Dear Mr. and Mrs. Adams:

In response to the Notice of Error you submitted on the above referenced claim, and following the field examination of your water system yesterday, I have changed my recommendations for this claim. Enclosed you will find a profile report which I hope correctly describes your water use.

Please note that the amount of water being recommended is based on the bucket and stopwatch measurement we conducted (i.e. 15 gallons in 36 seconds). The flow of water measured was 25 gallons per minute which, when divided by 448.8 gallons in 1 cfs, came out to 0.06 cfs.

Please review this revised recommendation carefully for any errors that may have been made. The report will be printed this weekend so we cannot make any changes after Friday. If you find an error, please let me know at your earliest convenience. If you have any questions, please feel free to contact me.

Sincerely,

A handwritten signature in cursive script that reads "Kay Walker".

An aerial photograph of a rural landscape, likely a farm or ranch. The image shows a large, dark, rectangular field in the center, surrounded by lighter-colored areas that could be pastures or other fields. A winding road or path is visible in the lower left. A handwritten note is placed over the central field. The note is written in cursive and reads: "X—pictures of place of use taken from this spot. Standing on driveway to neighbors' home." The note is oriented vertically, matching the text's orientation. The background image is a high-contrast, black and white aerial photograph. There are some faint, illegible markings on the image, possibly from a previous map or document. The overall scene is a rural, open landscape.

RE: STATUS

In reviewing the above claims, I found that I needed more information concerning the use of the wells.

On November 13, 1991, I contacted Robert Borron, the previous owner of the property. He informed me that the wells had not been used to irrigate the lands, under the original claim, for the last 15 years, since Mr. Hall lived there and since Opaline Irrigation District water had become available.

The smaller of the two wells (A57-04092A) had never been used for irrigation, just domestic use. The larger well (A57-04092B) had been used to irrigate all 50 acres under 57-04092. This well has always been artesian flow; it used to shoot 12' into the air when uncapped but no longer does this. Mr. Borron said that these wells were used for the old Monarch Gipseys Survey No. 2554 mining claim initially and were in use prior to 1900. The 1920 date came from Mr. Hall, owner prior to Mr. Borron.

Based on the fact that these wells had not been used for irrigation for 15 years, I recommend that we disallow both of these claims.

DIRECTOR

BOISE ID 83709

Dear Claimant(s):
In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by December 1, 1990, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte

Dear Claimant(s):

This office has received your Notice of Claim(s) to a Water Right for the use of water within the Snake River Basin Water System. However, due to the item(s) checked below, we cannot process this claim(s). We are returning the claim to you along with your check number 5137 in the amount of \$ 25 for the claim filing fee. The following items need to be corrected or added:

Fee - No fee received or inadequate fee received, fee due is _____.
See enclosed fee schedule for computation of fees.

Late Notice of Claim - Claim has been received after filing deadline
for _____ County. This date was _____. See enclosed Late
Fee Notice.

Item No. 2 - Date of Priority - date water was first put to a beneficial
use.

X Item No. 2 & 3 - Priority Date and Source - An adjudication claim filed on a water use from a GROUNDWATER source with a priority date (date of first use) after March 25, 1963, for uses other than a single family domestic and/or stockwater use (up to 1,000 head), may be rejected at the time of review. The mandatory cutoff date for filing on grandfather uses, other than the single family domestic or stockwater exception listed above was March 25, 1963. After this date applications for permit were required to be filed prior to any development. If your use is for multiple domestic homes, a way to maintain the priority date for each home is to file a separate adjudication claim for each. Each claim would then meet the single family domestic exemption. However, a \$25.00 fee is still required for each claim filed. Claim forms with instructions are enclosed for your use. NOTE: Prior to completing a claim form for domestic or stockwater use, please read the enclosed brochure entitled, "The Snake River Basin Water Right Adjudication, Domestic and Stockwater Use". One other alternative is to file an Application for Permit which could include all uses on one form. However, the date of priority for your uses will be the date the application is received in our office. Enclosed is an application for permit with instructions. Please note that there is no deadline for filing the application form. Your adjudication claim can still be filed as it was previously submitted, however, you may run the risk of losing your water right later if the claim is rejected due to the filing date for groundwater sources.

Item No. 2 & 3 - Priority Date and Source -An adjudication claim filed on a water use from a SURFACE WATER source with a priority date(date of first use) after May 20, 1971, may be rejected at the time of review. The mandatory cutoff date for filing water rights on grandfather uses from a surface water source was May 20, 1971. The form to file for this use would be an application for permit. The date of priority for your uses will be the date the application is received in our office. Enclosed is an application for permit with instructions for your use in this matter. Please note that there is no deadline for filing the application form. Your adjudication claim can still be filed as it was previously submitted, however, you may run the risk of losing your water right later if the claim is rejected due to the mandatory filing date for surface water sources.

Item No. 3 - Priority Date -If your water use has been developed after the date of commencement of the Snake River Basin Adjudication, November 19, 1987, no filing is required. It is your option to file if you would like. Please return the enclosed claim form and check if you still wish to file. If you do not file, your priority date will still be the date your well was first used.

Item No. 4 - Point of Diversion -The point of diversion listed on this claim is not in the correct form for legal descriptions. Diversion points must be listed by quarter-quarter(40 acre tract), section, township, and range. This legal can be found either on your deed, sales contract or tax notice. If not, then the county assessor may be helpful. Lot and Block for a subdivision are not acceptable, however, please include this information in the remarks section of your claim.

Item No. 10 - Place of Use - The place of use listed on this claim is not in the correct form for legal descriptions. Places of use points must be listed by quarter-quarter(40 acre tract), section, township, and range. This legal can be found either on your deed, sales contract or tax notice. If not, then the county assessor may be helpful. Lot and Block for a subdivision are not acceptable, however, please include this information in the remarks section of your claim.

Adjudication Claim Form No. 42-1409(2)a., needs to be filed instead of Claim Form No. 42-1409(2)b., due to the following reasons: _____

Enclosed is the correct claim form with instructions for completion. The fee schedule is also in the instruction sheets to help you figure the fee needed for filing this type of claim form.

An adjudication claim cannot be filed when no water use or development has taken place. An application for permit is the form to file at the time you decide to begin development. Claims are required only on

development and uses completed prior to the commencement of the adjudication, November 19, 1987. Enclosed is an application for permit form with instructions to be completed at the time development will begin.

— An adjudication claim cannot be filed on an application for permit which has not been approved. Therefore, we are returning your Notice of Claim to you. An application for permit must be approved in order to establish a water right to file on.

X Item No. 16 - Signature -this claim form requires your signature be affixed and notarized by a notary public. Note, the notary public signs below the signature blocks listed in this item.

X Other: UNDER ITEM NO. 15 YOU MENTION WATER RT.
(COPY ENCLOSED)
NO. 57-04092. THIS RIGHT ALSO NEEDS TO BE
PROTECTED BY FILING IN THIS ADJUDICATION. IF YOU
HAVE NOT YET FILED, AND WISH TO, PLEASE CONTACT US.

If your uses are for domestic or stockwater, and after reading the enclosed brochure you still wish to file your claim(s), please complete the above item(s) on your claim form(s), initial and date any changes or additions, and return the claim(s) to our office, with the fee, prior to the deadline date for filing adjudication claims in your county. If you are returning a claim form which was received in our office, with the fee, by the deadline for your county, then as long as the corrected claim and fee are returned within 30 days of the date of this letter, no late fee will be charged. If your deadline is upcoming, please try to return the corrected claim by that date. The deadline date for your county is PAST. If you have decided not to file your claim(s), no further correspondence is needed.

Please feel free to contact this office if you have any questions concerning this letter.
