ATTACHMENT TO EXAM FOR CLAIM A57-07170

When this claim was filed on License 57-07170 the point of diversion and place of use descriptions were changed from the way the right was licensed. Due to this Jan Shurte and I conducted a field examination on this water right to verify the legal description of the property.

When we arrived at the Kershner's home we went in and reviewed our paperwork and maps of the area. The Kershner's brought out their deed of the property. The legal on the deed said:

"A parcel of land situated in the SWSE of Sec. 12, Twp. 1N, Rge. 4W, more particularly described as follows:

Commencing at the SE corner of said SWSE, Sec. 12, Twp. 1N, Rge. 4W, thence North 792' thence North 89°59' West, a distance of 670.5' to the real point of beginning; thence North 264'; thence 89°59' West, a distance of 660' thence South 264'; thence South 89°59' East 660' to the real point of beginning."

We completed our examination and clocked our mileage on the way out to complete our verification. We went .6 mile north from their driveway, then .5 mile east on Sommercamp Rd., then .25 mile north on Sommercamp Road to Owyhee Highway.

Our recommendation is to correct the legal descriptions on the claim. The point of diversion is within the NWSWSE, Sec. 12; the place of use within the SWSE, Sec. 12; Twp. 1N, Rge. 4W, as originally licensed. No "date of change evidence" is required since there was no change made.

RE: Claims filed in the Snake River Basin Adjudication

Dear Claimants:

The Department of Water Resources is now conducting beneficial use and water right claim verification examinations in your area. An examination is needed to verify your water use in order to issue a water right license and/or decree.

Information on your permit or claim which may need to be verified includes source of water, type of usage, amount of water used and legal descriptions of the point of diversion and/or place of use.

In order to expedite these field examinations, due to the oncoming winter months, we request that you contact our office at (208)334-2190 within two weeks to make an appointment at a time convenient for you.

Although it is not mandatory that you accompany the field examiner, it does insure that an accurate description of your system will be made. If either yourself, or someone familiar with the system, could accompany the examiner it would be appreciated.

In some cases, the date of priority also needs to be verified. Recently, letters were sent to some claimants notifying them that evidence of the date of first use of their water right(s) was required. If you received one of these letters and have questions, we can address those during our examination.

If you have any questions or problems with the exam verification, please call within the two week period.

Sincerely,

KAY WALKER
Water Resource Agent
