INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Section 42-1409(7), Idaho Code. This statute provides that new property owners notify the Department of Water Resources (IDWR) of any change in ownership of a water right during an adjudication of water rights, and if a claim for the water right has not been filed to file the needed claim(s).

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. If you would like any of these brochures or if you have questions about completing this form please contact your nearest office of IDWR or you may call 1-800-451-4129 (toll-free).

The first line of the form asks for the date of closing so IDWR will have a record of the effective date of the property transfer.

The second line of information requires the legal description of the property being transferred. This information is **ESSENTIAL** and should be available from the documents that will be present at the time of closing. The first two lines of the legal description **MUST** be completed. IDWR's records are based upon legal descriptions using township, range, section and fractions of a section descriptions, and this information must be included on the form. If you also have available a legal description based upon a townsite or subdivision and lot and block number, please also include this additional information. A lot and block legal description is **NOT** a substitute for the township, range, section and fraction of a section description.

After completing the legal description, if all water is supplied by a public service water supply you may check the first box; complete the name, address and telephone information for yourself, the new owner; sign the form in the space provided and return the form to the IDWR office nearest you.

If there are water rights associated with the property, the seller should be able to provide you with the water right number(s). The water right number(s) for the property are to be put in the space provided at the second box on the form. If you or the seller believe there are water rights for the property but the numbers are unknown, then you may wish to call or come into an office of IDWR for assistance in identifying the water rights for the property involved. If claims for the property have not been filed you will be so advised by IDWR.

After the water right number(s) for the property has been entered on the form, complete the name and address information for **BOTH** the former owner/seller and for yourself, the new owner, in the spaces provided. Please also include your telephone number. If the property you have purchased is only part of the property owned by the former owner/seller, you may be purchasing only part of the total water right held by the seller. This means the water right held by the seller must be split so you get your proportionate share of the water right. Be sure to include a description of the portion of the water right you have purchased. The seller should be able to help you describe the portion of the water right for the property you have purchased.

If the former owner/seller will sign the form and the seller is shown as the claimant of the water right in IDWR's records, then you do not need to attach proof of ownership of the land or the water right. The seller should know if the original claim was filed by him, or if the seller has filed a change in ownership so the seller is shown as the claimant of the water right in IDWR's records. If the seller is not going to sign the form then you must attach some proof of ownership of the property described at the top of the form or proof of ownership referencing the specific water right(s) for the property.

The new owner must sign the form in the space provided. If the former owner/seller is available to sign the form please do so in the space provided.

When complete, the new owner and the former owner/seller should each retain one of the copies and return the original of the form to IDWR. You may return the form to the IDWR office nearest you or to: Idaho Department of Water Resources, Statehouse Mail, Boise, ID 83720-9000, Attention: Adjudication Bureau.

INSTRUCTIONS FOR USE

This form is to be used to provide notice of a change in address of a party or to substitute a party whose water right was recommended in a director's report. *The filing of Standard Form 3 cannot result in a contested matter and a hearing will not be scheduled.* If completed as directed, the form will be accepted by the court and no further orders will issue. Standard Form 3 shall not operate to excuse compliance with the statutory requirements of I.C. § 42-1409(7) (1986) where a water right recommendation is not before the court.

This form has been adopted by the court in Re SRBA, Twin Falls County Case 39576, *SRBA Administrative Order 1 Rules of Procedure* (amended 6/21/93), Section 4Ac(3), which may be consulted for further information.

A party may copy or reproduce the standard form. The text of the form must be on the front and back of each page, exactly as it appears here. Follow the instructions on the form or it will not be accepted for filing. The Verification and the Certificate of Mailing must be completed.

Standard forms may be obtained from the Idaho Department of Water Resources or the SRBA Court.

Notice of Claim #57-04057
Change of Address

Dear Claimant,

Thank you for notifying IDWR of the change in address of the water right referenced above. Your note stated your co-claimant Harold Gaines is deceased. As such this would not only be an address change, but an ownership change as well, with you as sole claimant. Please submit a copy of Mr. Gaines' death certificate to this office.

SRBA Judge Hurlbutt issued an Amended Order March 22, 1995, requiring claimants such as yourself acquiring property and associated water right identified in a Director's Report to use Standard Form 3 for change in address or ownership of the Court's records for the water right referenced above. We have enclosed this form for your use.

The Court's form must be submitted according to the instructions to complete the change of address or ownership in the Court's records.

Please contact us or the SRBA Court at 208/733-3011 if you have any questions.

Sincerely,

RE: Notice of Claim to Water Right No. 57-04057

Harold Gaines or Lois Anderson
502 W. Montana
Homedale, ID 83628

Dear Claimants:

In reviewing the evidence of priority for the above referenced claim, I have found that I can now recommend your claim to the court in the Snake River Basin Adjudication.

Please review the enclosed profile report for any errors. I found that I could only allow 32 acres of irrigation since that is all that is actually irrigated. I have recommended a diversion rate of 0.64 cfs, which is one inch of water for each of the 32 acres of irrigated land. I have also changed the priority date of this right to June 1, 1954, which is supported by the receipts you submitted as part of your evidence of priority.

If you have any questions please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker".

RE: NOTICE OF CLAIM NO. A57-04057

Lois Anderson or Harold Gaines
502 W. Montana
Homedale, ID 83628

Dear Claimants:

We are currently in the process of preparing the above referenced Notice of Claim for court decree in the Snake River Basin Adjudication. During this review certain questions arose concerning the claim listed above. All claims with an A57 prefix number are being reviewed at this time. If you have other claims with this prefix, that are not shown here, we may be contacting you again if questions should arise during their review.

This claim was filed based on beneficial use of water dating back to June 1, 1953. On October 12, 1990, the Department sent you a letter requesting that you submit evidence supporting the priority date you have listed on the above claim. This evidence was to have been submitted by December 1, 1990. However, this evidence has not been received in our office.

Before the Department can make a recommendation to the Court for decree of this claim, some evidence of the priority date claimed must be submitted. Again we are enclosing a brochure outlining types of evidence you may submit. If we do not receive the requested information, this claim will be recommended for disallow due to lack of evidence supporting any priority date.

Thank-you for your cooperation. If you should have any questions, or feel that you need help in any way, please feel free to contact me at (208) 334-2190.

Sincerely,

On November 13, 1990, Roxanne McCarthy and I met with Harold Gaines to conduct an examination on this right. Per Mr. Gaines, wastewater under this right has been used - just not continuously. (Mrs. Anderson stated it had not been used since 1963 when I spoke to her on 11/2/90.) No evidence of priority - recommend disallowal. - Rec'd 9-18-92
This right has obviously not been used for quite some time. NAPP photo (X 2 SE) evidences irrigation in 1987. Since we rec'd evidence of priority recommend right. kw 11/4/91

RE: Claims filed in the Snake River Basin Adjudication

Dear Claimants:

The Department of Water Resources is now conducting beneficial use and water right claim verification examinations in your area. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, due to the oncoming winter months, we request that you contact our office at (208)334-2190 within two weeks to make an appointment at a time convenient for you.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be appreciated.

In some cases, the date of priority also needs to be verified. Recently, letters were sent to some claimants notifying them that evidence of the date of first use of their water right(s) was required. If you received one of these letters and have questions, we can address those during our examination.

If you have any questions or problems with the exam verification, please call within the two week period.

Sincerely,

KAY WALKER
Water Resource Agent

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by December 1, 1990, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte
