Dear Sir,

To the best of my knowledge the date of priority March 7, 1922, is true and correct. I have tried and been unable to obtain an affidavit because of the length of time that has gone by. I am enclosing names & dates of existing headstones from Riverside Cem. I am also enclosing documents I can, as record keeping them seemed sparse.

I thank you,

Dear Sir,

To the best of my knowledge the date of priority March 7, 1922, is true and correct. I have tried and been unable to obtain an affidavit because of the length of time that has gone by. I am enclosing names & dates of existing headstones from Riverside Cem. I am also enclosing documents I can, as record keeping them seemed sparse.

I thank you,
Deanna Holland

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by December 1, 1990, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte

MAP # 1.

1. This is an **Ortho Photo map**. This map shows the **point of diversion**, T5S, R3E, Sec. 15, NWSWNW.
2. The POU is shown as; T5S, R3E, Sec. 15, SWNW.
3. A57-04090.

2.

1. This is an **ASCS map**. The map shows the P/D and POU on the larger scale.
2. The ASCS map does accurately show the irrigated acres.

SPRINKLER MEASUREMENT

DATA:

RAINBIRD 25 with 5/32" NOZZLE
9 HEADS

PSI MEASUREMENTS:

41, 42, 43
AVE. = 42

DATA FROM CHART:

	PSI	GPM/HEAD
	40	4.4
AVE. *	42	4.51
	45	4.68

✓ SEE BELOW *

* DIFFERENCE IN 45-40 GPM = 5 PSI

" " GPM = 4.68 - 4.4 = .28

.28/5 = .056 PER 1 PSI DIFFERENCE FROM 40 TO 45 PSI

So 42 PSI = (4.40) + (2)(.056) = 4.51 GPM/HD

(9 HEADS)(4.51 GPH) = (.09 CFS) = 40.59 GPM

40.59 = ...09 CFS
448.8 = (1 CFS)

RE: Permit and/or Adjudication Claim No.s A57-04090

Dear Claimant(s):

The Department of Water Resources will be conducting beneficial use examinations and water right adjudication claim verification examinations for Owyhee County from July thru November 1990. Once the beneficial use examination or claim verification is made, your water rights will be recommended for licencing by the department or decree by Judge Hurlbutt in the Fifth District Court. The recommendations will be based on our findings in the field.

Information on your permit or claim that may need to be verified, includes source(s) of water, uses and amounts, legal descriptions of point(s) of diversion, place of use and in some cases documentation verifying the date of priority as claimed in the Snake River Basin Adjudication. Some of your claims may only need a small amount of verification if there are no changes in the manner in which they were previously documented and examined in accordance with the State's permitting, licencing and/or decree process.

Although it is not mandatory that you accompany the field examiner, should questions arise during the exam, it would be most helpful for yourself or a knowledgeable representative to be available for a short time during the field exam. This would help speed up our findings and help collect information for your rights to be recommended to the court.

A field examiner will be calling or writing you for the scheduling of this (these) field exam(s). We can either meet you at the place of use or a place of your convenience. This may be determined at the time we contact you.

If you have questions regarding this letter or prior to scheduling, please call 334-2190 and ask for either Steve Lester or Ron Howerton.

Sincerely,

Ron Howerton

Senior Water Resource Agent
