FINDINGS OF FACT AND CONCLUSIONS OF LAW

A notice of claim was filed for this water right pursuant to I.C. § 42-1409 (1990) by United States (BLM). The director of the State of Idaho Department of Water Resources examined the water system for areas 1, 2, and 3 and investigated and abstracted the notices of claims for those Reporting Areas. II. STATEMENT OF THE RESPONSE

1. ☒ Name and Address: I respond to the objection concerning the name and/or address of the owner of the water right.

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection item 1 and all allegations of the objection regarding this item IDWR responds as follows: This is a dispute over the ownership of a water right between the owner of the place of use (the United States) and the holder of a federal grazing permit to these lands (the objector). Generally, in landlord/tenant type disputes over the ownership of a water right based on appropriation, the water right is presumed to be owned by the owner of the place of use unless a mutual intent to the contrary is clearly shown. As to this water right, the objector did not submit evidence to IDWR sufficient to overcome the presumption. IDWR therefore denies the objection and all allegations of the objection not expressly admitted herein.

II. STATEMENT OF THE RESPONSE

1. ☒ Name and Address: I respond to the objection concerning the name and/or address of the owner of the water right.

REASONS SUPPORTING EACH BOX CHECKED

In response to Statement of the Objection item 1 and all allegations of the objection regarding this item IDWR responds as follows: This is a dispute over the ownership of a water right between the owner of the place of use (the United States) and the holder of a federal grazing permit to these lands (the objector). Generally, in landlord/tenant type disputes over the ownership of a water right based on appropriation, the water right is presumed to be owned by the owner of the place of use unless a mutual intent to the contrary is clearly shown. As to this water right, the objector did not submit evidence to IDWR sufficient to overcome the presumption. IDWR therefore denies the objection and all allegations of the objection not expressly admitted herein.

Remarks:

*The right with 57-07352 & 57-02375
total .12 cfs for stockwater. The total
needed for 150 hd cattle is .05 cfs
& for 2000 head sheep it is .07 cfs
which totals .12 cfs & so all 3 rights
can be recommended. Overlapping
Federal claim would cause it to exceed
the cfs needed. NOTE: Private claim for
Red Gamble is being disallowed & recommended
as 57-04071, 57-02375 & 57-07352 & 57-07386 & 57-07387.*
