* P57-04806 - Springs - all water used on all of the land - Reg started using it this way in 1977 + he's not sure what was done prior to his coming here. Ask Don if we have to have Reg show evidence of priority for 1967 for 380 acres - since amendment shows an increase from 230 acres - However, the acres will look irrigated on any maps because of the Snake River water.

[redacted] Springs fill drain - one ——— line on map does not drain into Shoofly Ck + is used for the domestic's + stock. Other two drains flow into Shoofly Ck. in the SENE - which water is diverted from Shoofly Ck. upstream from where the springs empties in. Used to divert right springs however easier + more eff. to exchange H2O with Shoofly Ck diversion.

RE: Claim No(s): A57-04106

CECIL D. ANDRUS
GOVERNOR
R. KEITH HIGGINSON
DIRECTOR

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by December 1, 1990, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte

To: Jan shurte, Water Rights Supervisor, adjudication section

2735 Airport Way, Boise, Idaho 83705

Dear Jan:

Thank you for your letter of 12 October, 1990 in reference to claim No. A57-4106. I have enclosed two affidavits; one from John Black who was the ditch rider for the Grandview mutual canal and was interest in all water and land development at that time. The other is by Bill Field who at the time was the president of the Owyhee grazing Association who developed the land and water mentioned herein. They both establish that the springs were taped and developed during the 1966-67 winter and that the water was put to beneficial use the following summer. Bill further testifies that the water was measured and that 110 inches was applied.

When I bought the farm in 1977 there was a Parma Water lifter pump in place and it had a brass plate on the pump certifying that the pump delivered 103 inches of water at 30 feet of head. In subsequent years as I attempted to "get the water rights in order" I discovered that the original "application for permit to appropriate water" dated 1 June, 1967 had lapsed due to breakup and dissesion within the Owyhee Grazing Association. For this reason we filed a claim to this water.

I hereby add my witness and testify that this water has been and is still being used as claimed in this claim.

Sincerely,

Reg Meaker

Claim No. 57-4106

STATE OF IDAHO
DEPARTMENT OF WATER RESOURCES

AMENDED
CLAIM TO A WATER RIGHT

Under the provisions of Section 42-243, Idaho Code, any person using or claiming rights to the public waters of Idaho established by diversion and application to a beneficial use must file a claim with the Department of Water Resources on or before June 30, 1983. Exempted from this filing are single family domestic uses as defined in Section 42-230(d), Idaho Code. Also exempted are rights represented by a permit, license, decree, adjudicated right, or a previously filed claim.

The filing of this claim does not confirm the water right claimed but failure to file may result in forfeiture of a water right.

Notice is hereby given that Reg Meaker &/or Holly Meaker
(Name of Claimant)

Rt. B, Box 328 (Mailing Address) Grand View, ID 83624 (Zip Code) Telephone No. 834-2264

claims a right to the diversion and beneficial use of the surface or ground water. The extent and nature of said claim is as follows:

(1) Date of priority: (When was the water first applied to a beneficial use) June 1, 1967

A claim is not acceptable on a ground water source with a priority later than March 25, 1963 or on a surface water source with a priority later than May 20, 1971. An exception is that a claim may be filed on single family domestic use from a ground water source.

(2) Describe the source of water: (Name of stream, lake, spring, etc., or ground water)
spring tributary to Shoofly Creek

(3) Describe the purpose for which the water has been used and the time during the year when you have used the right claimed:
