EACH BEING FIRST DULY SWORN, on his oath deposes and says:

THAT E. I. Murphy occupies a quantity of farm land located on or near Sucker Creek;

THAT E. I. Murphy appropriates water by gravity flow from Sucker Creek for use on such farm by means of a take-out ditch having its source some distance above the Murphy farm and upstream on Sucker Creek;

THAT the take-out ditch runs between Sucker Creek and the source of an un-named water course which is a tributary to Sucker Creek collecting and conveying waste water;

THAT all water flowing in the un-named water course is taken

RE: Notice of Claim to a Water Right No. 57-04023

Douglas H. &/or Alta N. Stowell
Rt. 1, Box 1230
Homedale, ID 83628

Dear Mr. and Mrs. Stowell:

We have received the Notice of Error you submitted on the above referenced claim.

In review of your claim and the aerial photo that we picked up from the ASCS office in Marsing, we can allow additional acres on your claim if you amend the claim to include the additional acres. The 1987 ASCS photo that I have shows 69.3 acres irrigated.

When you filed your Notice of Claim on this water right, you filed for the irrigation of 65 acres. Since you irrigate more land with this right, you need to amend the claim and submit an additional dollar for each additional acre. Would it be possible for you to come into the office so we can get this all straightened out? If so, please give me a call and set up a time that is convenient for you. If not, send me the ASCS photo that you have showing 70.2 acres, and I will prepare an amended claim for your signature.

We need to get this all completed prior to **September 20, 1992**. If you have any questions in regard to this, please feel free to contact me.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

3. Describe the portion of proposed recommendation with which you disagree:
Recommended proposal shows water right to cover 65 acres. A SCS map shows 70.2 acres being irrigated.
4. Describe the changes you wish to have made in the proposed recommendation:
would like the water right to show the actual 70.2 acres instead of stated 65 acres.
5. Describe why you disagree with the proposed recommendation:
Item # 3 explains.

Rt. 1, Box 1230

Dear Mr. and Mrs. Stowell:

This claim is based on "Beneficial Use". Two requirements must be met before we can recommend the amount of water that has been claimed. First, there must be actual use of the amount claimed. Secondly, this amount of water must be put to beneficial use. Our initial investigation indicates that the following amount() may not be reasonable for the purposes for which they are claimed:

<u>Claim No.</u>	<u>Nature of Use</u>	<u>Amount Claimed</u>	<u>Reasonable Amount</u>
A57-04023	Irrigation	1.98 cfs	1.30 cfs

In order to establish a right to the amount of water claimed, you must submit evidence which supports your use of that amount. Enclosed for your convenience is a form entitled "Fact Sheet for Excessive Irrigation Flows". In order for our Department to make recommendations on your claim we must have this form completed and returned to our office within the next two weeks.

Your response must be received by the date noted above. If the requested information is not received, then we will recommend the amount noted in the right-hand column above.

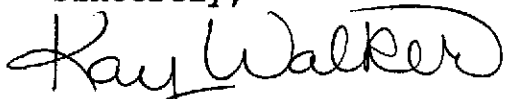

For your information, in measuring your system on the 14th of August, we found that you were pumping approximately 1,974 gallons per minute which is equivalent to 4.4 cfs.

We are still in need of your evidence of priority for this claim also, as we discussed in our visit on the 14th. Please submit this information at your earliest convenience.

Thank-you for your cooperation. If you should have any questions, or feel that you need help in any way, please feel free to contact me at (208)334-2190.

Douglas H. &/or Alta N. Stowell
Rt. 1, Box 1230
Homedale, ID 83628

Dear Mr. and Mrs. Stowell:

We are currently in the process of preparing the above referenced Notice of Claim for court decree in the Snake River Basin Adjudication. During this review certain questions arose concerning the claim listed above.

This claim was filed based on beneficial use of water dating back to October 22, 1885. On October 12, 1990, the Department sent you a letter requesting that you submit evidence supporting the priority date you have listed on the above claim. This evidence was to have been submitted by December 1, 1990. We did receive some information regarding the water rights on your property. However, this evidence documents use of water under License 57-02196 and will not suffice as evidence for Claim A57-04023. Therefore, I am returning the documentation you submitted and request submittal of evidence regarding your use of water from Succor Creek.

Please note that there was an affidavit of substantiating evidence on use of water from Succor Creek included in your documentation, but it was never signed by the people named on it. If you could locate one of these folks, maybe they would sign an affidavit for you now. I have flagged this affidavit in your papers (with a blue tag) for your convenience. Hopefully, one of these folks is still around and willing to help you establish your priority date.

Before the Department can make a recommendation to the Court for decree of this claim, some evidence of the priority date claimed must be submitted. Again we are enclosing a brochure outlining types of evidence you may submit. If we do not receive the required information, this claim will be recommended for disallow due to lack of evidence supporting any priority date.

Re: Application of Claim to a Water Right
#57-4023 for James A. Johnson Jr.

Dear Sir:

We take exception to this claim. First, there is no water in Succor Creek Tributary as it is over appropriated already. How can you appropriate water when there is none and have no means of policing it when we have an old water right and upstream waterusers are taking our water for our diversion in Succor Creek? Second, our drains return water to our diversion for our use which you would give away with no controls to stop them. This is Projects water which you have no jurisdiction over.

Would you please administer the water in Succor Creek to protect the old applications on file so we may get what we are entitled to. This would be of great help.

Sincerely,

Erich Knehans, Secy.-Mgr.

RE: Claims filed in the Snake River Basin Adjudication

Dear Claimants:

The Department of Water Resources is now conducting beneficial use and water right claim verification examinations in your area. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, due to the oncoming winter months, we request that you contact our office at (208)334-2190 within two weeks to make an appointment at a time convenient for you.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be appreciated.

In some cases, the date of priority also needs to be verified. Recently, letters were sent to some claimants notifying them that evidence of the date of first use of their water right(s) was required. If you received one of these letters and have questions, we can address those during our examination.

If you have any questions or problems with the exam verification, please call within the two week period.

Sincerely,

KAY WALKER
Water Resource Agent

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by December 1, 1990, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte

Section 42-225a, Idaho Code

Under the provisions of Section 42-225a, Idaho Code, a person may file a claim to a right to use water which has been established by diversion and application to beneficial use. **The filing of this claim does not confirm the water right but will serve for information purposes only.** It may, however, become the basis for future adjudication of the water right by the Court.

Notice is hereby given that

RT1 Box 172

(name of claimant)

of Homedale, IDAHO 83628, claims a right to the diversion and beneficial use of
(mailing address)

The extent and nature of said claim is as follows:
