

=====

1. Using the found acres (or an estimate by the permit holder) calculate the acre-foot per annum limit. This is the volume that the system must be able to theoretically produce to exclude a rate of flow measurement.
2. Next, given the pump hp and the estimated dynamic water level, calculate the theoretical rate of flow that the system can produce.
3. Using the rate found in step 2 and the days in the permitted irrigation season, calculate the theoretical AFA that the system could produce. This volume is then compared to the first AFA calculation. If the theoretical volume (step 3) is greater than the irrigation requirement volume (step 1) then no measurement is necessary. If it is less, then you must make a diversion rate measurement during the field examination.

1.
$$\frac{15.2}{\text{Found Acres}} * \frac{5}{\text{Irr. Req.}} = \frac{76}{\text{AFA}}$$
2.
$$\frac{(7\frac{1}{2}) \text{ HP} * 8.8 * (0.7) \text{ EFF}}{(48) \text{ Dyn Level} + (2.3 * \{0\} \text{ PSI})} = \frac{0.96 \text{ CFS}}{\text{Theor. Div. Rate}} \quad \frac{46.2}{48}$$
3.
$$\frac{0.96}{\text{Theoretical Div. Rate}} * \frac{246}{\text{Days in season}} * 1.9835 = \frac{468}{\text{AFA}}$$

Note: for electrical motors

EFF = 0.70

for diesel motors

EFF = 0.60

DEPARTMENT OF WATER RESOURCES

Western Region, 2735 Airport Way, Boise, Idaho 83705 - (208) 334-2190

CECIL D. ANDRUS

GOVERNOR

R. KEITH HIGGINSON

DIRECTOR

CLIFFORD W. KNOX

P.O. Box 262

GRAND VIEW Id 83624

Date: 7-19-90

RE: Permit and/or Adjudication Claim No.s A57-04022

Dear Claimant(s):

The Department of Water Resources will be conducting beneficial use examinations and water right adjudication claim verification examinations for Owyhee County from July thru November 1990. Once the beneficial use examination or claim verification is made, your water rights will be recommended for licencing by the department or decree by Judge Hurlbutt in the Fifth District Court. The recommendations will be based on our findings in the field.

Information on your permit or claim that may need to be verified, includes source(s) of water, uses and amounts, legal descriptions of point(s) of diversion, place of use and in some cases documentation verifying the date of priority as claimed in the Snake River Basin Adjudication. Some of your claims may only need a small amount of verification if there are no changes in the manner in which they were previously documented and examined in accordance with the State's permitting, licencing and/or decree process.

Although it is not mandatory that you accompany the field examiner, should questions arise during the exam, it would be most helpful for yourself or a knowledgeable representative to be available for a short time during the field exam. This would help speed up our findings and help collect information for your rights to be recommended to the court.

A field examiner will be calling or writing you for the scheduling of this (these) field exam(s). We can either meet you at the place of use or a place of your convenience. This may be determined at the time we contact you.

If you have questions regarding this letter or prior to scheduling, please call 334-2190 and ask for either Steve Lester or Ron Howerton.

Sincerely,

Ron Howerton

Senior Water Resource Agent
