ADMINISTRATOR'S MEMORANDUM

TO: Regional Offices and Water Allocations Section

FROM: Norman C. Young

DATE: June 4, 1980

RE: Definition of "Domestic"

The Department's interpretation of "domestic", as defined relative to beneficial use for the establishment of a water right, must be divided into two categories: First, the single household domestic use, and second, the general domestic use.

SINGLE HOUSEHOLD DOMESTIC

Single household domestic use must be accurately defined because many water rights within this category are exempt from recording requirements. The current definition is provided by section 42-230(d), Idaho Code, which states:

"Domestic purposes" is water for household use or livestock and water used for all other purposes including irrigation of up to one half ($\frac{1}{2}$) acre of land in connection with said household where total use is not in excess of thirteen thousand (13,000) gallons per day. For the purposes of the exception in section 42-227, Idaho Code, "domestic purposes" shall not include water for multiple ownership subdivisions, mobile home parks, commercial or business establishments.

All surface and groundwater rights within this category are exempt from the mandatory claim filing requirement. Surface water rights developed for single household domestic use after May 20, 1971, must be represented by an application for permit.

Note that "domestic purposes" is defined as water for household use or livestock, so a stockwater well not connected with a household is considered to be included in the definition. Since range cattle consume about twelve (12) gallons per day per head, about 1000 head can be watered within the 13,000 gallon per day limit of the definition.

MICROFILMED
OCT 07 1992

TO: Regional Offices and Water Allocations Section
FROM: Norman C. Young
DATE: June 4, 1980
PAGE: 2

An interpretation of the definition must be carefully made when a second hookup is attached to an existing single household domestic system. The resulting two-household system can be considered as either a multiple system or two single household systems, depending on intent. If the system was designed and built for multiple hookups, then it must be considered to be a multiple system and subject to the recording requirement. However, if the system was designed and built for one household, and the second household was added later in time, two distinct single household domestic water rights may have been established from one well.

GENERAL DOMESTIC

"Domestic" has in the past been interpreted to include a variety of uses for multi-household water systems. Henceforth this term should be used to identify only the in-house or culinary aspect for these systems. For example, the water right description for a housing subdivision should identify irrigation, recreation and fire protection in addition to domestic use. In this way acre-foot values can be assigned to each parameter for an accurate volumetric description of the water right.

A reference to section 42-111, Idaho Code, indicates that the heating of dwelling houses comes within the meaning of "domestic purposes". However, since the 1922 court case from which that statement was taken, the interpretation of the domestic use has been narrowed considerably. Heating should be designated as a unique use.

A quantification of the rate of flow necessary for the in-house or culinary use for multi-household systems has been identified in Figure 1, attached. The flow identified on this graph should be used as a guideline in determining and reviewing domestic use rates of flow on applications for permit with more than one hookup. Greater flows can be accepted if justified.

Use .6 AFA when irrigation is separated (per household)
Use 1.2 AFA when " " included (per household)

CECIL D. ANDRUS
GOVERNOR

R. KEITH HIGGINSON
DIRECTOR

Elizabeth L. Cuff
P.O. Box 254
Gleneden Beach, OR 97388

Dear Liz:

Enclosed is a copy of the license for Water Right No. 57-07236E with the gold embossed seal of the Department. In talking with the state office staff who process licenses, they indicated they no longer use these since the licenses are now computer generated.

Water Right No. 57-04034 was a statutory claim filed by Givens Hot Springs for domestic and commercial use (copy enclosed). We discussed this claim earlier and you did not file a Snake River Basin claim on this right because it had a 1968 priority date for domestic and commercial use from a groundwater source which invalidated the water right due to the groundwater statute requiring an application for permit be filed for a commercial use at the time development of the well was begun on wells drilled and used after 3-25-63. The original Permit No. 57-07236 was filed by Givens Hot Springs in 1979 to cover this well and six others which were either existing or proposed. It appears they planned a development for domestic and heating of 143 homes. Enclosed is a copy of this original permit and Memorandum Decision and Order issued on 5-18-79. After the approval several assignments of portions of the permit began coming in. Lester Moncrief was assigned 122 of the 143 proposed homes and Shirley Marsh retained 21 of which she assigned 1 home to the Jump's and 1 home to the Greene's with the remaining 19 assigned to you as domestic use for .36 cfs along with the heating use for .88 cfs. Your portion of this permit could not be amended from domestic and heating purposes to irrigation and commercial, because it would result in an increase in consumptive use. Therefore we amended it for licensing purposes to domestic and commercial use and filed claim No. A57-10842 to cover the irrigation from the well dating back to 1881 based on the historical irrigation use from the spring at the same location where the well now is. Because of the groundwater statute which requires an application for permit be filed for any development of a groundwater source after March 25, 1963, with the exception of domestic or stockwater uses, we could not use the 1968 priority date on 57-04034 for a commercial use. The Statutory Claim No. 57-04034 is not a valid filing for commercial use due to the priority date of 1968. Therefore, Application for

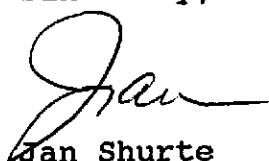

MICROFILMED

JUL 20 1994

Permit 57-07236 was filed in 1979 to legally record the existing uses, and proposed uses, from this well and others. Your Water Right Nos. 57-07236E and 57-10842 both cover this well for commercial and domestic purposes back to 1979 under 57-07236E and irrigation purposes back to 1881 under 57-10842. No objections were filed against any of your rights as recommended and the decree of non-objected rights is proposed to be signed by the Judge in December of this year. There are no other filings by anyone other than yourself to the well in the softball field. No one can claim a right to a source with the point of diversion on another's property without an easement or right-of-way from that person. Your mobile home is listed on 57-07236E, along with the 3 cabins, 32 RV hook-ups, the fountain and all uses in the poolhouse except to fill the pool. The pool water from the spring is covered under Water Right No. 57-04032.

If you feel there is a problem remaining with these rights, please contact me and we can proceed from there. Remember, however, that the 1979 priority date on 57-07236E is the same as Sunrise Park Subdivision's because they were at one time the same right. They are now separate rights and another right with an earlier priority date for your commercial use would have to be a right dating back prior to 3-25-1963 and that can be proven in court to have existed prior to that date. At this time, a court action would have to be initiated by an attorney to enter this late claim. If you feel the commercial use from this well for the uses covered was begun prior to 1963, please contact me. It has always been my understanding that the RV hookups and plumbing in the poolhouse for the hot tubs, etc. began after 1963. Feel free to contact me if you have further questions.

Sincerely,

Jan Shurte

I need to specifically address water right #57-07236E. We received a license for that water right on March 23, 1992 with an incorrect priority date. You were contacted in that regard, and on June 22, 1992, we received a new license with the correct priority date. However, I recently took a close look at the license, and realized it had not been notarized with the Department of Water Resources "seal", as water licenses are. (By "seal", I am referring to the embosser normally used by the Department of Water Resources on these licenses.) So, I am asking that you please send a license with this official seal on it.

One further question is in regard to water right #57-4034, indicated on the enclosed

MICROFILMED

JUL 20 1994

PAGE 1 OF 2 [ELC]

LIZ - ALL OF THE RIGHTS DESIGNATED WITH * ABOVE ARE ONES THAT WERE FINED BASED ON BENEFICIAL USE RATHER THAN BY PERMIT & LICENSE. THEY WILL BE DECREED RIGHT ALONG WITH THE LICENSED RIGHTS & THEN ALL WILL BE CONSIDERED DECREED RTS. AFTER THE JUDGE SIGNS THE DECREE. ENCLOSED IS A PAMPHLET THAT EXPLAINS THE DIFFERENCE BETWEEN THE FININGS.

RE: Water Rights of Elizabeth L. Cuff

Dear Jan:

This is to notify you of my address change, effectively immediately:

New Address:
Elizabeth L. Cuff
P. O. Box 254
Gleneden Beach, OR 97388

Also, please note the following:

<u>Water Right #:</u>	<u>Location:</u>	<u>Current Status:</u>
57-02342	Farm	Have <i>NOT</i> yet received license.
57-10013	River home-well	Have <i>NOT</i> yet received license.
57-07458	River home-recreation	Have received license: Everything is OK.
57-04032	Givens "spring"	Have <i>NOT</i> yet received license.
57-10842	Givens "well"	Have <i>NOT</i> yet received license.
57-07236E	Givens "well"	Have received license, but <i>WITHOUT</i> official DWR seal.

I need to specifically address water right #57-07236E. We received a license for that water right on March 23, 1992 with an incorrect priority date. You were contacted in that regard, and on June 22, 1992, we received a new license with the correct priority date. However, I recently took a close look at the license, and realized it had not been notarized with the Department of Water Resources "seal", as water licenses are. (By "seal", I am referring to the embosser normally used by the Department of Water Resources on these licenses.) So, I am asking that you please send a license with this official seal on it.

One further question is in regard to water right #57-4034, indicated on the enclosed

information. This water right would belong to the current Givens Hot Springs; it would not belong to anyone claiming water rights in Sunrise Skypark, as there was no other well located in section 21 in 1968 or 1979, other than the one currently located on our property. This also concurs with the enclosed data. My question is, how did water right #57-07236E get assigned to our well near the softball field? Is it possible that #57-07236E refers to the well which is located on our property, next to the trailer house? The well, currently assigned #57-07236E, and located near the softball field, is the oldest well on any of the Givens Hot Springs property, both now, and at any time Givens Hot Springs was a part of Sunrise Skypark. It is my thought that water right #57-4034 is the correct water right number for the well by the softball field, which would give it a priority date of 1968.

The reason this has not been noticed before, is because of all the confusion on my part, and on the part of the Department of Water Resources with regard to the Givens area water rights.

Jan, could you please trace this, so that I might have a valid explanation. If my thinking is right, what can be done to correct the error?

Also, would you please inform me when the water right licenses might arrive, which we have not yet received. Your help is greatly appreciated.

Most sincerely,

Elizabeth L. Cuff

WATER RIGHT LICENSE

WATER RIGHT NO. 57-07236E

Priority: January 9, 1979

Maximum Diversion Rate:

0.32 CFS

Maximum Diversion Volume:

79.3 AF

This is to certify, that ELIZABETH L CUFF
11699 W POWDERHORN
BOISE ID 83704

has complied with the terms and conditions of the permit, issued pursuant to Application for Permit dated January 9, 1979; and has submitted Proof of Beneficial Use on December 24, 1990. An examination indicates that the works have a diversion capacity of .320 cfs of water from a **GROUNDWATER** source, and a water right has been established as follows:

<u>BENEFICIAL USE</u>	<u>PERIOD OF USE</u>	<u>RATE OF DIVERSION</u>	<u>ANNUAL VOLUME</u>
COMMERCIAL	01/01 to 12/31	0.32 CFS	78.7 AF
DOMESTIC	01/01 to 12/31	0.02 CFS	0.6 AF
	Totals	0.32 CFS	79.3 AF

LOCATION OF POINT(S) OF DIVERSION:

NWNW , Sec. 21, Township 01N, Range 03W
OWYHEE County

PLACE OF USE: COMMERCIAL

PLACE OF USE: DOMESTIC

TWN RGE SEC

01N 03W 16 Lot 1(SWSW)

CONDITIONS/REMARKS:

1. The maximum diversion volume is defined as the maximum allowable volume of water that may be diverted annually from the source under this right. The use of water confirmed by this right is limited to the amount which can actually be beneficially used. The maximum diversion volume may be adjusted to more accurately describe the beneficial use or to implement accepted standards of diversion and use efficiency.
2. This water right is appurtenant to the described place of use.
3. This right is subject to all prior water rights and may be forfeited by five years of non-use.
4. Modifications to or variance from this license must be made within the limits of Section 42-222, Idaho Code, or the applicable Idaho law.

27.3 AFA

DOMESTIC - 1 HOME IN-HOUSE ONLY - .6

AESTHETIC - NO AFA

TOTAL ALL USES AFA = 22.9 AFA

H. REMARKS AND OVERLAP REVIEW ANALYSIS

WHICH IS RECIRCULATED BY PUMP IN FOUNTAIN. CABINS ARE RENTED OUT SO THEY ARE CONSIDERED A COMMERCIAL USE, ALONG WITH THE SHOWERS, TOILETS, SINKS, ~~DRINKING~~ FOUNTAIN HOOKUPS. DOMESTIC USE IS FOR THE OWNER'S MOBILE HOME & ~~RESIDENTIAL~~ FOR THE ONE-TIME OVERSICION TO THE FOUNTAIN. AMEND PERMIT FROM DOMESTIC + HEATING TO DOMESTIC + COMMERCIAL. NO INCREASE IN AFA SINCE # OF HOMES NOT DESIGNATED. HOWEVER, IF YOU ADD UP OTHER SPLITS IN THIS PERMIT WHICH DID DESIGNATE THE # OF UNITS ASSIGNED YOU HAVE MONCREIF-122, JUMP-1 & GREENER-1. TOTAL-124 UNITS, THEN SUBTRACT FROM THE PERMITTED AMOUNT-143-124=19 UNITS LEFT. 19X124=22.8 AFA & THE TOTAL BELOW IS 22.9 AFA. AMENDMENT SHOULD BE OK.

I. RECOMMENDATIONS

1. Recommended Amounts

Dear Liz:

Enclosed are two amended copies of Claim No. A57-07236E based on our conversation in my office.

Please review this claim and if all is ok sign one of the copies before a notary and return it to this office before you leave for your vacation. The other copy is for you to keep for your records.

If any changes are needed, please make the change prior to signing, initial and date the changes, then sign the claim before a notary. When the claim is returned I can then make the changes in the computer and send out the corrected claim copy to you, or whoever is running your business. Thanks for your patience and feel free to call me if you have any questions.

Sincerely,

JAN SHURTE

OCT 07 1992

BEFORE THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PERMIT	)	
	)	
NO. 57-7236E IN THE NAME OF	)	ORDER OF REINSTATEMENT
	)	
ELIZABETH L. CUFF	)	

This matter having come before the Idaho Department of Water Resources (Department) the Department finds as follows:

FINDINGS OF FACT

1. On May 18, 1989 the Director of the Department of Water Resources issued Permit No. 57-7236 with a condition of approval that proof of construction of works and application of water to beneficial use be submitted on or before May 1, 1984. A portion of the permit was later assigned to Elizabeth L. Cuff and the proof due date was extended to May 1, 1989.

2. On February 7, 1989, the permit holder visited the Department to complete any paperwork and/or requirements under the permit. A representative of the Department advised the permit holder not to submit proof of beneficial use for this permit and instead advised the permit holder to file a Snake River Basin Adjudication claim.

3. Section 42-218a, Idaho Code, authorizes the Department to reinstate a lapsed permit, without a loss in priority, upon a showing of error or mistake of the Department.

MICROFILMED
OCT 07 1992

CONCLUSIONS OF LAW

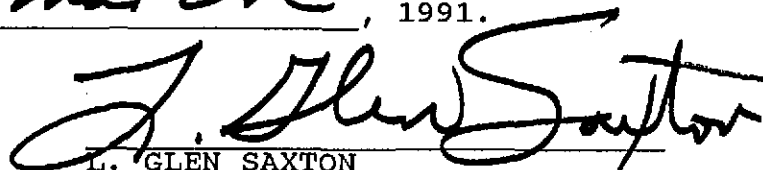

1. The permit holder has submitted proof of beneficial use and did attempt to submit proof in a timely manner. The department erred in advising the permit holder not to submit proof at the time the permit holder first attempted to complete the proof requirement.

2. The permit can be reinstated with the date of original priority.

ORDER

IT IS HEREBY ORDERED that Permit No. 57-7236E is reinstated with the date of original priority.

Dated this 4th day of March, 1991.

L. GLEN SAXTON
Chief, Water Allocation Bureau

RE: Reinstatement of Permit No. 57-07236E

Dear Mrs. Cuff:

As we have discussed, the Department is presently in the process of considering a reinstatement of the above-referenced permit. One document that we do not yet have in the file is a Proof of Beneficial Use Form. Please complete the enclosed form, describing the present use of the water identified in your portion of the permit.

Relative to the fee you have two options. One is to submit the \$100.00 fee with the form. The other is to request that the claim you had filed be withdrawn, and the \$138.00 claim fee be applied to this proof of beneficial use fee. If this technique is requested and approved we would reimburse to you the remaining \$38.00.

Please return the form along with your decision relative to the fee directly to my attention at your earliest convenience. I will hand-carry the form to our State Office to discuss the possibilities of reinstating the permit.

Please feel free to contact this office if you have questions regarding this procedure.

Sincerely,

David R. Tuthill, Jr., P.E.
Manager, Western Regional Office

MEMORANDUM

TO: GARY SPACKMAN & TIM LUKE
FROM: JAN SHURTE
SUBJECT: REINSTATEMENT OF PERMIT NO. 57-07236E-ELIZABETH CUFF

DATE: 11-20-90

This memorandum is a request for reinstatement of Permit No. 57-07236E in the name of Elizabeth L. Cuff for .36 cfs for domestic use and .88 cfs. This request is based on the fact that Elizabeth Cuff did proceed with diligence and developed the source and use under this permit and did visit our office on several occasions to complete any requirements she was told to in order to keep this permit in good standing. Following is a brief summary of what has occurred on this permit.

On October 25, 1988, Elizabeth Cuff came to our office to file adjudication claims on her water rights in Owyhee County. Eldon Roush assisted her in completing claims on Water Right No.'s 57-07458, 57-04032 and a beneficial use Claim No. A57-10013. On this same date he discussed Permit No. 57-07236E and the present uses from this well. Those uses were domestic and heating which are covered by this permit, along with an irrigation use for approximately 10 acres. Eldon had Mrs. Cuff file an Application for Amendment on this permit to change the nature of use to irrigation of 15 acres for .30 cfs, domestic use for .04 cfs and commercial use for .54 cfs to total .88 cfs. Mrs. Cuff signed the application and paid the \$20 fee at that time. She has written in her notes that Eldon told her not to file a claim on this permit (which is true-not required) and that the application for amendment must be approved first, then she could adjudicate her right during the second round notices. I believe he was talking about the possibility that the Director can and may require claims to be filed at a later time on those permits with proof of beneficial use submitted after 11/19/87, for which claims are not now required. In any event Mrs. Cuff believed at that point all was taken care of until the second round notice.

Eldon spoke to myself and then Dave Tuthill concerning this application for amendment. Both of us told him it would not be approved due to the domestic/heating purposes being changed to irrigation/commercial which would be an increase in the consumptive use on the permit. So, on February 7, 1989, Mrs. Cuff returned to our office at Eldon's request to withdraw the amendment application and complete any further filings needed. At that time Eldon had her file a claim on this permit, although it was not required, for just domestic purposes for .88 cfs. Mrs. Cuff also paid a \$138 fee for the claim at that time. This claim states the purposes of use in the remarks, which again included irrigation. Mrs. Cuff stated that Eldon indicated to her that the claim was all that was required in the future and not to submit proof. I did not find any notes in our file substantiating this, however, neither did I find anything denying it. Much confusion concerning what to file for this permit is indicated, and it

MICROFILMED
OCT 07 1992

is easy to see how misinformation may have been given. The withdrawal of the application for amendment was sent to Mrs. Cuff on 2/8/89, having been forgotten on the office visit 2/7/89. It was received back on 2/10/89.

It came to Mrs. Cuff's attention that a lapsed permit means no permit during our contact with her to set up an appointment to conduct adjudication field exams. Field exams were conducted on all her claims, including A57-07236E, by Kay Walker and myself. Under this permit we did find the domestic and heating uses listed along with irrigation of approximately 10 acres. This source (spring upon which a well was drilled) has documented proof that it had been used since 1881 for irrigation and was continued to be used for irrigation even after the well was drilled on the existing spring. I am now recommending Mrs. Cuff file a beneficial use claim for this irrigation use, which should have been filed at the time the other adjudication claims were taken by Eldon. Permit No. 57-07236E was filed for and does cover the newer domestic and heating use from the well for their now existing RV park (as long as it is reinstated). The spring under 57-04032 was amended by Eldon to show irrigation use for 5 acres, however, it is used only in the pool house.

Therefore, I request and urgently recommend that this permit be reinstated with no loss in priority, due to the confusion and apparent misinformation given to the permit holder by a Department employee. The permit holder has proceeded with diligence in attempting to keep this permit in good standing. This diligence is evidenced by the filing of the adjudication claim and payment of a \$138 fee on 2/7/89, even though the claim was not required at that time, since proof of beneficial use had not yet been filed. Proof was due three months later on May 1, 1989, and obviously should have been filed instead of the claim when Mrs. Cuff was in to file. This error alone should prompt reinstatement of the permit. The proof due date was extended to 6/1/89 in May because the proof due notice was not mailed timely.

Another reason for action on this request concerns an upcoming protest hearing on November 27th. Lester Moncreif has filed an application for amendment to increase his Permit No. 57-07236G from 5 wells to 27 wells. All of these wells are surrounding Mrs. Cuff's well and spring, therefore, she has filed a protest to this amendment application. Since it may make a difference on her testimony that day, and because it appears an error was made, expediency in the processing of this request is necessary. Also, a decision is needed in order to write up the field exam and have enough time to issue the license before our Basin 57 report goes to the printer. Rather than take proof of beneficial use at the time of the exam, I felt it was better to wait until a decision was reached on this memo.

LAPSE NOTICE

RE: PERMIT NO. 57-07236E

Dear Permit Holder:

You are hereby notified that under the provisions of Section 42-218A, Idaho Code, the above referenced water permit has lapsed. This office did not receive either an acceptable proof of beneficial use submittal or an acceptable request for an extension of time. You were provided the proper form in our proof due notice to you dated March 31, 1989.

Your permit cannot be reinstated unless you submit proof of beneficial use or submit an extension of time request showing reasonable cause for delay. Either the completed proof of beneficial use submittal (including the examination fee or a completed field examination report) or the extension request form together with the \$15 fee must be received by this department within sixty days of the date of mailing of this lapse notice or the permit will no longer be of any force or effect.

A proof of beneficial use form and a request for extension of time form are again enclosed for your use. Please note that only one extension of time can be granted unless the project has not been completed because of lack of a necessary approval by a governmental agency or by litigation which might bring title to the water in question.

ACTION OF THE DIRECTOR, DEPARTMENT OF WATER RESOURCES

This is to certify that I have examined Application for Permit to appropriate the public waters of the State of Idaho No. 57-7236, and said application is hereby APPROVED.

1. Approval of said application is subject to the following limitations and conditions:

- a. SUBJECT TO ALL PRIOR WATER RIGHTS.
- b. Proof of construction of works and application of water to beneficial use shall be submitted on or before May 1, 19 84.
- c. The rate of diversion, if water is to be used for irrigation under this permit, when combined with all other water rights for the same land shall not exceed 0.02 cubic feet per second for each acre of land.
- d. Other: PURSUANT TO MEMORANDUM DECISION AND ORDER OF THIS DATE.

Witness my hand this 18 day of May, 19 79.

Director

MICROFILMED

OCT 07 1992

BEFORE THE DIRECTOR OF THE DEPARTMENT OF WATER RESOURCES
OF THE
STATE OF IDAHO

IN THE MATTER OF PROTESTED APPLICATION
FOR PERMIT NO. 57-7236 IN THE NAME OF
GIVENS HOT SPRINGS, INC.

MEMORANDUM DECISION
AND ORDER

On January 9, 1979, Givens Hot Springs, Inc. applied to the Department of Water Resources for permit to appropriate 6.0 cubic feet per second of water from a groundwater source from seven existing wells, one well located in the NW $\frac{1}{4}$ SW $\frac{1}{4}$, three wells in the SW $\frac{1}{4}$ SW $\frac{1}{4}$, Sec. 16; two wells in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, and one well in the SW $\frac{1}{4}$ NE $\frac{1}{4}$, Sec. 21, all in Twp. 14, Rne. 3W. The water to be used for in-round domestic purposes in the SE $\frac{1}{4}$ SW $\frac{1}{4}$, W $\frac{1}{2}$ SW $\frac{1}{4}$, Sec. 16; SW $\frac{1}{4}$ NE $\frac{1}{4}$, NE $\frac{1}{4}$ SE $\frac{1}{4}$, Sec. 21; all in Twp. 14, Rne. 3W.

Notice of this application was published in the Twyhee Nugget on January 18 and January 25, 1979. Protests against the granting a permit were received from Teddy L. Gammett on January 23, 1979, James Jensen on January 29, 1979, Leroy V. Rysba on January 31, 1979 and Elias Jaca on February 2, 1979. The protestants objected to the issuance of a permit because they felt diversion of 6.00 cubic feet per second would adversely affect their existing water supplies by reducing the quantity available.

On February 15, 1979, Department personnel made an inspection of the area and located and mapped the wells in question. The examiner noted artesian pressure existed and some of the wells were not in use. No determination of groundwater interference was attempted.

On March 22, 1979, a conference was held in Murnby, Idaho. Givens Hot Springs, Inc. was represented by Eldon R. Marsh, Vice-president and Steve Brutt Hanson. All protestants were present and represented themselves. The permit and reasons behind the protests were discussed.

Based on the information presented during the conference, by the applicant the protestants and the information contained in the official department records, the protestant Leroy V. Rysba withdrew his protest and the other protestants and applicant agreed to allow the Department of Water Resources to reach a decision in the matter.

MICROFILMED
OCT 07 1992

The Department has taken the issues under consideration and based upon the Director's understanding of the law, the Director of the Department of Water Resources makes the following Findings of Fact, Conclusions of Law and Order:

FINDINGS OF FACT

1) The protestants have developed use rights for domestic and stock watering from a groundwater source and depend upon artesian flow to provide water for the systems.

2) When Elias Jaca starts pumping it causes Leroy V. Rysha's well to cease to flow and when Jaro. Jensen starts pumping it affects the flow of Teddy Gammett's well.

3) The applicant has seven existing wells as his source and may drill new wells if required. None of the protestants' wells cause fluctuations in the applicant's existing wells. All of the wells in the area are at different depths and exhibit different water temperatures.

4) The protestants did not show that use of the applicant's wells would adversely affect their wells and have new filings on record with the Department of Water Resources to increase their own use of groundwater.

5) The applicant has indicated that the water temperature may not be suitable for heating as applied for.

6) The normal amount of water allowed for domestic use for 143 homes is 2.66 cubic feet per second.

CONCLUSIONS OF LAW

1) The protestants have developed prior water rights from the groundwater system and they presently enjoy the benefit of a water level that is higher than the land surface. These prior water rights, however, must not be exercised in a manner that interferes with the full economic development of the groundwater resources.

2) No evidence has been presented that shows the withdrawal of the additional water requested to be diverted by the applicant will cause interference with the protestants' wells; therefore, unappropriated water is available at the proposed points of diversion and the applicant is entitled to seek the water for his project as described by this application.

3) A development for domestic purposes not including heating is not entitled to more than 2.66 cubic feet per second for 143 homes.

ORDER

It is, therefore, HEREBY ORDERED and Application for Permit No. 57-7236 is approved subject to the following conditions:

MICROFILMED

OCT 07 1992

- 1) This permit is subject to all prior water rights.
- 2) An access port or other device as specified by the Department shall be installed by the permit holder to provide for the installation of measuring equipment and the determination of the rate of diversion by the Department.
- 3) The rate of diversion shall not exceed 6.00 cubic feet per second for domestic and heating or 2.66 cubic feet per second for domestic only.
- 4) Return water shall be treated to insure that the effluent meets intrastate stream water quality standards.
- 5) Proof of beneficial use of water shall be submitted to the Department of Water Resources on or before May 1, 1984.

Dated this 12 day of May, 1979.
