RE: Notice of Claim to a Water Right No. 57-07115

Delbert W. or Judith K. Widmyer
Rt. 1, Box 786
Marsing, ID 83639

Dear Mr. and Mrs. Widmyer:

We are in receipt of the Notice of Error you submitted in regard to the above referenced claim.

Please be advised that we have based our recommendations on the field examination that was conducted on this system, May 19, 1988, and the subsequent license issued on April 6, 1990. Enclosed for your information is a copy of the license issued on the system our examiner found. Please note that the license and our proposed recommendations for Claim 57-07115 are identical with the exception of the consumptive use amount listed on the claim. The consumptive use amount is based on the consumptive irrigation requirement of the most water consumptive crop, which is 3.5 acre feet per acre for your area.

I noticed that you indicated a new address and phone number on the notice of error card. I have changed Claim 57-07115 to show this new address. Enclosed is a profile report of your claim as it is being recommended with the new address and phone number. If this is not your current address, please let me know so that I can correct the recommendations.

If you have any questions regarding the above, please feel free to contact me. If I don't hear from you by September 20, 1992, I will assume you agree with our recommendations and no further changes will be made.

Sincerely,

KAY WALKER
Sr. Water Resource Agent

INSTRUCTIONS

This form has been prepared to assist new owners of property to comply with the requirements of Sections 42-248 and 42-1409(6), Idaho Code. Section 42-248 requires certain property holders to notify the Department of Water Resources (IDWR) of any change in mailing address or ownership of all or part of a water right record on file with IDWR. Section 42-1409(6) provides that new property owners must notify IDWR of any change in ownership of a water right during an adjudication of water rights. Required claims may be filed by a new owner.

Separate brochures are available from IDWR describing the adjudication of water rights and the requirement to notify IDWR of changes in ownership. Please contact your nearest IDWR office, or call 1-800-451-4129, if you would like more information or need help completing this form. Please attach additional sheets to the form if you require additional space to describe or explain any of the items on the form.

1. If there are water rights associated with the property, the seller should be able to provide you with the water right or adjudication claim number(s). Please enter these number(s) at **Item 1**. If you or the seller believes there are water rights for the property but the numbers are unknown, you may wish to contact IDWR for assistance in identifying the water rights for the property in question. If claims for the rights are required, and have not been filed, IDWR will so advise you.
2. The information described at **Item 2** is required, since IDWR cannot process the requested change without documentation of ownership. The preferred types of documentation are shown; contact IDWR if you have difficulty obtaining this information. Do not obtain a new survey for purposes of this form before contacting IDWR.
3. Please provide the name and address of the former owner of the water right and/or adjudication claim at **Item 3**.
4. The name, mailing address, and telephone number of the new owner(s) is entered at **Item 4**. Please indicate the relationship between multiple owners by using the connector 'and', 'or', or 'and/or'. If an 'and' is used, all parties must sign this form. If an 'and/or' or 'or' is used, all parties may sign. However, only one of the named parties is required to sign.
5. At **Item 5**, please provide the date the property in question was acquired. This may be the date of "closing" in the case of a real estate transaction or the date of court order for other types of ownership changes.
6. You may be purchasing only a portion of the total water right held by the seller. This means the water right held by the seller may be "split" to provide your share of the right in question. Be sure to include a description of the portion of the water right you have purchased at **Item 6**.

Please provide as much detail as possible concerning your water right: include the number of homes, irrigated acreage if more than 1/2 acre is irrigated, type and number of stock if your right is for stockwater, etc. In the absence of information to the contrary, IDWR will assume the intent is to split the rights *proportionately*.

7. The new owner(s) must sign the form in the space(s) provided at **Item 7**. Corporations and other organizations must submit a list of directors or officers demonstrating the authority of the director or officer to sign the form.
8. There is no filing fee. When complete, you should retain a copy and return the original of the form to the IDWR office nearest you:

RE: Notice of Claim to a Water Right No. 57-07115

Delbert W. or Judith K. Widmyer
Rt. 1, Box 786
Marsing, ID 83639

Dear Mr. and Mrs. Widmyer:

We are in receipt of the Notice of Error you submitted in regard to the above referenced claim.

Please be advised that we have based our recommendations on the field examination that was conducted on this system, May 19, 1988, and the subsequent license issued on April 6, 1990. Enclosed for your information is a copy of the license issued on the system our examiner found. Please note that the license and our proposed recommendations for Claim 57-07115 are identical with the exception of the consumptive use amount listed on the claim. The consumptive use amount is based on the consumptive irrigation requirement of the most water consumptive crop, which is 3.5 acre feet per acre for your area.

I noticed that you indicated a new address and phone number on the notice of error card. I have changed Claim 57-07115 to show this new address. Enclosed is a profile report of your claim as it is being recommended with the new address and phone number. If this is not your current address, please let me know so that I can correct the recommendations.

If you have any questions regarding the above, please feel free to contact me. If I don't hear from you by September 20, 1992, I will assume you agree with our recommendations and no further changes will be made.

Sincerely,

Kay Walker

B. Narrative Description (As operating at time of measurement, indicate pressure, number of sprinklers, etc.)

THE SYSTEM CONSISTS OF A 10 HP MOTOR ON A
WELLS CENTRIFUGAL PUMP WITH A 9' LONG 4" P.V.C. PIPE
FOR THE SUCTON LINE. THERE IS A CEMENT HEADGATE LEADING
TO BACK UP THE WATER IN SQUAW CREEK FOR THE PUMP.
THE DISCHARGE LINE FROM THE PUMP IS A 2" METAL PIPE
THAT EXPANDS TO A 6" METAL PIPE THEN GOES UNDERGROUND
TO A 6" P.V.C. PIPE WHICH IS THE MAINLINE WHICH FEEDS THE
SPRINKLER SYSTEM. THE SPRINKLER SYSTEM IS A HANDLING SYSTEM

- ### B. Alternate Method for Checking Purposum

1. Volume Calculations for Irrigation

$$V_{ir} = (\text{Acres Irrigated}) \times (\text{Irrigation Requirement}) = 17.696 \times 5.05 \text{ ft} = 89.29 \text{ ft}^3/\text{acre}$$
$$V_{\text{div}} = [\text{Diversion Rate (cfs)}] \times (\text{Days in Irrigation Season}) \times 1.9835 = 4.44 \times 245 \text{ days} \times 1.9835 = 194.38$$
$$V = \text{smaller of } V_1 \text{ and } V_2 = 88 \text{ ac} = f + / 55450 \text{ W}$$
