SYSTEM DESCRIPTION ATTACHMENT TO CLAIM VERIFICATION REPORT

CLAIM NO. A57-10332

Spring developed with perforated pipe. Very little variation in flow per claimant.

Spring flows into a 2-3 acre pond, 10' deep in most places; some places pond has filled in with silt and dirt. There is a second spring flowing into pond which we advised the claimant to file an application for permit on; he also proposed to enlarge the pond.

Pond has been stocked with trout for recreation.

A 60 HP diesel engine for pump is used to pump water from pond. 10-15' lift from pond to place of use.

Dear Mr. Geertson:

We are currently in the process of preparing the above referenced Notice of Claim for court decree in the Snake River Basin Adjudication. During this review certain questions arose concerning the claim listed above. All claims with an A57 prefix number are being reviewed at this time. If you have other claims with this prefix, that are not shown here, we may be contacting you again if questions should arise during their review.

This claim was filed based on beneficial use of water dating back to March 30, 1965. On October 12, 1990, the Department sent you a letter requesting that you submit evidence supporting the priority date you have listed on the above claim. This evidence was to have been submitted by December 1, 1990. However, this evidence has not been received in our office.

Before the Department can make a recommendation to the Court for decree of this claim, some evidence of the priority date claimed must be submitted. Again we are enclosing a brochure outlining types of evidence you may submit. If we do not receive the requested information, this claim will be recommended for disallow due to lack of evidence supporting any priority date.

Thank-you for your cooperation. If you have any questions, or if you need help in any way, please feel free to contact me at (208)334-2190.

Sincerely,

KAY WALKER

HOMEDALE

ID 83628

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by December 1, 1990, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte
