Re: Consumptive Use

=====

A letter was sent to the City of Homedale in June, 1992, requesting information necessary to calculate a consumptive use volume for their municipal rights. This information was not received prior to the Proposed Recommended Report.

On October 6, 1992, I called the City and reminded the clerk that without the information, the City's water right could not be recommended.

Larry Bauer, the City Engineer, returned my call and gave us the following information from the City records. Due to the short time-frame, I did not request that they send this information to me; the Director's Report would be printed before the written information could arrive. The information seems reasonable.

Well Number	Winter Pumping Volume (gal/month)
#1	1,376,800
#2	2,192,200
#3	2,166,600

TOTAL	5,735,600

The totals from the summer months are as follows:

Well Number	Summer Pumping Volume (gal/month)
#1	5,837,260
	5,186,800
#2	7,122,300
	5,812,900
#3	15,956,700
	11,574,000

TOTAL	51,489,960
AVERAGE	25,744,980

MICROFILMED

JUL 20 1994

The volume attributed to irrigation use is:

Summer Pumping	25,744,980
Winter Pumping	- 5,735,600

Irrigation Volume	20,009,380 gal/mo.
Daily Irrigation Volume	666,979 gal/day

The standard irrigation season in the area of Homedale is March 15 to November 15: 246 days. It is assumed that the residents of Homedale are irrigating at an approximate efficiency of 60%. The calculation of Consumptive Use Volume is as follows:

Daily Irrigation Volume	666,979 gal/day
Season of Use	x 246 days

Annual Irrigation Volume	164,076,834 gal/yr
Irrigation Efficiency	x 60%

CU Volume	98,446,100 gal/yr

Re: Snake River Basin Adjudication (SRBA)
Owyhee County - Claim No(s). A57-07027 and A57-10393

Dear Mr. Fink,

The City of Homedale's adjudication claims will soon be recommended to the Court for decree in the Snake River Basin Adjudication. I need one final piece of information to complete my report.

It is currently our policy to recognize the portion of a municipal right which may be consumed by irrigation of city yards and property. To do this, we compare water volumes pumped at the peak of the season, typically late summer, to volumes pumped at a low period, perhaps mid-winter. During my field examination of the City wells, I was given copies of the volumes pumped in August and September, 1989.

Please send, as soon as possible, the volumes pumped by the three wells during a low period in the same year. I can then compare the figures and complete my recommendations. Please call me at 327-7925 if you have any questions.

Sincerely,

Roxanne McCarthy
Sr. Water Resource Agent

RE: Snake River Basin Adjudication (SRBA)
Canyon County - #A57-07027, A57-10393 & A63-09260

Dear Mayor, Clerk and City Officials:

Earlier this year, a transfer in the point of diversion was approved for the three above-referenced water rights. The change was to add a new well to the water system.

Section 42-1409(4), Idaho Code, requires the amendment of the adjudication claims when such transfer is approved. Please find enclosed three claim forms prepared to accomplish this task. As the transfer did not include any increase in the amount of water diverted under the water rights, no fees are necessary for these amendments.

After you have reviewed the enclosed claims and are satisfied they properly describe the water rights as now authorized and used, please have the designated City official sign the claims, having that signature notarized and return them to this office at your earliest convenience.

If you have any questions, please contact me.

Sincerely,

Donald V. Shaff
Manager, Adjudication Section
