HOW YOU WILL RECEIVE NOTICES IN THE SNAKE RIVER BASIN ADJUDICATION

All documents filed in the Snake River Basin Adjudication other than notices of claims are filed with the court. Notices of claims to water rights filed in the Snake River Basin Adjudication are filed with the Idaho Department of Water Resources. Copies of all documents filed in the Snake River Basin Adjudication will not be mailed to all parties (claimants) in the adjudication.

By order of the court, any document filed with the court will be mailed only to those parties who may be directly affected by it. A monthly docket sheet will be prepared by the department which contains a summary of all documents filed with the court in the previous month and the dates and locations of hearings scheduled for the following three months. The docket sheet will be filed with the district court clerk in each county within the Snake River Basin in Idaho. Copies of the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying. If you wish to receive a copy of the docket sheet each month, you should mark the appropriate place on your notice of claim form. You will be charged a small annual subscription fee to cover the cost of copying and mailing. Copies of any document listed on the docket sheet may be obtained from any of the offices of the department either in person or by mail; a small fee will be charged to cover the cost of mailing and/or copying.

Copies of all notices of claims filed with the department will be available for inspection from all offices of the department. Copies of the notices of claims may be obtained in person or by mail, but you will be charged for the cost of copying and mailing. (A claimant will not be charged for a copy of his or her own notice of claim, and a person who acquires property with water rights for which a notice of claim was filed will not be charged for a copy of the notice of claim filed by the previous owner.)

After the notices of claims have been reviewed, the director will prepare and file a report with the court. Part 1 of the report will contain the director's recommendations as to each water right claimed under state law. Part 2 of the report will list each federal reserved water right claimed. A number of reports will be prepared, one or more for each sub-basin in the Snake River Basin. When the report for your sub-basin is filed with the court, you will be mailed a notice informing you that the report for your sub-basin has been filed. The notice will be sent to the most recent address shown by the department's files. Attached to the notice will be a copy of those portions of the report describing the water rights you have claimed. If you do not agree with the way your water right is described, you may file an objection to the report with the court. You can also file an objection if you disagree with the way other claimant's water rights are described, and the notice will tell you where a copy of the full report is available for inspection. The notice will tell you when and where to file your objection. The notice of filing for each sub-basin report will also be published state-wide in local newspapers.

It is very important that you inform the department in writing of any change in your address. This is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

If you are acquiring property with water rights in the Snake River Basin water system in Idaho (either by purchase, gift, inheritance, or other means), it is very important that you inquire of the department whether a notice of claim has been filed. If not, you must file a notice of claim or the water right may be declared by the court to no longer exist. If a notice of claim has been filed, it is very important that you file a written notice of change in ownership with the department. The notice of change in ownership must be accompanied by some evidence of the change in ownership, such as a copy of the deed or a property tax statement showing the name of the new owner. Again, this is to make sure that you receive the notices affecting your water rights that are to be mailed by the department.

The cost of the subscription to the docket sheet is \$7.50 for calendar year 1988. The cost of the subscription may increase a small amount for calendar year 1989 if the cost of copying and/or mailing should increase.

If you are planning to file a motion or other pleading (not a notice of claim) with the court (not IDWR), the court has issued an order setting a special procedure that is different from the usual civil rules. A copy of the order may be obtained from any office of IDWR; you may be charged for the cost of mailing and/or copying.

Dear Ken:

In trying to be sure that all of the claims filed in Basin 57 have been accounted for, we have prepared a final list of those claims we are responsible for, and those claims that it appears fall under your jurisdiction. When we sent you copies of the domestic or stockwater claims remaining on our shelf for Basin 57, we did so without keeping a list of what those were. I thought you might like to have a complete listing of the claims which we show need your verification (we hope), in case we missed sending copies to you. Please let us know if you need copies of any of these claims, and we will be happy to send a copy to you. This list includes the water uses that now fall under the new domestic/stockwater definition, up to .24 cfs. We conducted exams on quite a few claims for domestic or stockwater uses when we went out to examine irrigation systems for the same claimant. I have omitted these claims from this list to avoid any duplication of effort on your part.

Also, as we have been preparing our claim recommendations for the Director's report, there have been a few problem areas discovered that I thought you would like to know about. The Reynolds Creek and Upper Shoofly Creek decrees included filings for domestic and stockwater from both groundwater or surface water sources within the decree boundaries. In researching for any claims filed within these two decrees, for which a decreed right does not exist, we did find a few domestic/stockwater claims also. Enclosed is a memo from Kay Walker who researched the Reynolds Creek decreed area. This memo lists the domestic/stockwater claims she found which do not appear to have an existing decreed right on file. Two of these claims were questionable and Kay has attached additional memos to you concerning items that we could not verify with office records. One problem we have had in handling these types of claims is that the only priority date they can have, if no decreed right exists, would be the day after the deadline for claims filing in that decree, which was August 6, 1979. There is the possibility that they, or a previous owner of their property were not joined in the Reynolds Creek Adjudication, however, all of these claimants do show up as being served notice. Another catch to these type of claims is that only the ones with groundwater sources can have the 1979 priority date, since surface water sources must be prior to May 20, 1971. On the claims we have that fall into this category, we will be recommending the claim for disallowal, and suggesting to the claimants that they may want to record their water right by filing an application for permit.

In the Shoofly Creek decreed area we found only Claim No. A57-10002 for which no previously decreed right exists. This claim is in the name of Robert C. Davis, who did have a decreed right in the Shoofly Creek decree, for which he has filed a claim, however, it is only for an irrigation well with no mention of domestic use. The cutoff for claims filing in the Shoofly Creek decree was September 7, 1982.

This research also uncovered a few claims filed, based on beneficial use with 10,000 series numbers, for which decreed rights did exist, but under a different number. Claim No.'s A57-10083 and A57-10084 fall into this category. These claims should have been claimed under Water Right No.'s 57-07084B and 57-07084F, which were included in the Reynolds Creek decree under Permit No. 57-07084. Therefore, we have changed Claim No. A57-10083 to A57-07084B and Claim No. A57-10084 to A57-07084F, and are notifying the claimant of the number changes. In both claims the priority dates originally claimed are later than the priority dates listed on the existing licenses for each right. We are also notifying the claimant of this discrepancy, and if they do amend the claims to show the earlier dates, we will be sure and send a copy of the amended claims to you. Enclosed are the computer generated copies of these two claims under the new claim numbers attached to a copy of the old claims that may or may not have been sent to you previously.

Also enclosed is a copy of Claim No. A57-10795 which replaces Claim No. A57-02136. I think you may have received a copy of A57-02136 which Kenworthy's originally filed on. As it turned out, Kenworthy's do not own the land listed in that original water right, therefore, they replaced it with Claim No. A57-10795 for a different legal description.

Finally, Claim No.'s A57-07285 and A57-10844 are also enclosed. Claim No. A57-07285 was misfiled in our shelves under A55-07285 at the time copies of the Basin 57 domestic/stockwater claims were sent to you. Claim No. A57-10844 was found misfiled in the Elmore County non-data entered claims and was also not on the shelf when copies were made. As far as we can tell all Basin 57 claims are now accounted for in our office.

If you have any questions concerning the claims in this letter, or any other Basin 57 claims, please feel free to call me. We are discovering that making sense of some of these claims can be very frustrating, and sympathize with you in working towards completion of your claim recommendations.

Sincerely,

JAN SHURTE
