Re: Snake River Basin Adjudication (SRBA)
Owyhee County - Claim No. A57-04100

Dear Mr. Holloway,

As we discussed recently, I found during my field examination that the spring originally claimed by Mr. Gigray produces a little more water than he thought. In light of that, I thought you might like to amend your claim to show the increased flow. Enclosed you will find a copy of your original claim (marked COPY) and an amended claim form which I would like you to sign and return.

I have highlighted items on the amended claim that have been changed. The legal descriptions at Item Nos. 4 and 10 have been changed to show what I actually found in the field. I have changed the season of use at Item 6, lengthening it to conform with current standards. The rate of diversion shown in Items 6 and 7 is the flow I confirmed in the field.

If you have any questions, please call. If you agree with the changes I propose, please sign and return the form as soon as possible. Your right will then be proposed to the Court as amended.

Sincerely,

Roxanne McCarthy

RE: NOTICE OF CLAIM NO.: A57-04100

Dear Claimant,

We are currently in the process of preparing the above referenced Notice of Claim for court decree in the Snake River Basin Adjudication.

This claim was filed based on beneficial use of water dating back to April 1, 1971. On October 12, 1990, the Department sent you a letter requesting that you submit evidence supporting the priority date you have listed on the above claim. This evidence was to have been submitted by December 1, 1990. However, this evidence has not been received in our office.

Before the Department can make a recommendation to the Court for decree of this claim, some evidence of the priority date claimed must be submitted. Again we are enclosing a brochure outlining types of evidence you may submit. If we do not receive the requested information, this claim may be recommended for disallowal due to lack of evidence supporting any priority date.

Thank-you for your cooperation. If you should have any questions, or feel that you need help in any way, please contact our Western Regional office at (208)334-2190.

Sincerely,

Roxanne McCarthy

Dear Claimant(s),

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is **NOT** to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by December 1, 1990, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte
