SUBJECT: Notice of Claim to a Water Right
A57-04067

Dear Ms. Delurme and Ms. Kroeger:

We are currently in the process of preparing the above referenced Notice of Claim for court decree in the Snake River Basin Adjudication. This letter is to inform you of a change in the location of a portion of the irrigated acres.

It was determined from information gathered during the field exam that there has been a slight change in the location of some of your acreage. The total number of acres remains the same; however, 3 acres were found in the NW1/4NW1/4 of section 7, and 2 acres rather than 5 were found in the SW1/4NW1/4 of section 7.

I have enclosed a copy of this claim which will show the changes mentioned above. Unless I hear from you this claim will be recommended to the court in the manner shown. Be sure and contact me if you have any questions or comments. If I do not hear from you by May 12, 1991, I will assume the change meets with your approval.

As for the Notice of Claim filed on your domestic use, A57-10014, this claim is ready to go to the Director of the Department, and will be recommended as claimed.

Sincerely,

Linda A. Werner

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by December 1, 1990, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte

RE: Adjudication claim numbers: A57-04067 and A57-10014

Dear Ms. Delurme or Ms. Kroeger:

The Department of Water Resources will be conducting beneficial use and water right claim verification examinations in your area during the weeks of July 9 through July 20. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used and legal description of the point of diversion and/or place of use. In some cases we may need documentation verifying the date of priority as claimed in the Snake River Basin Adjudication.

In order to expedite these field examinations, we request that you call our office at (208) 334-2190 and establish an appointment for one day during the above weeks. Although it is not mandatory that you accompany the field examiner, it would be helpful for you or someone who knows the details of your water right to accompany the examiner should questions arise during the exam. It may also be necessary for the system to be operated normally at the time of the exam.

Please advise me within seven days of the date of this letter as to the best time for us to perform this field exam.

Sincerely,

Linda A. Werner
