Mr. Karl Dreyer, Director
1301 N. Orchard St.
Boise, Idaho 83705-5082

Dear Mr. Karl Dreyer,

On February 6, 1997, we applied for three applications for permits with Jan Shurte. The purpose of this correspondence is to express hope that this process be completed for the 1997 growing season. Under our existing water rights, we are trying to increase the efficiency of water currently being utilized. A brief summarization of each of those applications is as follows.

First, regarding water right known as 57-07267. ^{NO CLAIM} Currently this well is being utilized only three out of the four weeks a month during the growing season. In addition to this existing time period, it would be our intent to use this well water during that one week period of non-use.

Secondly, water right 57-02235 is a well that is currently being utilized only as flood irrigating via miles of dirt laden ditches. As you are aware, sprinkling would be a much more efficient method and useage of the water. It is our goal to utilize the existing amount of water with sprinklers but apply it over a broader base of ground.

Lastly, right 57-10558 is a situation where the water is in useage approximately 80% of the time. We would like to utilize that remaining 20% in order to make more efficient use of the current system.

In closing, we would appreciate you and your staff's efforts to expedite the processing of these three permits. If you have any questions or concerns we would be happy to address those. Thank you for your time and attention regarding this matter.

Sincerely,

Robert Thomas

Mr. Karl Dreyer, Director
1301 N. Orchard St.
Boise, Idaho 83705-5082

Dear Mr. Karl Dreyer,

On February 6, 1997, we applied for three applications for permits with Jan Shurte. The purpose of this correspondence is to express hope that this process be completed for the 1997 growing season. Under our existing water rights, we are trying to increase the efficiency of water currently being utilized. A brief summarization of each of those applications is as follows.

First, regarding water right known as 57-07267. ^{NO CLAIM} Currently this well is being utilized only three out of the four weeks a month during the growing season. In addition to this existing time period, it would be our intent to use this well water during that one week period of non-use.

Secondly, water right 57-02235 is a well that is currently being utilized only as flood irrigating via miles of dirt laden ditches. As you are aware, sprinkling would be a much more efficient method and useage of the water. It is our goal to utilize the existing amount of water with sprinklers but apply it over a broader base of ground.

Lastly, right 57-10558 is a situation where the water is in useage approximately 80% of the time. We would like to utilize that remaining 20% in order to make more efficient use of the current system.

In closing, we would appreciate you and your staff's efforts to expedite the processing of these three permits. If you have any questions or concerns we would be happy to address those. Thank you for your time and attention regarding this matter.

Sincerely,

Robert Thomas

Dear Claimant(s):

Enclosed are copies of the Notice of Completed Administrative Proceedings and pertinent water rights recently sent to the Snake River Basin Adjudication Court in Twin Falls. These documents are now required to be filed by the Department in order to notify the Court of any changes to your water right after it was filed with the Court in October, 1992.

Also enclosed, for your records, are copies of water right nos. 57-10624, 57-10627B, 57-10632, 57-10643 and 57-10644 which have already been decreed by the SRBA court, and claim nos. A55-02029, A55-02434, A55-10094 and A55-10095 which will be submitted to the court for decree at a later date.

Please contact this office if you have any questions concerning this notification.

Sincerely,

* Per legal division - Catherine Creek decree included
sources trib. to Catherine Creek, therefore, Spring
source should have been included in decree along
with the rest of the sources covering this same
pl. of land. Advance priority to the date of one day
after the decree was signed. 10-8-1915. Evid. supports
this date also. See evid. in file received 11-19-90 (attached)

SYSTEM DESCRIPTION ATTACHMENT TO CLAIM VERIFICATION REPORT

CLAIM NO. A57-10558

Spring rises approx. 100' north of ditch diversion. It flows into a drain, rises throughout the drainage area & is dammed up (div. dam) & diverted northeast to the fields in the S $\frac{1}{2}$ of Sec's 28 & 27. Flows into ditches from Catherine Creek and hot well which also flood irrigate this land. Stock drink from spring drain & ditches.

Dear Claimant(s):

In the past, you submitted the above referenced claim(s) in the Snake River Basin Adjudication. Enclosed is a computer generated print-out of the claim(s) for your reference only; this print-out is NOT to be returned or re-filed. You have indicated when this claim was filed that the water right(s) was based on "Beneficial Use" of the water. Water rights of this type are established by the historical use of water for a beneficial purpose, dating back to the time the water was first used, this date being the "Priority Date" as shown on the enclosed print-out. Your claim(s) has not been confirmed by a previous filing with the Department of Water Resources since there is no license, decree or permit on file to verify the use of this water. For this reason, the Department is under a legal requirement to gather evidence from claimants supporting the date of first use, or "Priority Date", for claims based on historical beneficial use of water.

Enclosed is a pamphlet entitled "Evidence of Priority" which describes the types of evidence required and explains what kind of documents will fulfill this requirement. While we encourage you to read the entire pamphlet, we would like to direct your attention to the right-hand half of this pamphlet once you open it. There you will find information concerning the evidence requirements mentioned above. The other sections describe to you why this evidence is necessary.

If no evidence is submitted, or we do not hear from you within the time limit below, your priority date, as claimed, cannot be recommended to the Court for decree. This could jeopardize your water use under this right(s), if water availability problems arise in the future. It is our goal to decree the historical water rights within the Snake River Basin as accurately as possible. Field exams to verify other items of the above claim(s) have been or soon will be conducted by Department personnel.

Please submit the required evidence supporting the priority date(s) by December 1, 1990, referencing all documents with the corresponding claim number(s). If you have any questions not covered by this letter or the enclosed pamphlet, please contact a water resource agent in this office.

Sincerely,

Jan Shurte
